American demand, not a Canadian one, that it is made for American purposes, ight fills whole paper with proofs of this, tone specially good but of American tests of the present. On Tuesday, last, The New York Times published a tach from its Washington correspondent, ally giving the views of the State Departon relations with Canada. It being publications with Canada. this to build up American interests at

as is a humbug which has been sprung
the people of Canada by surprise, but
they repudiate. Such apparent success

lobe is quoted to prove aching for Commercial or, failing that, for Free Trade with the world. Let us inform our New York con emporary that "this leading Canadian journal," so called, does not lead wibble opinion here, and most emphatically does most emphatically does of Canada. In its adtrepresent the people of Canada. In its adcacy of Commercial Union it is simply the installed organ of Erastus Wiman; and that alest the well-known views and wishes of better portion of the Reform party, for which party it pretends to speak. In 1878, in 1882, and again in 1887, the electorate of Canada distinctly repudiated Free Trade, also the men who tried to foist it upon the country. They declared most emphatically in favor of a National Pelicy for Canada, which is all against The Globe, be it remembered.

Protection, Free Trade, and international trade relations generally, The Toronto Globe does most conspicuously misrepresent the people of Canada. The result of three consecutive general elections; and the fact that the Reform party, although largely committed to the Free Trade side through the blunders of its leaders, refuses to adopt Commercial Union at The Globe's bidding, ought to be some proof of this.
