[Special Correspondence.] BERLIN, June 14 .- St. Jerome's College, one of the chief centres of learning in Ontario, which today celebrates its golden jubilee, like most institutions and religious establishments, had a very humble beginning.

The idea of establishing a Catholic ollege somewhere in Central Western Ontario had been in the minds of many Catholics long before it could be realized. Bishop Power of Toronto suggested this to the Jesuit Fathers, who came to Canada in 1847. Two of these zealous missionaries took charge of the first home was in St. Agatha, a year later four or five more came and established themselves in New Germany, but while a building was in course of erec tion there they moved to Guelph. In the early '50's, when the Jesuits had moved from New Germany to Guelph their activity covered the whole field from Guelph north and northwest as far as Georgian Bay and Lake Huron.

Began In a Cottage.
In 1864 Rev. E. Funcken and his brother, Louis, together with a Dutch to manage the college and the parish to Canada. Father Louis, as he was fondly called by his friends, came with the idea of beginning a college, and he at once took steps to realize it, although

alone and without financial means in For this project he found a vacant house, the old homestead of the Wey family, a rather small log house situ-

the village of St. Agatha. He rented that place and opened his college in it. Soon after he obtained the assistance of the teaching staff the number of students also increased from year to of Mr. Fennessy, to whom the bishop granted permission to enter the Congranted permission to enter the Congregation of the Resurrection. Somewhat later, Rev. Louis Elena, C.R., large wing had to be erected and another story was added to the old buildjoined them. Cabin Outgrown—Moves to Berlin.

The small log cabin was inconvenient and overcrowded, wherefore, Father Louis had to look around for another place. At the end of the scholastic year 1900-01. Father Spetz resigned the presidency of St. Jerome's into the hands of Rev. John Fehrenbach, C.R. Ph.D., D.D., but continued to teach in the college for nine years more while attending to the ever increasing parish

"Father John" Fehrenback.
Under the rectorship of Father
Fehrenbach the college continued its
quiet course of usefulness. Besides quiet course of usefulness. Besides making several changes in the curriculum of studies he succeeded in paying off most of the outstanding debts. "Father John" was not only scholarly, but he had a strong sympathetic nature and was beloved by his students. He resigned the presidency in 1905 and Father Zinger was appointed president and still has charge. The present incumbent of the rector's office returned from Rome in August 1899. During his first two years at St. Jerome's he held the position of assistant disciplinarian, the duties of which office, with the exception of one which office, with the exception of one tor. During the same four years he was also vice-president and master of studies. When he assumed the office of president there was no money in the treasury other than a legacy of \$15,000 bequeathed to the college by the late Father George Brohman.

Planning Present Building. That was sufficient to encourage his ent magnificent new building, plans for which were prepared early in 1906, to be erected in front of the old building and connected with the former "new four-story building. The dimensions are 154x42 feet and so constructed that the former "new" four-story building forms a wing of it. The work was begun in 1907 and completed in the nmer of 1908.

The laying of the corner-stone was an occasion of special importance. The college was honored on this occasion by the presence of His Excellency this Apostolic Legatus, Monsignor Sbarreti and the Superior General, Rev. John transferred his college to this building as soon as it was completed in the fall of 1866. The college opened with about forty resident students from On-Kasprzycki. The present edifice when completed is the most ornate edifice in the city, giving ample room for future increase of students. For the novitiate two neighboring

residences were procured in 1909 at a cost of \$10,000, and the purchase com-pleted the college block property, which taught at the college after his regular school hours. Some of the older, more advanced students also assisted by bounded by four streets. In Memoriam to Father Louis In the college park a monument stands to Rev. Louis Funcken, the be-

loved master. It is of heroic size in bronze, representing Father Louis in the college, if possible, Father Louis saw no other way than to go out on a the act of giving instruction to a stulecture tour. For this purpose he went to the United States in 1869 and brought cagnini, a distinguished Roman sculptor. Special mention might be made home with him about \$1,000. In 1871 Father Elena and Father Spetz were sent to reopen St. Mary's College, in of the three fathers who have so ably assisted the present rector, they are: Rev. W. Vincent Kloepfer, Rev.
