LINES TO LUCY,

By a "dead broke" *Halifax* Lover.

My heart seems wrapped within thine own,
A spell is o'er me cast,
With thee the hours have quickly flown,
To number with the past.

When business calls me from thy side,
Thy image lingers near,
Still do I think of thee with pride,
And bless thee with a tear.

Didst thou but know the half I feel,
What thoughts my bosom thrill,
Could I to thee my heart reveal,
'Twould thine with rapture fill.

Soul speaks to soul with tongueless Voice,
When eyes of lovers meet,
But now, dear Lucy, 'tis my choice,
That you mix the toddy and treat;

VARIETIES.

TEETOTALISM AT THE ROYAL LEVEE.—At the Queen's Levee on Friday, the Earl of Harrowby presented an address to the Queen from 42,000 of the wives and daughters of the labouring classes, of small tradesmen, domestic women servants, from various parts of the United Kingdom, praying for a revision of the laws which regulate the sale of spirituous liquors.

CIRCASSIAN AND SOUND PHILOSOPHY.—"Do not believe," says the redoubted Schamyl, in one of his addresses, "that God favours the greater number. God is on the side of the good, and these are always less numerous than the godless. Look around, and you will see everywhere the proof of what I tell you. Are not the roses less in number than the tares? Is not mud more plentiful than pearls? Are there not more insects than useful animals? Is not gold scarcer than base metals? And are we not far more noble than gold and roses, than pearls and horses, and all useful animals taken together? All the treasures of the earth are transitory, but we have the promise of eternal life."

A GOOSE NINETY-THREE YEARS OLD.—Mr. Everett, farmer, of Kirby Lodge near Rockingham, has a goose which he vouches to be ninety-three years old. It had been on his farm full fifty yeaas, and passed the former part of its life on the farm adjoining. It is a large fine fowl, with a head and neck white as snow, and has lately hatched a brood of goslins from its own eggs, Mr. E. has a book stating its age and history, which he can authenticate. If we were to pluck a quill from this antiquated goose, and write its biography, it might not be an uninterested record. The echoes of the Scotch rebellion had scarcely ceased when it had first peeped from beneath its shell into the wide world, and probably its immdiate ancestor smoked at the festive board at the coronation of the third George. It was hatching with the first French revolotion, and screamed when Napoleon le Grand threatened to invade our shores, and also when Castlereagh was made prime Minister. Like many other bipeds, it has brooded over scores of addled eggs, and has grown no wiser from expereince, but though year after year has flown by, they leave the "giddy goose" still.—*Leicester (Eng.) Mercury.*

To Prevent Colera—Bathe freely in salt water, and drink nothing but fresh.

"Which my lady, do you think the merriest place in the world?" "That immediately above the atmosphere that surrounds the earth, I should think." "And why so" "Because I am told that there, all bodies loose their gravity.

If exercise promotes health, those who collect old bills for the editors should be among the longest lived people in the world.

A widow once said to her daughter:—"When you are my age, it will be time enough to dream of a husband." "Yes, mamma," replied the thoughtless girl, "For a second time." The mother fainted.

Every man speaks with an intention to be understood; and it seldom happens, but he that understands himself, might easily convey his meaning to another if, content to be understood, he did not seek to be admired, but when once he begins to contrive how his sentiments may be received, not with most ease to his reader, but with most advantage to himself, he then transfers his consideration from words to sounds, from sentences to periods, and as he grows more elegant, becomes less intelligible.

LITTLE TO DO.—The Cleveland Plaindealer says, an athletic specemen of a man from the Emerald Isle called into the counting room of one of the River street merchants. He took off his hat to make his best bow.

"The top of the morning" to ye, Mister P——, I've been told ye're in want o' help."

"I've but little to do," replied P——, with mercantile gravity.

"I'm the very boy for yees. It's little I care about doin'—sure its the money I'm after."

The naive reply procured him a situation.

WINNOWING MACHINE.

HAVING now permanently located myself one mile from New Glasgow, on the New Glasgow Road, the farmers in the surrounding country may depend upon being supplied with anything in my line, got up in the very best and most substantial manner. But I do profess to make the best the very decidedly best, FANNING MILLS sold on the Island.

MRS. WINSLOW.

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,
For Children Teething.

For the Nervous Affections, Convulsions, Fever, Inflammation of the Bowels, &c. that attend this period of children, she recommends it as sure to produce the desired effect, giving *Rest to the Mother, and Relief and Health to the Infant.*

A child in Congress-Street was cured by the Soothing Syrup, of Infantile Dysentery or Diarrhœa after being given over by the attending Physician.

Mr. Blackman, of Eddington says, it has *never failed to cure* the Dysentery or Diarrhœa in children whenever used in the village. Lots of it is sold.

One parent informs me his child has suffered to an alarming extent, with Flatulence or Wind Cholic. Lately they have used the Soothing Syrup, and it always effects a *speedy cure.*

Hundreds of like instances might be enumerated.

PROOF POSITIVE.

Messrs. CURTIS & PERKINS:—Please send us a further supply of Soothing Syrup. We are selling large quantities of it, and from what we can learn, it is used with *uniform success*, both by children and adults, in all cases of Dysentry or Diarrhœa.

Yours respectfully,
W. D. CRUMBIE,
J. MORRILL.

Hear the Brooklyn Daily Advertiser, of June 13th 1853.

We cheerfully comply with the request of a friend to insert the following letter which we are assured is from a lady of the first respectability, residing in Lowell, Mass., believing that a vast amount of suffering may be prevented, and many valuable lives saved, by calling the attention of mothers to this valuable prescription of an old and experienced nurse:

Dear Sir:—I am happy to be able to certify to the efficiency of Mr. Winslow's Soothing Syrup, and to the truth of what it is represented to accomplish. Having a little boy suffering greatly from teething, who could not rest, and at night by his cries would not permit any of the family to do so, I purchased a bottle of Soothing Syrup, in order to test the remedy, —and when given to the boy according to the directions, its effect upon him was like magic, he soon went to sleep, and all pain and nervousness disappeared. We have had no trouble with him since; and the little fellow will pass through with comfort, the excruciating process of teething, by the sole aid of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children, should possess it. H. A. ALGER.

NEUROLOGY, or SCIATIC RHEUMATISM CURED.

This may certify, that for about four years I was seriously afflicted with a disease in the hip, which Physicians termed Neurology, or Sciatic Rheumatism, and resorted to various remedies without any permanent relief; have been under the care of a regular Physician for six months at a time. Last spring, had a very violent attack, which laid me up, when I made use of the *Cramp* and *Pain Killer*, prepared by Messrs. Curtis & Perkins, of Bangor. It gave me immediate relief, and I do not hesitate to say, that it is the best article I ever used. I cheerfully recommend it to all who may be afflicted with similar complaints. HENRY HUNT.

Deacon Hunt, the signer of the foregoing certificate, is a man of undoubted veracity and high standing in the community.

HUNTER'S PULMONARY BALSAM.

Hear what the Daily Mercury of Bangor says of Doct. Pomroy.

Hunter's Balsam. It is not often that we can say anything favorable of patent medicines, on the testimony of those with whom we are acquainted, twho have used and tested their merits. But in regard to Hunter's Balsam, put up by our fellow citizen, Jeremiah Curtis, Esq. we have the testimony of many of our own citizens and those of neighbouring towns, unanimous in its praise. The testimony of one individual with whom the public are acquainted, carries with it more weight than whole columns of certificates from strangers, whose faces we never saw, and whose certificates, for aught we know, may have been procured by fraud. INDIAN DISPEPSIA PILLS,

For cure of Costiveness, Acidity of the Stomach, Bilious Habits, Headache, Dizziness, Heart Burning, Pain in the Side, Lung and Liver Complaints.

DYSPEPSIA AND IDIGESTION,

With Costiveness, Acidity of the Stomach, Heart Burning, Bilious Complaints,—producing Headache, Pain in the side, Loss of Appetite, and general Debility,—can be remedied, removed, and entirely cured, by the use of the *Indian Dispepsia Pills.* These Pills have effected the most astonishing cures in hundreds of cases of the above complaints, and are an invaluable remedy, in an especial manner, for Dispepsia. They are a mild and gentle Cathartic, operating mostly upon the blood, cleansing and purifying the same, and causing the digestive organs to perform their appropriate duties, with regularity.

COSTIVENESS.

Habitual Costiveness is, if not removed in time, a cause of more than half of the disorders and pains to which humanity is subject. The medicines too generally had recourse to, do more harm than good, as they weaken the peristaltic action of the bowels, and thus aggravate instead of removing the complaint.

Also, in all Bilious Diseases, attended with Pain in the Side and Right Shoulder Blade, with a dull, sallow countenance. In all Diarrhœas, Ague and Fever, Bilious Fever and sick headache, they are an avaluable Remedy.

They will be found the best Family Physic in the world, purifying the blood, restoring the appetite, and leaving the stomach and bowels in a healthy state. Price 25 cents per box.

For purifying the Blood we do not believe these Pills have their equal in the world.

Dr. DE ROOS, from long practical experience in the most celebrated institutions of this country and the continent, has had, perhaps, unusual opportunities of observing the peculiarities relating to the physiology, pathology, and general treatment of the disorders referred to in the above work, and having devoted his studies almost exclusively to this class of diseases, he is enabled confidently to undertake their removal in as short a time as is consistent with safety.

PERSONS IN ANY PART OF THE WORLD, may be successfully treated by forwarding a correct detail of their case, with a remittance for Medicines, &c. which will be returned with the utmost despatch, and secure from observation.

The CONCENTRATED GUTTÆ VIVÆ, or Vegetable Life Drops, are recommended to all those who have injured themselves by early excesses, and brought on Spermatorrhœa, Nervousness, Weakness, Languor, Low Spirits, Aversion to Society, Study or Business, Timidity, Trembling and shaking of the Hands and Limbs, Indigestion, Flatulency, Shortness of Breath, Cough, Asthma, Consumptive Habits, Dimness of Sight, Dizziness, Pains in the Head, &c.

Their almost marvelous power in removing contaminations, Secondary symptoms, Eruptions, Sore Throat, Pains in the Bones and Joints, Scurvy, Scrofula, and all other impurities, must be felt to be believed. 4s. 6d.; 11s.; and 33s. per bottle. The £5 Packages, by which £1 12s. are saved: and the £10 packages, by which a still greater saving is effected, will be sent from the Establishment only, on receipt of the amount per draft on a London house, or otherwise.

PAIN'S in the BACK, GRAVEL, LUMBAGO, RHEUMATISM, GOUT, Indigestion, Bile, Flatulency, Headache, Nervousness, Debility, Diseases of the Bladder and Kidneys, Stricture, &c.

THE COMPOUND RENAL PILLS, as their name Renal (or the Kidneys) indicates, are the most safe and efficacious remedy for the above dangerous complaints, Discharges of any kind, and Diseases of the Urinary Organs generally, which if neglected, frequently result in stone in the bladder, and a lingering, painful death, They agree with the most delicate stomach, strengthen the digestive organs, increase the appetite, improve the general health, and will effect a cure when other medicines have utterly failed. Price 4s. 6d., 11s., & 33s. per Box, through all Medicine Vendors.

GUARD AGAINST the recommendation of spurious or other articles by unprincipled Vendors, who thereby obtain a large profit. To protect the PUBLIC against FRAUD, Her Majesty's Hon. Commissioners have directed the words "WALTER DE ROOS, LONDON," to be printed in white letters on the Stamp affixed to the above, to imitate which, is felony.

Twelvetrees Brothers' Soap Powder

(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST —no rubbing being required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLIN and LACE.

PROSPECTUS
OF THE
MASONIC REGISTER,
AND GAZETTE OF NEWS.

IT is proposed to give this paper a character which shall make it equal, if not superior, to any Masonic periodical in the United States, and a valuable Journal to be forwarded to every part of the globe. It will contain each week a new and well-written story of a useful and moral tendency, well-digested Summaries of Foreign and Domestic News and Masonic Intelligence, the movements of the various Benevolent Associations, Literary, Religious and other Societies of this city, Public Amusements, Notices of Foreign and Domestic Publications, Original Poetry by admired authors, Original Moral Essays, with an Editorial leader on some appropriate topic of the day.

It will give the most impartial statements of matters, in and out of the Order, and be at the same time particularly devoted to the interests of the Fraternity. It will contain from time to time fine Wood Engravings and descriptions of all the principa Public Institutions in the United States. Also original Biographies of distinguished Free-Masons, and other bright worthies in the catalogue of fame. Recent discoveries in the Arts and Sciences, and important Masonic Statistics, will be regularly given.

We do not intend to follow in the wake of our unsuccessful predecessors, for we have marked out an entirely different course. We intend, as here intimated, to introduce into the columns of this Journal, the latest *Foreign and Domestic General Intelligence*, knowing that masons, as well as those not of the Order, want such news,—thus making it a paper in which *all* will feel interested. This, it must be admitted, is an entirely new feature in Masonic Periodicals, and will, no doubt, prove as great a desideratum to the country as well as the city Freemasons.

We pledge ourselves that this paper will be "always on hand"—*will be delivered when expected.* We would fraternally request all brothers, who approve of our undertaking, to use their good word—their influence in procuring subscribers for this—the FREE-MASON'S NEWSPAPER.

Finally, every department of the Paper will be properly attended to, and every aid that talents, means, position and industry can bring to the task, is secured for this enterprise, to make it in all respects the MASON'S NEWSPAPER. To the Masons of America, and the Fraternity wherever they may be found, we offer a sheet that will be entirely worthy of their favorable consideration and support.

ROSS' ARTIFICIAL SLATE.

Truro, Nov. 5, 1853.

To JOHN ROSS, Esquire, Patentee of Artificial & Metallic Paints.

Sir,

WE the Subscribers, House Joiners and Painters, by trade, having been using your "Artificial Slate" for upwards of three years deem it a pleasing duty to express our opinion, that this composition far exceeds any other paint for covering the Roofs of Houses,—apart from its *fire proof* quality its value for protecting wood from the decaying influence of the weather is exceedingly important. We know of many buildings covered with *sawed* shingles painted with Artificial Slate, which have stood the test of summer heat and winter cold, which are now as smooth, as when first laid—the whole roof appears to be *cemented* together, impervious to moisture and consequently not subject to decay.

We regard the application of "Artificial Slate" to *sawed* shingles as a matter of great economic value, and feel desirous that it should be generally known that *sawed* shingles so covered are superior in point of finish and durability, to those split and shaved—We are sir, yours, &c.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious Diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRA L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedy extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realised by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see our wrapper on the Box.
