C. E. School Report.

We thank Mr. W. W. Blackall for a copy of his latest report on Church of England Schools. As to the recent building loan Mr. Blackall says:—"The money granted for this purpose by the Government has been well and carefully spent, and has been the means of doing a great deal of good throughout the Colony. Some splendid school buildings have been erected and I am glad to have an opportunity to record the fact that the several communities have responded very readily indeed to the demands that have been made upon them and have contributed generously of their means and labour towards the erection of the new buildings."

Mr. Blackall advocates the granting of considerable additional aid to sparsely populated localities and estimates that an addition of \$14,000 a year will be required for the Church of England portion of this grant. He also advocates the adoption of such simple and useful form of manual work as paper-cutting, card-board modelling and clay-moulding, even if woodwork is not possible.

He also sets forth what is being done under the direction of Mr. A. Barnes in the way of training teachers. He says: "The institution wants a home with a practising school attached, and I hope that the Legislature may at no distant date be able to vote the necessary funds for the establishment of such a home."

Mary Duff Strikes.

Mr. H. W. LeMessurier had a message to-day from Trepassy stating that the schooner Mary Duff, of Carbonear, while at Trepassy during the storm of Saturday night dragged her anchors, and the after part of the vessel struck the bottom, she having run into shoal water. The S. S. Prospero which was there yesterday forenoon rendered assistance, got the vessels anchors further off the shore and she was warped off into deep water at high tide. It is thought the vessel is from Cape Breton with a load of coal.

McMurdo's Store News

MONDAY, Feb. 20, '11.
We recommend Acme Baking Powder against any other local or imported, because we know what is in it. It is composed of the very purest (99 per cent) Grape Cream of Tartar, and contains not one trace of lead salts, alum, or phosphate, or of anything injurious. It is to be obtained in most grocery stores in town and many general stores in the outports. If your grocer or dealer does not stock it, you can obtain it direct from us. Acme Baking Powder is not a cheap, and therefore shoddy, baking powder, but one made of the choicest ingredients, and that therefore commands a fair price. 2 oz. tins, 10c.; 4 oz. 15c.; 8 oz. 25c.; 1 lb. size, 50c.—adv.

1,220 Dollars.

Several subscriptions were received yesterday towards the Thanksgiving Fund of Cochrane Street Church. The offering now amounts to twelve hundred and twenty dollars, being the largest amount received for years. The Church officials say the offering was a most generous and liberal one on the part of the congregation.

West End Churches.

George Street and Wesley Churches are still keeping up their record for interesting services. Rev. Mr. Curtis is conducting a series of revival services in which he is doing some effective work. The rev. gentleman combines in himself all the elements essential for evangelistic work, and besides this he displays the tact for winning the respect and esteem of his large congregation.

George Street Church.
Rev. Mr. Bartlett gave an eloquent discourse at George Street last night to a very large congregation. His subject was: "Ezekiel's Vision of Dry Bones," and the truth was delivered in plain, simple, apostolic fashion without respect to the predilections or prejudices of the congregation. Leaving the Church last night there was a very general word of esteem among the people for their beloved pastor.

WEDNESDAY NIGHT.
"The Sound in the Tops of the Mulberry Trees."
Rev. Mr. Bartlett announced that he would preach a special sermon on Wednesday night next from "The Sound in the Tops of the Mulberry Trees," to which he invited all who could do so to attend. When Mr. Bartlett issues such a general invitation as this we can rely upon it that he means something out of the usual line and we would therefore ask for a very large audience to be present on this occasion. Please don't forget Wednesday night next.—Com.

Euphrates and Progress Running.

Since Monday week no mails have been landed at Bell Island, to the great embarrassment of business people. Yesterday the Progress and Euphrates ran for the first time since the Bay became filled with ice, and 55 men were landed at Topsail from the island. Quite a number of the men are anxious to get berths for the sealfishery, and a large number will soon come this way to look for them. The north shore of the Bay is clear of ice, but from Topsail to Cape St. Francis the south shore is closely packed with ice.

Stole the Wardrobe.

A few days ago at Bell Island a young woman exhibited great earnestness to try and get away from the place, and with her luggage strapped to her shoulders she did her best to "copy" out to the firm ice so that she could walk over to Portugal Cove. She with others was taken off the loose ice by the Progress after she had fallen into the water, and after returning it was found that she had stolen most of her mistress's wardrobe including a full suit of clothes. She was arrested by Sergt. Cox on landing, and she comes up for trial to-day before Magistrate Power.

The Home Coming.

The Reid Nfd. Co. received a telegram to-day saying that the S. S. Home had arrived at Placentia from Rushoon under her own steam at noon to-day. She will take a supply of coal and water there, and when the train taking out provisions to the crew from town to-day arrives there, the Home will leave for St. John's. She will go on dock immediately. The Petrel will leave Rushoon for St. John's to-morrow.

SENTENCED TO-MORROW.—Dunlop who shot Dr. Pritchard, and Diaz who stabbed Francis Bjorn, came up in the Supreme Court to-morrow for sentence.

Three Men In Danger.

Michael Bruce, Patrick Kearney and Thos. Trahey, of Long Harbor, P.E., arrived from Bell Island via Topsail this morning. They came to the city by the train arriving at 12:40. The Telegram met them at the station and got the following story of their terrible experience on the ice last Saturday when attempting to cross over to Portugal Cove: They left the island at 9:30. On coming about a mile and a quarter they reached the running ice, which was going out the bay at about five knots an hour. They found themselves drifting out. The walking was very difficult. There were lots of big pans, but the soft "slish" not being bearable, separated them from one another. They finally decided that the wisest course was to try to get back to the island. Kearney and Trahey got separated from Bruce. They crossed a bad spot and broke through the ice and Bruce was unable to follow. He remained on a big pan, which was surrounded on all sides for several yards with water. Kearney and Trahey went on, but when they got within half a mile of Bell Island they could go no further. The people on the island saw them and the s.s. Progress went out and left them a boat and two planks and the two men went to the rescue of Bruce. They reached him after much difficulty and by pushing the two planks to him he was enabled to walk on them to the boat. They did not reach him till 2:30 p.m. Bruce had driven two miles out the bay and had a hard time. He fell in several times and was wet to the knees. He sat down on his overcoat on the pan when he saw that he could do nothing and taking out his pipe lit it and had a good smoke. They all got on board the boat and went back to the mines where they remained till morning. They did not get back till 5 p.m.

Evening Telegram Fashion Plates.

The Home Dressmaker should keep a Catalogue Scrap Book of our Pattern Cuts. These will be found very useful to refer to from time to time.

8755—A CHIC AND APPROPRIATE FROCK FOR MOTHER'S GIRL. Girls' Dress.

The front closing on this model will recommend it at once as practical and convenient. The design has a group of necks over the shoulders which are stitched to the waist band in back, and to yoke depth in front. The right front crosses the left in reverse style at the upper part. The sleeve is a one- seam model, and may be cut in short or full length, as desired. The plaited skirt is ever popular. The pattern is cut in 4 sizes—6, 8, 10, 12 years. It requires 3 yards of 36 inch material for the 8 year size.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

leicles a Danger.

In almost every street in the city icicles depending from the eaves of houses constitute a great danger to pedestrians, as they in most cases are large and must certainly weigh several pounds. A man to get a crack of one of these on the head would witness more stars in a second than could be seen through the Lick telescope in an hour. The police to-day took the sensible course of warning people to clear them off their houses, and no doubt more than one citizen is spared a sore head thereby.

Lost His Overcoat.

Patrick Reardon was coming from Bell Island, Friday evening, when he got away from two friends who were with him. He had a difficult time to regain them, and later the men had to return to the island. When a mile from the shore they met very bad ice, narrowly escaped losing their lives, and Reardon once found himself on a pan alone with no means of getting to his friends. He doffed his overcoat—worth \$20—and folding it threw it in the water and used it for "copying" to get to the safer pans. He eventually lost the coat which was a new one, but was glad that he escaped with his life.

POLICE COURT NEWS.

In the police court to-day one drunk was discharged and another was fined \$1 or 3 days.
A disorderly was discharged and another fined \$2 or 7 days.
One of four boys summoned by Const. Whalen for loose and disorderly conduct was released and the others fined \$1 or 3 days each.

A Royal Abbess.

The Archduchess Elizabeth Francessa, the oldest unmarried granddaughter of the Emperor of Austria, who made her debut at the first Viennese court ball of the season, did not present so picturesque a figure as her cousin, the Archduchess Elizabeth Mary, on a similar occasion.
Until her marriage with Prince Otto zu Windischgratz, the Crown Prince Rudolph's daughter was abbess of the Order of St. Theresa, and wore the velvet and ermine robes of her office at all state functions. With these she carried a pastoral staff, studded with jewels, presented to the order by St. Wenceslaus, King of Bohemia, 600 years ago. A mitre of peculiar shape perched on the curly head of the seventeen year old Archduchess gave a piquant finish to her appearance when she made her first public courtesy to her grandfather.

A Remarkable Test!

Locally Made
By Messrs. W. & G. RENDELL.
To test Solignum as a preservative for Wood against the attacks of Worms, we tried a piece of 2 x 4 Spruce, about two feet in length, by painting one-third with Solignum, leaving the balance clear wood, this was suspended by a wire through the centre, in the water about one foot from the bottom, immediately over a pile of stones the remains of a sunken wharf (which is the place where our Wharf Shores are eaten off first) for Three Months. On taking it up at the end of that time we found some half-dozen small holes only a very short distance in the clear part of the wood, which shows the liquid had penetrated through the whole piece and the worms had hardly begun boring before coming in contact with it.
Last year as a test of some brands of Copper Paint we handled, we had a similar piece of wood treated at both ends, leaving the centre third clear; this was in exactly the same place as the piece for the Solignum test; for Three Months and Three Days, when taken up the painted ends were perfect but the centre was riddled with worm holes.
Both these pieces of wood are to be seen at our Office by those interested in the preservation of Wharf Piles or any other wood work.

Parcel Post.

The Parcel Post Department of the General Post Office gives a big showing in the statistics for the year ending June 31, 1910. The number of local parcels received and despatched in 1908-09 was 52,272. The number received and despatched for the year 1909-10 was 191,544, an increase of 39,572 over the previous year. The total amount of duty received for the year 1908-09, June 31st, was \$17,099.57 on incoming foreign parcels, and for the year 1909-10, June 30th, the amount received was \$20,985.81, an increase of \$3,886.24 on the previous year. Mr. J. W. Knudsen, who is in charge of this department and collects all this money, does not receive outside of his salary one dollar per centage.

Interesting Debate.

The debate of the pupils of St. Bonaventure's College held Sunday afternoon in the College was of a very interesting character. Rev. Fr. O'Neil, who has presided and the subject discussed was "Should not Newfoundlanders remain in their country?" The affirmative was espoused by N. Dugan, T. Molloy, A. Power, J. McDonnell and R. Cashin. The negative was taken by P. O'Neil, B. White, H. Knight, W. McGrath and C. Costigan. The jury returned a verdict in favor of the affirmative.

ASSAULTED IN SALOON.

Saturday night a resident of the West End who often makes the acquaintance of the police, entered a saloon and with cut protection held a man standing near the bar with a blow. Struck Mackay and Constable Stoney were called and placed him under arrest. He gave the officers much trouble, they had to handcuff him and put him in a sledge he was taken to the lockup.

The express that left for Port aux Basques last evening took out 29 passengers.
