Watching Chinatown

PORTLAND, Or., Feb. 3.-A vigilant patrol of Portlands north and south Chinatowns is in force tonight. Many policemen and plain clothes men are on duty in readiness for any trouble that may occur, but all is quiet. There are no indications of an outbreak. Many Chinese are keeping close at home, and the usual places of congregation are less favored than usual. Aside from this latter feature there is nothing to indicate that there is anything unusual in the atmosphere in these quarters.

Another Gold Excitement

SOUTH BEND, Ind., Feb. 3 .- The re port that a large number of men and women are holding ground at South Fork river, near here, by force of arms, was greatly exaggerated. IMPERIAL DECREE

ST. PETERSBURG, Feb. 3 .- The dismissal of Bishop Hermogenes from the

Saratoff diocese and his exile to the Schirovitsky monastery for insubordin ation has raised the question as to the manner in which the Russian church is governed. The Holy Synod last week was subjected to such violent criticism orthodox circles that it felt obliged to publish a statement tonight with the object of clearing itself of responsibil-

ity. The statement points out that the nomination of the bishops to assist in the synod and their election to episcopal rank as well as their deprivation of both these honors, belongs solely to the Imperial prerogative. The council of bishops, the assembly of which is urged in many quarters, is incompetent to deal with such matters.

URGES REDUCTION that he ships from Australia. OF ARMAMENTS

LONDON, Feb. 3 .- David Lloyd George, Chancellor of the Exchequer, took occasion today while he was making a speech at the City of London Liberal club to declare that the reported split in the British cabinet was entirely unfounded. He also assured his audience that the alleged feud between himself and Premier Asquith was a myth.

Speaking upon reduction of armaments, he said he believed that the present was an advantageous moment to consider this question. It was in the interests of France, Germany, Russia and Great Britain that there should be a better understanding. He continued:

"I believe that with candor, frankness and boldness it is attainable. The world would be richer for it. Taxes might be reduced, and the money which would be saved that is now spent on armaments could be devoted to developing the resources of the country and improving the condition of the people. The corner stone of sound finance is peace on earth and goodwill among men."

This reduc-tion, though, is a notable one; and its causes, and the state of business in continental countries to which it directs attention, have been explained by Mr. Valentine, the manager of the British Standard Produce company, who has played a large part in opening up the foreign markets to the beef and mutton
