## DO YOU USE PILLS?

If In Doubt About the Right Pills to Use Read the Following Letter Carefully:

"I am one of those persons whose system requires aid," writes Mr. Young Gledhill, from Picton, "but it is so easily affected by reason of the great sensitiveness of the bowels that ordinary drastic pills inflict great injury to the delicate coating, and excite such persistent activity as to be with difficulty checked.  
"I wish in the highest terms to express the great value of Dr. Hamilton's Pills in cases like mine, and I am sure also for elderly people and the very weak, there is no pill like them.  
"Speaking of my own experience with Dr. Hamilton's Pills, I can say they have proved the most stimulating pills for the liver I have found. I have proved their tonic action upon digestion, and the same results have been secured by friends upon whom I have urged their use. The manufacturers are to be congratulated upon possessing so valuable a prescription, and the public should know that so valuable a remedy has been placed at their command.  
"No other pill for constipation, for liver, kidney, or stomach trouble, compares with Dr. Hamilton's Pills; they are mild and sure always to restore health. Refuse substitutes. Sold by all dealers, 25c per box, or The Catarrhozone Co., Kingston Ont.

A Family Medicine

## Field Crop Bulletin.

A bulletin on the field crops of Canada issued last week gives their average condition by provinces at the end of August, together with estimates of the production of spring wheat, oats and barley at that time. The per cent. condition of wheat is given as 86.80, of oats 84.44 and of barley 84.72, which is about five to seven per cent. higher than last year and nearly the same as two years ago. The other crops range in condition from 80 to 86 per cent. and are generally somewhat lower than in 1909 and 1910. The rains of August hindered the ripening of grain and some injury was caused by hail storms, low temperature and rust. Towards the end of the month frosts prevailed in many sections of the Northwest provinces, the full extent of which could not be determined at the date of the reports, but in the case of wheat, oats, and barley production was lowered by probably 12 per cent. which has been followed in the table. In the older provinces the grains ripened earlier and little damage was sustained excepting from drought in some localities, and the reported condition was 75 or over.  
The average yield of spring wheat is

For regulating the bowels, invigorating the kidneys and stirring up the lazy liver

FRUITS of all kinds in season, Imported and Domestic.

CANNED FRUITS, full line, fresh and reliable.

ICE CREAM, cream soda and summer drinks.

OUR choice cigars are preferred by smokers.

WEDDING CAKES in the very best style.

**S. E. THOMPSON,**  
NORTH END BAKERY.

estimated at 19.14 bushels per acre for the Dominion, which is seven bushels more than last year, and the total yield at 186,225,000 bushels. The fall wheat was reported last month at 17,706,000 bushels, being grown almost wholly in Ontario and Alberta. The total wheat yield of the country is therefore estimated to be 204,634,000 bushels or 81,849,000 bushels more than last year at the same date. The average per acre is 19.50 bushels, or 6.30 bushels per acre more than last year.

For the Dominion the yield of oats is given as 368,153,000 bushels, which is 84,906,000 bushels more than last year's estimate at the same date, and the average at 35.81 bushels per acre, being more than last year by 7.10 bushels. The average for barley is also higher; last year by 7.31 bushels, and the total yield is estimated at 51,559,000 bushels as against 39,388,000 bushels for last year.

The estimated yield of spring wheat for Manitoba, Saskatchewan and Alberta this year is 181,835,000 bushels, of fall wheat 3,193,000 bushels, of oats 204,758,000 bushels and of barley 30,205,000 bushels, as compared with 98,808,000 bushels spring wheat, 1,082,000 bushels fall wheat, 92,201,000 bushels oats and 14,723,000 bushels barley in the previous year.

In Prince Edward Island, Nova Scotia and New Brunswick the estimated yield of spring wheat is 1,453,000 bushels, of oats 10,699,000 bushels and of barley 437,000 bushels; in Quebec 1,777,000 bushels spring wheat, 44,619,000 bushels oats and 2,389,000 bushels barley; and in Ontario 2,163,000 bushels spring wheat, 14,513,000 bushels fall wheat, 102,077,000 bushels oats and 18,528,000 bushels barley.

The final estimates of last year printed in the December Monthly gave the production for the whole country as 16,610,000 bushels fall wheat, 133,379,600 bushels spring wheat, 323,429,000 bushels oats and 45,147,600 bushels barley.

The October number of the Census Monthly will give the statistics of the areas of field crops of the Dominion this year as taken by the Census of the first of June.

## NO MORE DANDRUFF

**T. B. Taylor & Sons Know**  
What is Making Clean  
Scalps.

In order to rid your scalp of filthy dandruff you must kill the germ. There is a hair dressing called Parisian Sage which is now sold in every town in Canada. It is guaranteed by T. B. Taylor & Sons to eradicate dandruff, stop falling hair, splitting hair and scalp itch in two weeks or money back.

If you have dandruff get a large 50 cent bottle to-day and rid yourself of it. Remember that if dandruff germs are not destroyed in time, the hair will surely fall out and baldness will follow.

It is not common to find a person who correctly estimate the lapse of a single second. But in these days of speeding automobiles the exact time when each of two colliding vehicles must have occupied particular spots may be a matter of great importance. In a recent experiment a clock nearly two seconds to stop after brakes were applied, and in that time it moved 19 feet. So even fractions of a second are important. One can train himself to estimate even tenths of a second. Try it with a watch, and it will be found that it is just possible to count ten in the lapse of a single second. But one must count very fast to do it.

A CURE FOR RHEUMATISM.—The intrusion of uric acid into the blood vessels is a fruitful cause of rheumatic pains. This irregularity, is owing to a deranged and unhealthy condition of the liver. Anyone subject to this painful affection will find a remedy in Parmelee's Vegetable Pills. Their action upon the kidneys is pronounced and beneficial, and by restoring healthy action, they correct impurities in the blood.

SOME sportsmen have a poor recollection from year to year as to commencement and close of hunting and fishing season. They should cut this out and paste it in their hats. Open season for grouse and partridge from October 15th to November 15th, inclusive. Hare, including cottontail rabbits from October 1st to December 15th inclusive. Ducks of all kinds, or any other water fowl, and snipe, rail, plovers or any other birds known as shore birds or waders from September 15th to December 15th inclusive. Woodcock from October 1st to November 15th inclusive. Deer from 1st to 15th November, inclusive. Black and grey squirrels from Nov. 15th to December 1st, inclusive. See Chap. 49, 7 Edward VII. (1907).

## Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## DEATH AFTER A SCRATCH.

Morris Quatzam, an eleven-year-old Windsor boy, fell off his bicycle and scratched his wrist. He thought nothing of the injury, but blood poison set in and he is dead.

Such incidents as these—by no means infrequent—ought to make people realize the danger that may lie even in the smallest flesh wound.

Take a simple illustration. When a knife, a rusty needle, a splinter of dirty wood, a barbed wire fence, or a thorn, scratches the hand, the latter is inoculated with germs, of which the air about us is full.

The way to avoid serious results is to cleanse the wound and apply Zam-Buk. Zam-Buk is a powerful, yet painless, germ-killer, and when applied to the broken skin is absorbed into the tissue, instantly destroying the germs that spread disease and stopping the pain and smarting. That is why Zam-Buk is so popular with children.

The flesh thus soothed and purified, the wound is made perfectly healthy, and all poison and cause of festering removed. Having done this, Zam-Buk then proceeds to heal the wound or sore, and new, healthy tissue is built up in a quick, painless and perfect manner.

Zam-Buk must not be confused with ordinary ointments. Zam-Buk is a unique preparation, possessing antiseptic, soothing and healing quantities that are not to be found together in any other preparation. It is not only a unique healing balm, but it is also a skin food. For all skin diseases and injuries—cuts, bruises, burns, eczema, chafing, ulcers, ringworm, etc., it is without equal. It is also used widely for piles, for which it may be regarded as a specific. All druggists and stores sell at 50 cents a box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

"There's what I'm looking for," said the lazy man going through the want advertisements for an easy job, as his eye alighted on a call for canvassers to sell something that "would sell itself." "That's the sort of a job I want," he said to himself. "Something that I can earn money at without work." And he thought that really some day he must go down and look 'em up.

Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain. What it has done once it will do again.

Strathroy musicians will organize a comic opera company.  
A Cleveland man went out into the country to spend a week. His host, a frugal swain, took him into the cellar, shortly after his arrival, to test the cider. "How many barrels of cider did you make this year?" asked the city guy, slipping his beverage from a gourd. "Just eleven barrels," answered the farmer. "Why did ye want ter git some?" "No—oh, no. I was just thinking that it was a pity you couldn't find another apple—you'd have had an even dozen barrels!"
