To the Editor of the Guide and News.

DRAR SIR, - Since the date of the Auditots' abstract statements of the Acauditots abstract statements of the Accounts of the township of Brooke, was published in your paper, a number of unpaid accounts or that year—1879, have come in and of which neither the Auditors or the present Council were aware, notably among the number of Mr. I ister's account for his services as the township council in the case Shipler of Procks and council, in the case Shirley vs. Brooke, and also non payment of our county rates. Think ing these were paid, as was customary whenwas in the council before. I made no enquiry about the matter when I was at Sarnia, attending the County Council. On seeing it suggested by a correspondent in one of your papers, that in all probability they were not, I made enquiry of our Township Treasurer, and he informed me that he had not sent a dollar. I then wrote to the County Treasurer, when he sent me a statement to the following effect. Total amount of County Rates for 1879, \$1468.80; but that in the month of December he had transfer-red the sum of \$590 coming to the Township from the non resident land fund, to the reduction of the debt, and there still remained a balance due of \$878.80, with interest at 8 per cent since the 14th December.

As applications for grants of money have already began to come in, I thought a statement, showing the total deficit for 1879, up to date, would not be out of place, and showing also, the present Council's inability to meet such demands

To say the least it shows a very lax state of affairs, and the question might well be asked "Whither are we drifting?" I think it would have been of more interest to the ratepayers, if on nomination day, there had been a statement of the financial position of the township made, instead of indulging in so much personal abuse, it would appear as if there was an object in drawing attention away from inquiry in that direction. Your humble servant being handed over to the tender mercies of the newspaper scribblers,
