DEFINITE PLANS

Committees Appointed to Further the Project of the Young Men's Ass'n.

Proposed Constitution is to be Drafted and Plans for the Building to be Secured.

The advisory committee of Young Men's Association met in the vestry of Park street Methodist church last evening with the following members present, D. McLachlan, James Eckersley, of St. Andrews; T. M. Tennent, Baptist; Fred. Thompson, J. W. Hemphrey, Victoria avenue Methodist; F. D. Laurie, H. W. An-derson, First Presbyterian; and W. H. Westman, Park street Methodist The chairman, Dr. R. V. Bray, was late and D. McLachlan was appointed chairman pro tem. Fred. Thompson was appointed to act as secretary.
W. H. Westman, on behalf of Mr.
Laurie and himself, reported meeting the Ministerial Association, the result of which was published in

Monday's Planet. After much discussion it was de-: \$1, \$1.50, \$2 and \$2.50 cided that a committee be appointed to draft a constitution as near as possible to the wants of the Association. Mr. Anderson moved, seconded by Mr. Humphrey, that the committee be composed of H. W. Westman, J. S. Lane, F. D. Laurie and James Eckers-

ley. The motion carried. James Eckersley, who had been ap-pointed with Dr. Bray and H. Mc-Auley as a committee to look up rooms for the committees to meet in, reported that he had understood it was rooms to be temporarily used by the Association. This point was discussed whether

er not temporary rooms for that purose would be engaged. Mr. Eckersley thought that the As-sociation should be begun at once by renting rooms and fitting them up. The material used in so doing could be used in the new building

when completed. Mr. Laurie differed from Mr. Eck ersley, saying that would look too much like an old half-way measure and the boys would say, "Oh, that's all it's going to amount to." "That Thomas Stone & Son isn't what we want," declared Mr. Laurie, "we want to keep the big proposition before their eyes and have the great end in view."

The matter was fully threshed ou and on motion of Messrs. Tennent and Westman, it was decided that one or two rooms be secured for the use of the Association for organiza

tion purposes.—Carried.

D. McLachlan and secretary Fred. Thompson were appointed to look after the legal end of the matter. H. W. Anderson, J. W. Humphrey, James Gray and W. H. Westman were appointed as a committee to get rough sketches and estimates of the cost of the proposed building for the Association.

The meeting adjourned to meet in wo weeks, the place of meeting to be announced in the papers.

FOUND THE MAN

Police Officer Dezelia, of this city, and Detective Shannon, of Port Huron, arrested Frank Yates, alias Robert Reilly, alias Robert Ryan, out in Raleigh Township last evening. Yates was wanted on the charge of rape. Through Windsor parties it was learned that Yates was near Chatham but he couldn't be located. Detective Shannon has been here several times, but without success. Yesterday he again arrived in the city and in company with Officer Dezelia set out to look for the man. The officers of the law had no idea where to look, but they decided to take a trip through Raleigh Town-After driving nearly all afternoon Yates was finally located about 6.30 at Colin Roe's. He had been working for Jack Smith husking corn and was boarding at Roe's. Yates consented to be extradited and Shannon took him to Port Huron

STRIKE RENEWED

vesterday afternoon.

the seven collieries of Coxe Bros. & Co., the four mines of G. B. Mar-kle & Co., and the Silver Brook op-eration of J. Wintz & Co., was officially renewed to-day, on an order issued by District Secretary Galla-gher, of the United Mine Workers, pon instructions from President Mit-

The strikers at those mines were ot permitted to return to work in a The Coxes insisted that their niployes must make personal application for their former positions, and G. B. Markle & Co., required that each man, before going back to work must promise to abide by the decision of the arbitration commission, The mine workers allege the object of these requirements is discrimina-

tion against men who were prominen in the srtike. A. Pardee & Co,'s collieries, where he men have been asked not to interfere with non-union hands, are not included in the strike order. The men voted on Saturday not to rewithdrawn. ume work until the agreement is

The Arbitrators Begin Their Tour of the Anthracite Region.

Don Overalls, Lamps, Etc., and Spend Hours Watching the Men Work.

Scranton, Pa., Oct. 30 .- The real work of the arbitration commission appointed by President Roosevelt to adjust the differences existing be-tween the coal operators and their employes began to-day. Briefly stated, the day's work will consist of a general inspection of the inside and outside workings of coal mines and the homes and surroundings of the workmen. All of the region lying north of here to Forest City, a stretch of 22 miles, will be gone over. This will take up the entire day. To-morrow and Saturday the mining region from here south to Wilkesbarre will be looked over. The commission is making this tour so that the members may gain a better idea of mining, in order to more intelligently understand the testimony which will be given by experts for each side of the controversy. No testimony will be taken during the inspection trips, The commission party consists of 14 tendents and a number of newspaper correspondents, left the Delaware & Hudson Railroad station for Forest City this morning in a special train of Pullman cars, the expense of which is being borne by the commissioners.

Forest City, Pa., Oct. 30 .- The commission arrived here at 11 o'clock. A small crowd, among them some mine workers, were at the station to see them. The party was driven in carriages to the Number 2 shaft of the Millside Coul & Iron Co. which is operated by the Eric Railroad Co. The depth of the mine is 410 feet. This operation is said to be one of the best in the upper region, and was for scrutiny by the commissioners. nothing more was heard of the undistance from the shaft, and were shaft in the mine carriage. Judge Gray, Bishop Spalding and the others donned overalls, jumpers and miners' caps. Some of the party carried miners' lamps in their hands, while the others had them fastened to the caps. There were about 500 men and boys at work in the mine when the party was lowered into the workings. About an hour before the commissioners arrived at the shaft a Hungarian was killed by a fall of reef in the Sliffar mine, which adjoins the one the commissioners inspected. He was pinned down under the fall and his lamp set fire to

his clothing. He was roasted to death. During the two hours spend under ground by the commissioners, a thorough inspection was made. The commissioners were taken about a mile from the foot of the shaft and also went into the Clifford mine which adjoins No. 2 shaft. The arbitrators were greatly interested in the blasting of coal by the miners The workmen were asked many questions by different members of the commission as to their age, character last night, leaving on the 9.10 ex-press for Detroit. Officer Dezelia says that they drove nearly 40 miles of work, rate of wages, etc. After the party came to the surface an inspection of the outside buildings was A BIG DAY'S WORK.

Scranton, Oct. 30 .- (Midnight)-The

anthracite coal commissioners to-day made a tour of the extreme upper coal field and saw every step taken in the production of coal from the time it is blasted from the ground up to the point where it is sent to mar-ket ready for use. The arbitrators returned, grimy from coal dust and tired after eight hours of observation and investigation. The commissioners displayed the greatest interest in every feature of coal mining, although they had to endure many discomforts, make their way through wet places in the mines, almost crawl along some of the gangways in the workings and pass through clouds of dust in the breakers. On the run up the Lackawanna Valley the commissioners had a good view of the several mining towns situated along the Delaware and Mudson Railway.

Stephen Corbett took a night's lodging at the police station last night. He said he had just come from Detroit. This is the man who was, with some difficulty, taken back into the House of Refuge after he had left

MANY GAMES

Sharper to Separate Men From Their Cash.

Ab. Merrill Says That Kent and Chatham People are Above the Average Intelligence.

They were discussing frauds and sharpers, when one of the party passed the remark that he could not understand how people of to-day, especially the farmers, could allow themselves to be taken in by some of the simple little games practiced by sharpers going around through the country. "Well," said Ab. Merrill, who had been mostly listening up to this point, "If you ever lived up around Brantford, you would think the farmers around here were sharpers themselves. there, any kind of a game works and everybody bites-from the simplest game of selling bibles to the deepest devised scheme."

Ab., at one, time, lived at Brantford, and is well acquainted with the place and the people in and around it. He says that some of the people there are the easiest marks imaginable. "Why, when I was there," he conitued," some stranger came along, seffing bibles-a dollar down and another dollar when delivered and everybody bought them, Of course

they all got soaked. "Another fellow commenced canassing for orders for hulled oats. He had a sample of his oats along with him and he had the farmers actually believing that they could grow oats, with no hulls. Everybody bought the oats at a high price and sowed them, and of course the oats did not come up at all. Then some one tumbled and saw through the game, but by this time the man was miles away with a good lot of their noney in his pocket.

"The worst game I think I ever saw was worked in the same place-Brancford. A man and a woman tine. No appointment of a Minister stopped off at the house of a wealthy persons. The entire party, which also farmer one day and asked if they includes four general mining superin- could get board for a few days offering to pay a good price for it. This day the stranger explained to the farmer that he and the young lady had run away to get married and asked if the wedding ceremony could be conducted in his house. This request was granted as readily as the first and the stranger went for a clergyman and brought back a man who, of course, was also a fraud and an accomplice. The mock wording was performed, and the farmer was requested by the minister (f) to act as a witness. This was all right, so the obliging farmer signed his name to what he thought was the wedding document. It turned out afterwards, however, that he had unconsciously signed a selected by the operators for in-spection. The mine workers' repre-for \$500. The note was discounted at sentative will also select a colliery the bank almost immediately and

"These are a few samples of the taken to the engine room at the brightness of the Brart Jord people and by comparison I think you will find that the farmers and residents around Chatham, have a splendid amount of

St. Thomas, Oct. 30.—The first step towards the extending of the L. E. & D. R. R., from this city to Buffalo, for the use of the Pere Marquette Railroad, who have secured control of the former road, was made this afternoon, when Assistant Engineer Meddams, of the L. E. & D. R. R., togehter with six men, commenced the survey of the proposed new line. They will commence at the junction near Thomas Bros.' factory, and will continue their survey as far as Simcoe, when they will be met by another party which is being started from Niagara Falls. The work will take about a month's time's

DANGEROUS FOES

London, Oct. 30 .- Sir Horace Rumbold, formerly British Ambassador at Vienna, in an article in the November National Raview, reviews the Anglo-German hostility displayed during the Boer war. He declares it to be his firm belief that the Germans continue to be potentially England's most unrelenting and dangerous foes. The pro-Boer movement was only an indication of the long existing and deeply-rooted antipathy to Great Britain.

THE CABINET

Over Filling of the Tarte Vacancy-Brodeur not so Sure.

Prefontaine Putting up a Vigorous Bid, but it is Opposed by the Tarteites.

Ottawa, Oct. 30 .- No announcement was forthcoming this morning as to the new Minister of Public Works. remier Laurier was at his office, but had nothing to say.

It is now stated that considerable difficulty is being experienced in reconciling the Montreal forces, and the outcome is uncertain. Mr. Prefontaine is reported as positively re-fusing the Speakership, and a rumor is prevalent that Mr. Brodeur refuses the Public Works, but this is not believed by many.

As it stands now there is more un-

certainty than ever, although last night the feeling was that the matter was settled.

There was a meeting of the Cabinet this afternoon, at which all the members but Mr. Fitzpatrick were present. It was announced that the business disposed of was purely routo succeed Mr. Tarte has made, but it 'was said the Premier consulted his colleagues on the question at to-day's council. It may be some time before the an is made, as it is said Mr. Prefontaine is putting up a vigorous bid for the honor, and is being strenuously opposed by the Tarte wing of the Quebec delegation in the House.

THE CAMPAIGN

A. D. Westman, president of the City Temperance Association, reports that the party are fast rounding into shape for the coming fight. The organization in the city is almost entirely completed and the workers have every confidence that they will win the contest. They are now arranging for a series of special meetings, which will be commenced shortly, probably in a couple of weeks.
The offices, which have been open

ed in the Atkinson Block, will used jointly by the city and the county associations, and ansone who wishes to help the cause along will be warmly welcomed by the secretaries, who may be found at this

"A number of people have asked me lately how this measure that we are fighting for compares with the Scott Act," said Mr. Westman this morning. "The two measures are not to be compared. In the Scott Act there was no Government measure to compel its enforcement, but this time there is, and if we win out in the campaign we will have the Government behind our backs to enforce the law. I feel sure that the temperance party will come out victorious in this campaign.

Books of coupon tickets may be had for the Lyceum Course at the Central

************************************* The "Arch-Support of a "Dorothy Dodd" SAVE THE FATIGUE

When your foot is tired from long walking or standing, you rest it mostly by holding it in your hand and compressing it firmly around and beneath the instep. That is exactly what the "Dorothy Dodd" Shoe does for you all the time. It is like a soft hand firmly grasping the 'waist' of the foot and supporting the arch. You will never realize how much of your daily fatigue can be relieved until you try a "Dorothy Dodd." A "Dorothy Dodd" retains its arched shape and sets closely up to the foot after it has been worn for months. No other shoe is made like it. Other shoes bend at every step you take. Thus the foot becomes tired. Is it worth while when the remedy is so simple.
