***************** LOCAL MARKETS.

London, Monday, March 20. Business was exceedingly quiet at the market this morning. There were only two loads of hay offered; had there been a score of loads on the stand there would have been no difficulty in selling, so good was the demand; it is not likely that there will be much hay offered until there is an improvement. in the roads; prices realized were \$9 25 and \$9 75 per ton.

Oats were scarce, as there were only three loads on sale; prices were higher, at \$1 19 and \$1 20 per cwt.

There should be a brisk demand for all kinds of produce at Tuesday's market.

Mr. D. McIntyre purchased a deckload of live hogs at \$5 75 per cwt for selects.

H. C. Becher, stock broker, Bank of July Septe by private wire from Bartlett, Frazier & Cor Carrington today: New York, March 20. - In view of July the strength of Americans in London our market this morning opened disappointingly. Initial quotations were about at the level of Saturday's close and it appeared that the volume of selling was heavy, and that the support was meager. Union Pacific and N. Y. C. both broke about a point and there was some support at these prices. there was some support at these prices.

A sharp rally took place subsequently, the market not only recovering the early losses, but some stocks showed substantial gains over Saturday's last prices. N. Y. C. in the rally was especially strong, and after the first break the supply of stock was very small. The buying of Atchison was good, ouse most active in it having affiliations with a prominent banking house. The fact that the market rallied so easily would indicate that the early selling of Saturday represented bear operations rather than real liquida-MONTREAL.

HARRIS WILL FIGHT RAG AREA BYLAW

Dovercourt Road Church Anxious Says It Is Illegal and Will Go to Law Before He Will Leave Simcoe Street.

> One of the many matters the council will have to deal with tonight will be a complaint from Jacob Harris, through his solicitor, against the alleged injustice of the rag and bone area of London, the bylaw for which was passed last year, and comes into force this year. Mr. Harris contends that the bylaw is illegal, and it is understood that he intends to fight it in the court. If the city tries to compel him to remove from his present location on Simcoe street, near Richmond, he will fight the bylaw to the bitter end. The bylaw to which Mr. Harris ob-

jects was drawn up by City Engineer Graydon, approved by the city solicitor and adopted by the council. It names a certain district in which the rag and bone business may be conducted, but Mr. Harris is not in the district. MAY SECURE LUMP

Account for Maintenance of Sewers Will Likely Be Used to Complete System.

Chairman Stevely, of the finance committee of the city council, is still unearthing ways and means to cut down the estimates, so that a 23-mill rate will be possible this year. Since 1898 the city has had in the bank a sum of money slightly over \$11,000, which is the balance of an account created by laying by 10 per cent of the sewers debenture money for maintenance of the sewerage system. At different intervals the councils have endeavored to appropriate this money for other purposes than for which it was laid aside, but all such attempts have ended in failure. Now, however, Ald. Stevely has brought the matter before City Solicitor Meredith, and it is understood that the solicitor thinks the money can be used to equip and maintain the bacteria beds on the sewage farm. If this is the case, and the solicitor's opinions generally go, the bacteria beds will be finished this year, two extra beds will be built, and the entire system will be put on a proper footing. Further, it will mean the cutting off of another \$2,000 of the estimates of the board of works, as that body has placed an item in its esti-mates of \$2,000 for bacteria beds. Originally the item was \$6,000, but finance committee hewed \$4,000 off it on Friday night.

The finance committee is also likely to get after the estimates of No. 3 committee at its next meeting. It is said that the item of \$1,000 for a combination chemical and hose wagon for No. 3 committee will be struck off. It is also the intention to ask Chairman Matthews to send in a detailed statement of all the fire hall accounts, so that they may be pared intelligently.
