## Colds & Common Sense

You have a cold, or your child has a cold; a tight feeling across the chest; a soreness in the breathing tubes.

In the past how have you treated such? You have bought some cough mixture, and swallowed this down into your stomach. Now, why? Your stomach was not ailing; and there is no direct connection between your chest (where the trouble is) and your stomach! Then why swallow into your stomach any mixture when the trouble is in your lungs and bronchial tubes?

It's a mistake; and Peps is the remedy provided to correct this un-commonsense treatment. Peps are little tablets, which contain highly beneficial Pine essences, combined with other medicinal extracts. These healing extracts are so prepared that as soon as you put a Peps into your mouth they are liberated in the form of healing vapors. You breathe these vapors down to the throat and lungs, and thus treat the organs that are inflamed, direct. In a way, it is like breathing from a vaporizer or bronchitis kettle, except that there is no apparatus needed, the little Peps providing everything needful for the treatment! The very small portion of Peps which you swallow has a slightly tonic effect upon the stomach and does you good, but the use of Peps is not for stomach troubles, but for lung, throat and bronchial troubles. Peps relieve these as no ordinary treatment can.

Children like Peps and they are best for the little ones because Peps contain no morphine, laudanum or other poison found in so many of the old cough mixtures.

Druggists and stores everywhere sell Peps 50c. box or from Peps Co., Toronto, for price. Remember the name—four letters only:—
