THE FINCH WOOD PRESERVATIVE AND PRESERVATIVE PAINT.

These preparations have been used and tested 25 years scantling sidewalks, Joist Sills of buildings, after being in the ground 18 years are found to be as sound as when put down. Old shingle roofs, painted with the Preservative Paint, after 17 years is still in a good state of preservation, is suitable for sides of buildings, fences, etc. It is the cheapest and most durable paint known.

E. H. CRANDELL, Esq., Mayor of Brampton, writes:

DEAR SIR, - In reply to your request, would say you painted an old roof of my house in 1882 and it is still in a good state of repair.

Yours Truly,
E. H. CRANDELL.

BRAMPTON, April 2, 1907.

GENTLEMEN, - About sixteen years ago you painted the roof of the house. The shingles were then pretty well worn. I have done nothing to this roof since and the shingles appear to be in a good state of preservation.

M. TREADGOLD,
Ex-Mayor of Brampton.

The Finch Wood Preservative, And Paint Company.

870 Queen St. West, Toronto, Ont.

Lancaster, Ont.

PERSIATIC SHEEP AND ANIMAL WASH

Do you know that the Bickhardt Renfrew Co., Limited, Stouffville, Ontario, have received Diplomas and Medals, at Toronto, Ottawa, London and Sherbrook fairs, last fall, for their Persiatic Sheep and Animal Dip or Wash? This is a fact. Do you know that if your cows during the winter months received a dipping once a month, lice or no lice, they feel better for it? Do you know that a few cents spent on each cow in that direction will pay you many times over for the larger amount of milk they will give? Do you know that a cow when confined in close quarters all winter appreciates attention of this kind? Do you know that vermin will appear on cattle and that their skin becomes very itchy and often sore, and that the poor dumb brute is in misery? and do you know that it is your duty to periodically relieve them of this unpleasant condition. If you don't know it try it, and you will be surprised how thankful your cow will be. You will see the thanks in more milk and better milk, consequently more and better butter. Those that have tried it will tell you so. Your Sheep, Pigs, Calves and Horses all appreciate the same attention. They all become more or less affected during the winter months. Persiatic Sheep and Animal Dip has made its mark. It is being used by the leading cattle and sheep men of Canada. It is put up in wide quart, gallon or barrel. It retails at 75c per quart. We solicit correspondence. We believe we are on the right track. Our sales and testimonials justify our saying so. Persiatic Sheep and Animal Dip cures Sheep Scab, and Scaled Hoof on Cattle. Write us. It only costs two cents.

THE CHEESE AND BUTTER ASSOCIATION OF WESTERN ONTARIO

The programme for the 22nd annual convention of the above association, has reached us. This annual gathering of Western Dairymen will take place in the Grand Opera House at Guelph, Ont., on January 17th, 18th and 19th next. A splendid array of talent has been secured, and dairymen who can avail themselves of the privileges of this convention will be well repaid in the line of practical and up-to-date information they will receive on all branches of dairying. Among the prominent speakers who are to address the convention are the Hon. Sydney Fisher, Hon. John Dryden, Hon. Thomas Balfour, A. F. MacLaren, M.P., A. Patullo, M.P.P., Prof. Robertson, Prof. Jordan, Director New York Agricultural Experimental Station; Prof. Beardshaw, President Ohio State College of Agriculture; Prof. McKay, Iowa State Dairy Instructor; Mr. Saunders, Dr. Mills, Prof. Dean, Prof. Shutt, Dr. Council, C. C. James, Deputy Minister of Agriculture, F. C. Harrison, and D. Derbyshire, President Eastern Butter and Cheese Association. Arrangements have been made for a return trip for single fare to Guelph. Delegates must secure standard certificates from the ticket agent, from whom a first-class single ticket to Guelph is purchased.

Disposing of Old Stock.

At this time of year all the stock should be inventoried and what will not probably gain enough or produce enough during the winter to pay for its keep should be sold or killed. No farmer can afford to keep stock that does not at all times not merely pay its way, but give him a profit besides. At this time of year such stock as is used for food will probably be in as good condition to kill, as it can be made, and the sooner this disposal of it is made the better it will be. Young growing stock will always pay a profit. So, too, will the best blooded stock, even if it is past the time for growing. - Boston Cultivator.
