WEDNESDAY, July 10.

PRODUCE.

The market cannot be said to have been active since our last, but neither has it been duli; a fair business has been done at generally hardening prices for grain, and generally weak prices for flour.

Offerings have not been large; the general disposiofferings have not been large; the general disposi-GRAIN, f.o.b. ion amongst holders seems to have been in favour of still holding on. Crop reports have generally Fall Wheat, No. 1, per 60 lbs......\$1 05 to \$1 06 eont'nued to be highly favourable. There was some alarn excited by a report of the appearance of the fly in wheat in this country, but from all we can specified by a report of the appearance of the fly in wheat in this country, but from all we can specified by the color of the fly in wheat in this country, but from all we can learn the calamity has been local and not very serious in any case. Stocks on hand have decreased since our last, and stood on Monday morning as follows:—Flour, 11,982 bbls; fall wheat, 74,040 bush; spring wheat, 110,463 bush; oats, 20,134 bush; barley, 56,586 bush; peas, 17,422 bush; rye, nil bush; corn, 400 bush. Outside markets have been unsettled, the latter part of last week rye, nil bush; corn, 400 bush. Outside markets have been unsettled, the latter part of last week was mostly a holding period in the States, but the tendency was downwards until the last two days, when an improvement set in, and the previous loss as been about recovered, leaving quotations much he same as on this day week. English quotations show a fall of 2d on red wheat and red winter, and ld on white; but during the last two days cargoes seem to have been the turn dearer, whits is probably due to the facts that a demand for the Continent has been heard nearly all week, and that the supply had run below consumption very considerably. The total supply of wheat and flour in the week ending on the 29th ult. was equal to 320,000 to 348,125 qrs of wheat vs. 403,000 to 411,000 qra consumption, indicating a deficiency in supply under consumption of 62,875 to 83,000 qrs. The supply of Maize for the week was equal to 2,260,000 to 2,400,000 bush against an average weekly consumption in 1876 of 1,320,000 bosh, against 771,078 bush in 1876. The quantity of wheat and flour in transit for the Lutital Kinstone and the consumption in the States, but the week was equal to 2,260,000 to 2,400,000 bush against an average weekly consumption in 1876 of 1,320,000 bosh, against 771,078 bush in 1876. The quantity of wheat and flour in transit for the Lutital Kinstone and the consumption in the states, but the Wheat, fall, per bush in 1876. The quantity of wheat and flour in the states, but the Wheat, fall, per bush in 1876 of 1,320,000 bush against an average weekly consumption in 1876 of 1,320,000 bush against an average weekly consumption in 1876 of 1,320,000 bush against an average weekly consumption in 1876 of 1,320,000 bush against an average weekly consumption in 1876 of 1,320,000 bush against an average weekly consumption in 1876 of 1,320,000 bush against an average weekly consumption in 1876 of 1,320,000 bush against an average weekly consumption in 1876 of 1,320,000 bush against an average weekly consumption in 1876 of 1,320, of wheat and flour in the week ending on the 29th ult. was equal to 320,000 to 348,125 qrs of wheat vs. 403,000 to 411,000 qrs consumption, indicating a deficiency in supply under consumption of 62,875 to 83,000 qrs. The supply of Maize for the week was equal to 2,360,000 to 2,400,000 bush against an average weekly consumption in 1876 of 1,520,000 bush, against 771,078 bush in 1875. The quantity of wheat and flour in transit for the United Kingdom has continued to fall off; it decreased 120,000 quarters during the week; and stood on the 3th inst. at equal to 830,000 qrs. against 1,083,000 on the 20th ult, and 1,107,000 qrs. on the 20th ult. the quantity expected to jurive at ports of call for orders during the four weeks from June 20 to July 18 was 356,000 qrs of wheat, comprising 100,000 qrs from Azov and Black Seas and Danube, 133,000 qrs from Azov and Black Seas and Danube, 133,000 qrs from California and Oregon; 48,000 qrs from California and Oregon; 48,000 qrs from Chili and Australia; and during same period 223,000 qrs of Maize. Further cable advices to the 2nd inst. report a decided improvement in the appearance of the growing wheat, but nothing over a bare average yield in quantity, and a poor yield in quality, seems to be expected. Imports were moderate, and voing into granary rather than into consumption. Mail advices state that in France crop prospects showed no improvement; and the yield was expected to be short of an average in some southern and western districts which frequently have grain to space. Wheat was steady in face of these bad crop prospects but weaks steady in face of these bad crop prospects but weaks steady in face of these bad crop prospects but weaks steady in face of these bad crop prospects but weaks steady in face of these bad crop prospects but weaks steady in face of these bad crop prospects but weaks.

serious pécuniary disasters. A full import of food evidences the ability of the labourer to earn a comfortable living; the import of raw material indicates, when business is in a healty state, employment for capital and labour at remunerative prioes, the progress of the country, that is, in production and wealth. As an evidence of the abnormal state of trade, the import of cotton has increased at a time when the home warehouses and the foreign markets were glutted with goods. The Times is not sanguine as to any immediate improvement. One thing is noticeable in this connection, and that is that the import of our meat, and especially of bacon, has increased at a surprising rate. Although a definite peace in Europe would doubtless lessen our agricultural exports from their highest point, there is no reason to doubt that our channel goods, our beef, bacon, cheese and grain, are likely to be in bester demand as years roll on, and our trade is adjusted to the foreign demand. In this respense we have, as an elevation of the foreign demand. In this respense we have, as an elevation of the foreign demand. In this respense we have, as an elevation of the foreign demand. Medical.

THE MAIL never inserts advertisements known to be of an immoral or swindling character. It refuses thousands of dollars offered it for such advertisements every year, and throus out advertisements suspected of being of this nature from every issue. Nevertheless it cannot hold itself responsible for the good faith of its advertisers, nor undertake to relieve readers from the need of exercising common prudence on their own behalf. They must judge for themselves whether the goods advertised can in the nature of things be furnished for the prices asked. They will find it a good rule to be careful about extraordinary barqains, and they can always find safety in doubtful cases by paying for goods only upon their delivery.

SANFORD'S RADICAL CURE

CATARRH. ING OR HEAD COLDS, CALLED ACUTE CATARRY; THICK-TELLOW, AND FOUL MATTERY ACCUMULATIONS IN THE CHARGES OF LOATHSOME MATTER TINGED WITH BLOOD,

POREIGN NEWS

THE BERLIN CONCRESS Cyprus Taken Possession

of by England.

EXCITEMENT IN BOSNIA RISMARCK ON THE CONGRESS

Lord Salisbury on the Treat Results.

GREAT POPULAR OVATIO

leturn of Lord Beaconsfield

LL THE LATEST TELEGRAMS

FRIDAY, July 12.

PARIS, July 11.— Advices from Ne Caledonia report an uprising of the native and the massacre of 125 whites by Bonlo pari, who also captured two militastations. Coh Pasedas has been killed.

SATURDAY, July 13. Mr. Baring, of the British legation, to ossession of the Island of Cyprus to-d he name of Great Britain.

in the name of Great Britain.

There seems to be no really serious disatisfaction at the step England has tak regarding Turkey. The scare in Fran about Cyprus, it is stated, is by no measo great among the general public as amo professional politicians.

The Manchester Guardian's Paris spec states positively that Mr. Waddington he the strictest guarantees of English respectively.

e strictest guarantees of English respe French rights in Syria and Egypt. A Times Paris special says it may be co ently predicted that as in the case Suez Canal purchase the present in ion against England will be very sho

lived.

Considerable anxiety has been excite about Lord Beaconsfield's illness since is known his private physician has gone him. The latest news from Berlin, however, reports the Premier better.

A Berlin despatch says in consequence opposition by Prince Cortschakoff the description of the fortifications of Batou has not been made obligatory upon Russi but only implied in the designation of Butoum as a commercial port.

mg and everything forebodes disturbance. A Vienna special says the negotiation between Austria and the Porte are progressing favourably. The Turks are withdraw from the Provinces, according a settled plan, and the fortifications a strong positions are to be surrender A clause relative to Greece, which w oblige Turkey immediately to take

Sunday.

The Cypriotes received the news of timended occupation of their island by the English with enthusiastic joy, and hat the England of their thanks to England.

PARIS, July 12.—The uprising of the Bolowpori tribe in New Caledonia is determined to offences by a few of the Communis formed the Government by telegraph, the revolt of the natives, and reports the is master of the situation. The Minter of Marine replied that reinforcement would be immediately sent from Saige

MONDAY, July 15 Bismarck, in a speech closing the Cogress, on Saturday, declared he did a hesitate to affirm that this Congress served well of Europe. The ple potentiaries would have the consciousness potentiaries would have the consciousness having, as far as possible, restored and sured peace. He entertained a firm he that the European understanding would main durable, and that the cordial relative established among the plenipotentiar would consolidate the good relations tween their Governments. Bismarck cidentally remarked his health was sufficiently the consolidate of the consolidate cidentally remarked his health was stat he had scarcely hoped to preside of the Congress until its conclusion. Andrestarted for Vienna on Saturday, Beaconsfield left to-day.

WEDNESDAY, July 17 Wednesday, July 16.

London, July 16.—An official despation the Marquis of Salisbury to the Misters who remained in London, data Berlin, the 13th, is published. Lord Sabury says the modifications obtained at Congress are very large and affect almall the articles of the treaty; they have been supported in the same support of the Sultand tend to assure the stability and in pendence of Turkey. The despatch of bats the allegation that the Government of April 18 or this purpose it compares, po this purpose it compares, p point, the policy indicated circular with the decisions adopted the circular with the decisions adopted the Congress. The comparison shows the object of British policy, namely, prevention of Russian preponderance, been substantially attained. Lord Sabury especially points to the fact that pecuniary indemnity has been a gether excluded from the Treaty Berlin. The result of the declarat made by the Russians in Congress that the would neither claim territory in lieu of demnity nor prejudice the claims of ot

edestrians was blocked. The Chas Hotel and the houses on either
