There was no for hay and eggs.

Speaking about the prospects for the horse trade this spring, a leading buyer says that there is going to be a good demand. He, however, says it depends on what prices the farmers will ask. A buyer from the west came here to make a purchase of a couple of car loads of heavy horses. He found that the farmers were asking such high prices as would entail a loss. He packed his grip and left for home. After Suffering For 10 Years With Pain In The Back He Was Completely Cured By "Fruit-a-tives."

"Fruit-a-tives" cures diseased and irritated kidneys when all other treatment fails.

The proof that "Fruit-a-tives" is the greatest kidney cure known to science is demonstrated by these tablets removing all pain in the back-making the kidneys healthy—and curing chronic constipation.

ST. HYACINTHE, P.Q., June 10th, 1905.

I have much pleasure in testifying to the great good which "Fruit-atives" have done me. I was a constant sufferer from severe constipation and severe pain in the back for the last ten years. I tried many kinds of pills and tablets and physician's medicines but the relief was only temporary. Not long ago

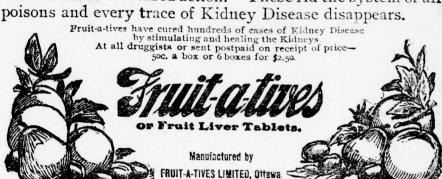

I tried "Fruit-a-tives" and now I am entirely well, no pain, no constipation and my stomach and bowels act naturally. I cannot say enough in praise of "Fruit-a-tives" -they are a grand medicine, mild as fruit in their action and easy to take.

(Signed) H. MARCHESSAULT, High Constable.

Do you know that every drop of blood in your body goes to the kidneys to get rid of some of the impurities? When the bowels don't move fegularly, the blood takes up poisons in the bowels and carries them to the kidneys. Then the kidneys get overworked—inflamed. Then comes the pain in the back-headaches-constant desire to

"Science is young," he said. "Some of the greatest of chemistry's branches are herbs and barks. but I should not be surprised if some kid of artificial organism could be made by scientists which could feed itself and reproduce itself. After all, a living thing is nothing but a system of energy, and life is but a matter of chemistry."
