Harbor Grace Notes.

At a special meeting of the C. B. British Society held on Tuesday night it was unanimously decided to attend Divine Service at St. Paul's Church, on Thursday morning next where the Coronation Service will be held.

On Friday night the boat club of the same Society will hold a sociable in their Hall and a dance in the Masonic Hall. A good time is certain. In fact all the gatherings of the above nature held by the Society are noted for their enjoyment and complete clock-work-like arrangements.

The many friends of Mr. John Hare are pleased to see him home again after two years treatment at St. John's under the skilled care and attention of Dr. Dimeson, and to know that he is fully recovered.

Dr. Strapp was very much burnt about the face and hands as a result of the explosion at his home on Tuesday last in his endeavours to quench the fire. We all hope the doctor will be fully recovered in the course of a day or two.

Mr. E. Simmonds received another schooner load of wood this week, the schooner Studland, Capt. Parmer, having just discharged a cargo. This is fortunate, as there is a scarcity of coal here now. In fact the doctor will be fully recovered in the course of a day or two.

We can scarcely think of anything now but the fast approaching Coronation Celebration. All our townsmen are busy with baking, collecting, dressmaking, hat trimming and the hundred and one other things necessary for the celebration, which it is expected will be a T in every particular.

We hear that a number of St. John's people are coming over to help us celebrate. It is not necessary to say they will be all welcome and be sure of a pleasant time. CORRESPONDENT. Harbor Grace, June 15, 1911.

From Labrador.

BEOTHIC WENT AS FAR NORTH AS INDIAN HARBOR.

The s.s. Beothic, Capt. Parsons, arrived here from Labrador at 7:10 last evening. Capt. Parsons went as far north as Indian Harbor, calling at all the principal ports between Battle Harbor and that port except Emly, which could not be entered on account of heavy ice. The fishing crews and freight for Emly had to be landed at Smokey. The fishing crews for other places were all landed safely, but in many cases with difficulty. They had to travel ashore over the ice at many ports of call. At Cuthroat (upper), where the ship reached on the 12th, a heavy jam of ice was visible, extending as far north as could be covered with the glass. Seeing that it was impossible to get further north, Capt. Parsons came south. A heavy jam of ice was met in the mouth of Gross Water Bay, but the Beothic forced through it and reached Grady without mishap. The ice was visible in tight to Cape Charles. The pack was very close near Battle Harbor, and Capt. Parsons thought it best not to meddle with it but set his course for the run out side of Belle Isle, passing through growlers nearly the whole way. A gale of N. E. wind with thick fog and heavy sea prevailed all the way to the coast till Twillingate was reached on Wednesday last. Capt. Parsons called at King's Cove, Catalina Cartoneer and Harter Grace. He reports that only two schooners had reached the Labrador up to last week—the Minnie Tulk at Wolf Island, and the Constant at Griffin's Harbor. Capt. Parsons says there is no trout in the destination stories, and that all the residents on the coast at the harbor he visited are well after the long cold winter.

Stabbed With Knife.

JOHN WILLIAMS IN HOSPITAL— CUT WITH KNIFE USED BY GEO. LAMBERT.

Shortly after 7 o'clock last evening a lad named John Williams, of Bond Street, was stabbed in the chest, as he was returning home from the office, by George Lambert, of Bonclody Street, in the East End Postal Telegraph Office, where both were messenger boys. Shortly after the affair occurred a Telegram reporter went to the office and learned the facts from Mr. A. Fraser, the superintendent at the office, and Mr. Willar, the checker there, of 25 Prospect Street. Mr. Fraser was inside the screen checking up his day's work and did not see the actual occurrence, though he heard the boys arguing and the subsequent scuffle, and asked them to desist. Shortly before the scuffle, Williams came to the office and found Lambert at the drawer of the table opposite the floor. Williams spoke to him, and as he was about to leave, Lambert, who was sitting at the table, ordered Lambert away from it. Lambert replied that he had as much right to be there as he (Williams) had. Williams then said, "I will take you out of here," and seized the boy by the shoulders, lifting him from the chair in which he sat. Lambert then struck him on the head with the chair, and Williams took the chair by the back and struck the other. The boys grappled and Williams saw Lambert put up one of his knees as if to ward off a blow. Williams then struck him and immediately said he was hurt and placed his hand to his stomach. Willar then took Williams outside when he raised his clothes and it could be seen that he had been cut with a knife on the left side of the stomach above the groin. The implement had gone through his clothing and a wound about a half inch in width was inflicted. From it part of the bowels protruded. Mr. Fraser said that, on examining the boy he found that the wound was a nasty one, and consulting with Mr. Fraser it was deemed advisable to inform the police, and the lock-up was "phoned." Superintendent Grimes and Sergt. Byrne came quickly to the office and put Lambert under arrest. In the meantime a cab was called and Williams was driven quickly to the Hospital, where he was given every attention. The wound is an ugly one but not necessarily dangerous, and the opinion in the Hospital last night was that the boy would be about again in due course. Supt. Grimes received the facts of the case from Mr. Fraser and Master Willar, who said he saw Lambert take a penknife which he had been using on a lead pencil from the table, but he could not say that he saw him actually stab the other. The belief is that in the scuffle Lambert momentarily forgot he held the knife and that it accidentally cut the other. Both boys are of respectable connections, and a sad feature of the case is that Lambert's father is very ill and fears for his recovery are entertained. The police have the knife which Lambert had in his possession. At the Hospital last night the doctors attended the wound and it is thought that nothing of a serious nature will result. The affair is an unfortunate one for all concerned. After the accident occurred, J. G. Sullivan, who was at his office, received all the facts of the case. Lambert seemed to be greatly concerned over what had occurred.

GOT AWAY QUICKLY.—The Carthaginian was rushed away quickly yesterday afternoon, leaving at 4 p.m. The passengers and crew are hopeful that they will reach England in time for the Coronation.

FELDIANS DEFEAT CASUALS.

Last evening the Feldians and Casuals teams met on St. George's Field in the fifth match of the League series. The weather was fine, there was a large gathering of spectators, and the teams lined up:— Feldians—Goal, Foster; backs, Bowring, McPherson; halves, Brown, Fraser, Miller; forwards, Cunningham, Dicks, Lumsden, Shortall and Heath. Casuals—Goal, Lush; backs, H. Rendell, F. Rendell; halves, Rowell, Jeffrey, G. Hunt; forwards, Carter, E. Rendell, Piment, W. Rendell and R. Wood. The Feldians played from the western goal and from the start were very aggressive, and for quite a while were down on the Casuals goal. Clearing well, Bowring, for the Feldians, sent the ball well west and Cunningham and Dicks took it up on the Feldian goal, but Heath sent east, and the latter side, with a neat pass, and Piment scored the first goal for the Feldians. Re-entering the Feldians again became aggressive, and but for the work of Bowring and McPherson might have scored several more goals in this half. A couple of corners were secured by each side, but nothing resulted, when just before half time the Feldians again got west and Piment getting control placed the leader neatly in the net, scoring No. 2 for Feldians. The teams crossed: Feldians, 2 goals; Casuals, 0.

Photographic Curio.

We received a rare photographic curio from Mr. W. Parsons, of Crocydon, England, by last mail. Mr. Parsons is son of the late S. H. Parsons, a well known photographer, who settled down at Crocydon, in England, practising his art. The curio referred to is a photographic page of the Crocydon "Riot" of 1861, containing an article entitled "Riot in Newfoundland." It is a refutation of an account of the election of that date which has been published in the New York Herald. Mr. Parsons shows his great ability as an artist in being able to make such an excellent photo. The page is the first copy of the Crocydon Times, and it appears that the proprietors are getting out a Jubilee edition of the paper, which will go to the British Museum and take a picture, it was a peculiar coincidence that they should engage Mr. Parsons.

TROUBLE AT BOTWOOD.—Capt. Edward English, Harpout Master, went out to Botwood by the express last evening. A dispute has arisen there between the pilots and the captain of the pulp boat steamer, and the Capt. English has been called in as an arbitrator.

CITY IMPROVEMENTS.—The Council removed this week the cobble stone drains at College Square and substituted a concrete depositary where the surface was to be laid. The surface and trapped like a lavatory. It is also graded. This is a decided improvement to the locality and a step in the right direction.

MORE WHALES CAPTURED.—While Hon. M. P. Cashin was out on the Trepassay branch, yesterday he captured a whale from Cape Broyle saying that the whaler Hawk captured another large fish yesterday afternoon and towed it into Ferryland. This is the seventh fish to date and she is doing far better than last year. The Puma is reported for ten fish to date, and the fish captured by the Humpty at Dublin were among mostly sulphur bottoms.

"Standard" Bread

made from Standard Flour is a meal in itself! White Bread is not.

ELLIS & Co.

Limited, 203 Water-st.

Just received the first consignment of the

Celebrated STANDARD FLOUR.

What is STANDARD BREAD?

STANDARD BREAD is the old farm-house loaf, made by milling good, sound, sweet, dry wheat, and taking out of the Flour the coarser bran.

STANDARD BREAD is not a patent food, or a patent bread. It is just good sound BREAD, and it is called "STANDARD" by everyone, because it agrees with a standard fixed by eight eminent medical men in a Manifesto, published first by the "Daily Mail" on January 26th, 1911, and since widely republished by the newspapers of the world.

Since the doctors first published their Manifesto, STANDARD BREAD has been welcomed everywhere. For years it has been supplied to the King and Queen at Windsor Castle, and at Buckingham Palace. It is eaten by rich and poor, by young and old, by healthy people and sick people.

STANDARD BREAD has been used for years at many of the great hospitals for Consumption. STANDARD BREAD made from STANDARD FLOUR has been completely summed up by a Harley Street Surgeon in this statement:—

"The short stature, the pale face, the weak chests, and the general degeneracy of the present generation, are greatly due to WHITE bread diet."

STANDARD BREAD made from STANDARD FLOUR is all right.

Doctors and learned scientists have declared with no uncertain voice for the plain unadorned product of the WHEAT BERRY.

The trouble started when a man commenced to "Paint the Lily" to improve on nature.

STANDARD FLOUR contains 80 per cent. of the WHOLE WHEAT, including the germ and semolina.
