

THE HAMILTON TIMES

FRIDAY, JULY 30, 1909.

PLAY THE GAME FAIRLY.

Mr. Armstrong, M. P., appears to be aspiring to a place on the record of fame as the father of the Canadian agitation for rural postal delivery.

Chief of police. The sweet-box and third degree methods of which the United States have furnished so many illustrations, are as illegal and as iniquitous as other crimes of violence, and are constant reminders that our neighbors have to struggle to protect themselves, not only against the criminal element, but also against the officials who should be the upholders of the law.

AS CANADIANS VIEW IT.

Mr. J. Hall Richardson discusses in the Fortnightly Review the question of emigration to Canada, from the British point of view.

The British Government has granted Lady Wylie, whose husband was assassinated by a Hindu, a pension of \$2,500 a year.

But whatever may have been Mr. Armstrong's knowledge of the Government's determination, he can claim no title to pioneerism in the movement for Canadian rural mail delivery.

By the way, who is the owner of the vermin repository into which those poor hospital nurses were placed? And if the Hospital Board be forced to pay rent for it for two years, what use will it be of it?

It is not that, sir, explained the barber, smiling. "Sometimes I make a mistake and take a little piece off a customer's ear."

Wonder if those diligent incubators of majority booms are not disappointed at finding that Mayor McLaren did not make haste to accept that inventor's invitation to an airship cruise.

Don't run away with the idea that while bedbugs may be filthy and disgusting they are not actually dangerous. The deadly disease, cerebro-spinal meningitis or "spotted fever" is said by sanitary authorities to be communicated to human beings by their agency.

The United States postal department are vigorously prosecuting the swindlers who have been operating an "endless claim" suit club.

A committee has been formed to forward the scheme for an international celebration of the century of peace between Canada and the United States, which has followed the war of 1812.

All the school masters and marmas must sign new contracts. Not that the Board is apprehensive that it may get binned under the old one; but when the girls can change the styles of their millinery with so little fuss, the trustees think they should have a right to feel that it is like to enforce a change of style once in their lives.

President Taft's influence has succeeded in keeping down the United States tariff bill duty on rough lumber to \$1.25 per m. As completed, the bill increases duties generally from 1 to 3 per cent. over the Dingley rates.

The United States Interstate Commission has ruled that railways are not prohibited from advertising commutation rates for children; but it holds that if a rate is given to bona fide school pupils or students, the same rates must be given to all children within the ages stated in the tariff, "regardless of their mission, errand or business."

A little premature are the French newspapers in rejoicing that Great Britain is no longer "isolated." Let France try to invade her neighbor save in a peaceable way and then see what will happen.—Chicago Tribune.

There would be "doins" in such an event. But fortunately the best of feeling exists between the two peoples. Indeed the bad feeling which so often springs up between politicians is generally due to self-seeking politicians and evil disposed newspapers.

The convention of chiefs of police at Niagara Falls, Ontario, has passed a resolution protesting against what it calls "unfair attempts by sensational newspapers and in jury courts by references to the so-called sweet-box and third degree methods" to give the idea that it is used here.

There would be "doins" in such an event. But fortunately the best of feeling exists between the two peoples. Indeed the bad feeling which so often springs up between politicians is generally due to self-seeking politicians and evil disposed newspapers.

EDITORIAL NOTES.

One of the needs of the hour is the jailing of a few bicycle thieves—no short terms, either.

For a care-absorbed family man, King Alfonso is having more than his own share of public troubles.

What with war in Morocco and revolution at home there is need for a strong hand and wise head in Spain.

So that school grant fund cheque was only "delayed in transmission." But, my, what a shock it gave to Secretary Foster!

Quit your knocking, Ald. Hopkins, and help to get the mountaineers water to drink. A lot of those people don't take whiskey.

A \$25,000,000 Canadian cement combine. Well, we hope it will not be too "wet," and that prices may not have to be forced up too high to dry it out.

The price of rubber is still soaring. The best quality, Up-River Para is quoted at 104 to 106. Automobile owners may count on higher prices for tires.

The British Government has granted Lady Wylie, whose husband was assassinated by a Hindu, a pension of \$2,500 a year.

By the way, who is the owner of the vermin repository into which those poor hospital nurses were placed? And if the Hospital Board be forced to pay rent for it for two years, what use will it be of it?

If a man rent to a tenant a house so infested with bedbugs that it cannot be occupied by cleanly, decent people, does the law provide no recourse? It would seem to be a place where a suit for damages would lie.

BABy GIRL CRIED AND SCRATCHED. All the Time—Torturing Eczema Covered Her Body—Could Not Sleep—Doctor Said Sores Would Last for Years—Skin Now Clear. CURED IN THREE MONTHS BY CUTICURA REMEDIES.

"I take great pleasure in telling you what a great help it was for me to use Cuticura Soap and Cuticura Ointment for my baby niece. She was suffering from that terrible torture, eczema. It was all over her body but the worst was on her face and neck. Her hands were so bad that she could not hold anything. She cried and scratched all the time and could not sleep night or day from the scratching. I had heard under the doctor's care for a year and a half and he seemed to do her no good. I took her to the best doctor in the city and he said that she would have the sores until she was six years old. But if I had depended on the doctor my baby would have lost her mind and died from the want of aid."

"I used all the remedies that everybody told me about and I tortured the child almost to death. Then I saw in the paper how Cuticura was the thing for irritating skin. I bathed her with warm water and Cuticura Soap and used the Cuticura Ointment. She was cured in three months. Now her skin is as clear and smooth as could be. I shall recommend the use of Cuticura wherever I see the skin in bad condition. Alice L. Dorell, 4769 Easton Ave., St. Louis, Mo., May 2 and 20, 1907."

GROWS HAIR. Cuticura Removes Dandruff and Soothes Itching Scalps.
