Report From Washington That Government Has Unearthed Damaging Evidence.

New York, Dec. 23. - A Washington dispatch to the Sun says: It is intimated that the administraion is about to extend its anti-trust campaign, and the report is current of the corporations that will figure in developments soon to appear. James R. Garfield, commissioner of corporations, will soon complete his inquiry into the operations of Standard Oil and it is said that immediately following the publication of his report in January

operations of the Standard Oil Company in Kansas and elsewhere, the commissioner of corporations has proceeded with great secrecy. Only the President, the Attorney-General, Assistant Attorney-General Purdy and are fully advised as to just what has been done. There is an impression in Washington that the Garfield inquiry has developed some important facts relative to the payment of rebates to the Standard Oil Company and its subsidiary companies since the Elkins act

has been in force inations in favor of companies affiliated with the Standard, which has been disclosed incident to inquiries conducted by the interstate commerce commission. Mr. Garfield has instructed his special agents in the oil fields to forward their final reports as soon as possible. He has before him already an immense amount of information MARRIAGE LICENSES ISSUED BY bearing upon the oil industry, and he w. H. Bartran. 99 Dundas street. President Roosevelt at the earliest pos-
