## ODURHAM,

 AND CHRoNuchy: satarayy

.with lts inportance. Impressed Win
this idea, we progeed to recapititate farther points in ts avor, as wh may
think apposito We have, itherte
supported the claims of the G. 's. Wright, for such a subsidy simply becanse, in such an arrabgement, wh
saw a great public ad yantage; ; anc we are still uvder the impression that,
that vessel is the only one ilkely to perform the eorvice requiredy when the means at our dispossl are consid
ered. It is true that ber accommods tion for passengers is not so grest as
could be desired; but this is a seoond. clear she would rot bo left on the we should secure all the advantage of froight and which implies loft rate for competition between thie port and San Francisco, has been but two, pal
pably made apparent to us ; the odreleosness and irregularity which hat
reeently marlzed the transmision

our malls, the diver of

rates for freight end passage have
inflented serious ipjury on our pro
gress; showing very platily, ho the hanids of a company poseessing monopoly of the trade. Calitornia a absorbing the present large influx o,
popuiation arriving by every steamer from the Fast: "Super abundant labo eagerly Beeks pont the places where re. prospeots of fatore sucoess. Th most prejudiced cannot deny that in British Columbis, these desiderata' ar more promising then any where necessary in order to make this Colong
the point of attraction'; are efieap and easy means of reaching it, and thes
will only be created by an opposition line from San Frapcisco to this port Prom a commercial point of yiew, the
evil effeots of infogular commnioaovil effeots of infegular commana-
tion with the outer world, absorate"paraly ies to busine 1 respondence and consequent disorgan-
isaumo for oxtange trabeationg is something large. Wha need not
allade to the many vozatious annoyances in private life, that proceed from the same cause. We hare then, the
power witnin our grasp toftee burselves from all these evilis, ana" we can show that ffom financial póint of gested, would be most beneficial. Setting aside the immediate reanfts
from lower freighte and larger impor tations, a gheaster linimgigatiop would
draw capital along filk it and set fre the funds now lying idie in ou Banke The revinne would be largery ment $\begin{gathered}\text { a hahdredfold for any immedi }\end{gathered}$ ate outtay. Without any desire to mind our readers, that a large sum was expended in a bootless attemp to direet commeree from its natura contre, in prolonging the voyagos
of sleamers arriving at this port, by sending them to New West-
minater. The addition of a like sum to that riow paid for, the present illnordered sertice would meet all the necessary outlay at this junoture Oar natural advantages of eentraily iract, numistakeably showis th argency of promptitude in the oase tioned oungreat superiority orer a mediate restit will bo the rapid In erease of our commercial importance The vered quegtion of the Seat of Government is now finally set at rest, and with that, we ${ }^{\text {trust, }}$ all our eteap and reguitay commintica cheap and reguatar commanica
