

### The paint protected town

THE finest town buildings soon get to look "dingy" if they are not kept painted. Worse still, the omission of the Spring painting leaves them open to weather-attack and time's decay. And—with materials so high as to make every building worth double today what it was worth in 1913—you are making a mistake if you let a building "go to seed."

Have your town a "model" town—have it fresh with paint—have it protected with a paint that affords real protection—

## B-H "ENGLISH" 70% Pure White Lead 30% Pure Zinc 100% Pure Paint

If this paint were sold at a price half as high again as any other (which it isn't) it would still be the economical paint to use on your house. In sheer covering capacity it has no equal. A gallon of it goes so far that you'll buy less of it and yet do more with it. Paint with B-H "ENGLISH" PAINT this spring—and your house is protected for years, where a coat of ordinary paint will last but a few months.

The difference lies in the above formula basis. What other paint is so correct in this respect that its makers guarantee it? What paint can a dealer furnish you that has anything like the quantity of white lead in it that has B-H "English"? This was the formula when lead was lower in price—this is the formula still; even though lead is extremely high in price. It HAS to be the B-H formula; because the guarantee that calls for it is printed right on the B-H can. We could not cheapen B-H "English" Paint even if we wanted to. So it's your safe paint as to quality, your sure paint as to covering capacity, your dependable paint as to durability. Find the B-H dealer in your town. He's the man to buy from.

## Bloodless Women

Feel Weak, Depressed and Worn Out all the Time—Do Not Eat Well or Sleep Well

It is an unfortunate fact that nine women out of ten are victims of bloodlessness in one form or another. The girl in her teens, the wife and mother, the matron of middle age, all know its miseries. To be anaemic means that you are breathless after any slight exertion—you feel depressed and worn out all day. You turn against food and cannot digest what little you do eat. At night you do not sleep well and in the morning you wake up tired and feeling unfit for the day's duties. Perhaps there are splitting headaches, or pains in the back or side. Often a feeling of dizziness and dependency. These are the signs of anaemia, but the more there are the greater are the ravages of the trouble. There is only one medicine can do this speedily and effectively—Dr. Williams' Pink Pills. These pills purify the blood. It is in this way that thousands and thousands of weak, ailing girls and women have been restored to the joy of energy and good health through their use. Give these pills a fair trial and you will enjoy that health and strength that is the birthright of every woman. Mrs. W. H. Neff, Hughes avenue, Toronto, says:—

"For several years I suffered from a weak and watery condition of the blood. At times I would be so bad that when I walked up stairs I would have to sit on the top step and rest. Sometimes my feet would swell to about twice its natural size, and at other times my feet would swell so that I could not put my shoes on. Frequently I would take fainting spells and was wholly unfit for any work. I was under a doctor's care most of the time, and if I felt better for a time it was only to have the trouble worse than before. While in this condition I was visiting a friend who had great faith in Dr. Williams' Pink Pills, and she got me three boxes. By the time I had taken these I felt so much better that I got six more boxes, and before I had taken them all I was again enjoying the best of health; had increased in weight, my appetite improved, and I have not had a symptom of a relapse to the old pitiable condition."

You can get Dr. Williams' Pink Pills from any dealer in medicines or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**LESS LIQUOR: MORE TOBACCO**  
Canadians last year consumed 1,664,709,973 cigarettes (about 200 per head), as compared with 1,307,276,750 in the previous fiscal year. Likewise manufactured tobacco increased from 20,735,030 to 21,087,821 pounds and cigars from 239,752,240 to 254,446,945. There has been more smoking all along the line. In another section, however, a falling off is registered from 34,949,683 gallons of liquors year before last to 28,717,539 last year, due to prohibition. Figures for the current year indicate a much heavier diminution.

## German Submarine Invades Atlantic

Takes Toll of 350 Lives of Passengers and Crews of Merchant Vessels

New York, June 3.—United States warships are scouring the waters of the North Atlantic coast, in search of the German submarines which made their long expected attack on shipping in home waters late Sunday afternoon. Two cruisesubmarines are operating 75 miles southeast of the Highland of New Jersey. The steamship Carolina, has been sunk. Nothing is known of the fate of 220 passengers and crew of 130 who took to the boats when the underwater craft began shelling the liner. The schooner Edward H. Cole has been sunk by bombs. The schooners Jacob M. Haskell, of Boston, Isabel B. Wiley, of Bath, Maine, Hattie Dunn, of Thomaston, Maine, Samuel W. Hathaway, Hapthage and the steamer Winneconne have been sunk.

The Atlantic Refiner tanker Herbert L. Pratt was sunk four miles off Cape Hatteras (Del.) by a submarine. The crew was landed at Lewes (Del.).

New York, June 4.—The possible death toll from Germany's submarine warfare on the American side of the Atlantic during the past ten days was reduced to fewer than 350 souls.

With the landing of 19 survivors of the missing steamship Carolina, of the New York and Port Rico line, at Lewes, Del., the persons unaccounted for from this ship number 331, of whom 202 were passengers.

Evidence that the German submarine that attacked the steamer Carolina shelled her lifeboats was brought here today by a British steamer from West Indian ports. The British ship reported that she had picked up yesterday off Cape May and empty motor lifeboat belonging to the Carolina damaged by shell fire. The hull of the motor boat had been pierced by the fire of the Uboat guns. One of only three oars found in the boat had been splintered in a way that indicated the use of a machine gun. There was found in the boat a man's cap and a number of biscuit tins.
