Strike.

Passenger Traffic Does Not Suffer so Much as Freight Business.

Conflicting Statements Regarding the Situation-Both Sides of the Story.

Toronto, Sept. 30.-All the railway telegraphers connected with the C. morning save one man, who does not belong to the order. All the places, however, are filled by other operators, and the strikers have not even succeeded in tying up a single freight train. There are a good many operators in the city out of work, and province and right through to the train. There are a good many operaof inexperienced men. The operators at Streetsville Junction, Guelph and place the strikers.

London went out, and those of Galt,

ATLANTIC Windsor and Owen Sound remained in. They charge that west of London the strikers left their keys opened, and increased the difficulty of learning the positon of things. The commercial C. P. R. line is being used where

At Peterboro the C. P. R. strike tween this city and Vanceboro is out. caused a standstill on that road as Officials who understand telegraphy far as freight is concerned. At Lindsay there is no apparent in-terest in the C. P. R. strike.

At North Bay passenger trains were Marseilles, Sept. 30.-There exists a delayed somewhat yesterday. There state of affairs in the city at present are no freight trains running on the C. P. R. Light engines are being run have joined with their men and quit ahead of passenger trains. All freight trains were stopped all along the Ottawa and Chalk River divisions. Passenger trains were

SUPT. LEONARD'S STATEMENT. Toronto, Sept. 30.-Superintendent Leonard estimates that on his division some 80 operators quit work, but a number of these are men who also States. But weeks have already elapsed, and nothing definite appears to have been done for their relief, is concerned. They refuse to do any operating until the difficulty between the brotherhood and the road has been settled, and this will likely have the effect of wiping their names off the pay roll. There is no question about the strike being general over the C. P. of hunger, yet nobody seems willing to step in and guide this band of re-

It is claimed by the strikers that all of those men who remained at the keys were students, who are utterly incompetent of receiving a train order, and who would undoubtedly work disaster along the road, if they are intrusted

with the work. When the time came for the day men to report yesterday morning there were many absentees along the line, but Superintendent Leonard states Hagersville, Sept. 30.-In the case that a number of the more important offices were soon filled, and everyof Robert Carpenter, a farmer in the township of Tuscarora, about two thing, while not going along quite as miles from Hagersville, who is suspected of having killed his wife (as smoothly as usual, is being handled as well as can be expected under the tailed yesterday), the coroner's jury after an absence of half an hour,

Division Superintendent Leonard destations are efficiently manned. Between London and Windsor 22 men have returned, and dispatchers at St. Thomas, Drumbo, Ayr, and many other points are again at their posts. Assistant Superintendent Tait wires Mr. Leonard that everything is al! right between Montreal and Ottawa, and the line is also equipped from the opinion that death was caused by Montreal to Newport, Me. There are any amount of applications in from competent operators ready to take

DIFFICULTY AT OTTAWA. Ottawa, Ont., Sept. 30.—At Ottawa there are seven train dispatchers and three operators in the employ of the C. P. R. Three dispatchers and one operator were at work when the strike was ordered. All walked out of the office, with the exception of one dispatcher, not a member of the union. The two operators on day duty did not go to work yesterday; neither did two of the dispatchers. Two disstormy meeting of the strikers, it patchers were at work yesterday. The effect of the strike on the movement of trains was felt at Ottawa almost immediately by the delay in the

to give them their old places. No fur-ther trouble is expected. The miners culty will be felt in out of the way asked \$3 a day for all classes of crossing places, where the operator is workmen. This was refused. Under old scale surface workmen were that one regular train behind at these points will throw the whole system into general disorder. Appearances indicate that they have been watching the situation carefully, and have taken the most favorable moment for making their demands. Freight is moving in great bulk from the west, particularly in live stock and grain. The fruit business at this juncture is

also heavy, and numerous freight specials are moving. The striking operators predict that there will be serious trouble on the Ottawa-Montreal division almost immediately, as the operator at Calumet, the chief crossing point, is out. They state that Assistant Superintendent Robillard tried to get some Ottawa man to fill the Calumet office, but was not successful, and it is also stated that he met with the same result when he tried to replace the statio operators at the union depot. wires were ticking as usual in the tures of Hilton, Hughes & Co., and will begin business in the big Tenth dispatchers' department this morning, but downstairs in the operators' room not a sound was to be heard. The operators admit that the company will be able to operate regular trains on some of the divisions for a few days, but claim that even now freight specials cannot be sent out. If matters are not fixed up, they say, which means acceding to their demands. that within a week there will be a general disorder. The strikers claim that they will have the active symmost elegant structure of the kind in pathy of the Brotherhood of Railway Trainmen when necessary, as the lat ter have grievances, as well as the

operators.

EASTERN DIVISION. Montreal, Sept. 30 .- A majority of the Canadian Pacific Railway telegraphers on the main line between St. John and Vancouver have stopped work. On the Ontario lines the effect of the call to strike appears to have not been general, and things are better here than elsewhere. From Montreal to Quebec, and north to Chalk River, the majority of operators are out. The officials say they will be able to get hundreds of operators from the States in a few days. Mean-while they do not expect passenger

travel to suffer, though freight may Quebec, Sept. 30.-Nearly all the C. P. R. trains last night were more or

engaged to take the places of the strikers, and they hope to have every-thing going smoothly. Mr. Pierson, assistant grand chief

of the order, said his report showed that there was practically a tie-up on the road, and that the situation was becoming serious. The company emphatically deny this.

The Chronicle thinks the strike means at least a temporary paralyzing of the operations of the whole system, and inconvenience to the public.

While the C. P. R. officials claim that all the C. P. R. trains are running and that the strike of the dispatchers will not interfere with traffic in any way, reports from various points along the system show that there will be considerable inconvenience for some time at least. Reports on this head are conflicting, the C. P. R. officials claiming that everything is going smoothly, while Mr. Pierson P. R. went out on strike yesterday and the committee representing the strikers claim that just the oposite is

the case WESTERN DIVISION. Winnipeg, Man., Sept. 30.-Railway business here is paratyzed on account there is no difficulty in filling' the coast. In the city the only telegraphvacancies. There is a probability, however, that the Brotherhood of and dispatchers. Passengers trains Locomotive Engineers may order its go out as usual, but freight is prac-men out, partly out of sympathy for tically at a standstill. The feeling the strikers, and partly to protect is that the company will fight the men them against acting under the orders to the end, and in three or four days will bring in enough operators to re-

ATLANTIC DIVISION. St. John, N. B., Sept. 30.—On this division, which extends from this city to Megantic, all the operators have obeyed the order to strike, and the company is considerably crippled, although at the general offices this is denied. Every regular operator beare being pressed into duty at important points, and it is not expected there will be much interruption to regular passenger trains, but the freight business is bound to suffer. The station agents on this section work

Halifax, N. S., Sept. 30.-The strike on the C. P. R. has attracted little attention hereabouts so far. THE MEN'S SIDE.

Montreal, Sept. 30.-Assistant Chief Pierson, of the Order of Railway Telegraphers, who ordered the strike, said: "I did not want this duty imposed upon me. I said so to Mr. Shaughnessy, do the station agency work, and are still at their posts, so far as this work ties to come together and have an amicable settlement. I pleaded for this with Mr. Shaughnessy. I pleaded in vain. Do not suppose the order took the initiative. We got messages and telegrams from the members along the line urging the order to protect the men. The men complain that they are poorly paid for one thing. The C. P. R. pays wretched wages. They ask a train dispatcher to work for \$35 or \$40 a month. Think of it! In the United States they get \$125 and \$150. And they pay men differently on different sections of the line for the same class of work. Thus, one superintendent will pay \$35 and another will pay \$40 for the same class of work. The men wanted uni-formity of wages; and I presented a basis of payment which would introduce uniformity, but Mr. Shaugh-nessy would not listen to me. Again, the men are compelled to do work which is simply fit for laborers, while they are asked to put on a de-cent appearance. Thus they have to clared last night that the telegraphers' strike is practically over on the Ontario and Quebec divisions and all and to walk miles in the winter, and to walk miles in the snow to carry out this duty. These duties, they think, should not be imposed upon

them. AN ACCIDENT Smith's Falls, Ont., Sept. 30 .- The passenger trains on this line worked their way through yesterday without any orders, but crossing at their usual places. An accident occurred at Norwood about 11 a.m., between two freight trains, which were picking their way along. Both trains badly wrecked. The system is completely upset.
