Uresbyterian Review.

THURSDAY, MARCH 25711, 1886.

Rev. Mr. Burns, Agent of Knox College, reports among others a subscription of \$1,000 to the Endowment Fund, from John Charlton, Feq., M.P.

CHARLES STREET Presbyterlan church, Toronto, Rev. J. Neil, pastor, bas decided to introduce an organ. A committee has been appointed to give effect to the wishes of the congregation.

In connection with the recent evangelistic service, Erakine church, Totonto, Rev. J. Smith, pastor, ninety-four new members were added to the church on profession of

KNOX COLLIGE closes on Wednesday, April 7th. We understand the Rev. J. M. Milligan, B.A., Toronto, will deliver the closing lecture, subject 1—"The Mosale Cosmogony,"

THE annual social of the Central Presbyterian church, Toronto, Rev. P.M.F. McLeod pastor, was held on the evening of the 18th inst. After a bountful and well-served repast provided by the ladies of the congrerepast provided by the ladies of the congregation, the large audience adjourned to the lecture-room where, the pastor in the chair, timely and stimulating speeches were delivered by the Rev. D. D. McLood, Barrie, and Rev. R. K. Grant, Orillia. The choir of the church furnished excellent music. Solos were sung by Miss Lawrence and Miss Muldoon, and were well received. Revs. G. M. Milligan. St. Andrew's, and J. M. Cameron, East Presbyterian, Toronto, were also present and Joined in the general congratulations on the fitting close to a year of happy and successful congregational work.

On Thursday evening, the 8th inst., a con-cert was given in West Presbyterian church, Toronto, Rev. R. Wallace, pastor, by the brass and string bands of "C" Company of regulars under the auspices of the Young People's Association of the church, for the benefit of the organ and furnace funds. A large number of non commissioned officers and men were present. The commodious lecture-room was crowded to the door. The selections rendered by the band were interspersed by piano solos and song solos by Mr.
Sandford Leppard, Miss McGregor, and
Miss Mortimer, and also a reading by Mr.
George McBeth. During the interval between the parts, the Drill Sergeant put a
squad of his men through the bayonet exercise, and a soldler gave an exhibition of his
skill in -calesthenic exercises with clubs.
Both of these were admirably executed. Both of these were admirably executed. The whole entertainment drew forth the warm plaudits of the large audience.

The Home Mission Committee will meet in St. Andrew's Church, Toronto, on Tues-day, March 30th, at 9 a.m. Claims for Mission Stations and Augmented congre-gations for the past six months, with the names of all Missionaries and Catechists segmenteded by Prosbyteries for Mission, take during the summer months, should be sent to the Convener or Scoretary, not have then the 23rd of March. Unless this

high than the 23rd of March. Unless this inettended to, the list cannot be completed and printed before the day of meeting. Ministers, Ordained Missionaries, and Students about to be licensed, who are open to engagement for a term of years in Quebec, Ontario, Manitobe, and British Columbia, should send in their application methods dalay.

without delay.

At this meeting the grants to Mission
Stations and Augmented congregations
will be revised, and the amounts fixed for

the energing year.
WM. COCHRANE, Convener. Brantford, March 9th, 1886.

The Synod of Hamilton and London will mest within St. Andrew's church, Sarnia, on Monday evening, 12th April, at 7.30 p.m.
Rolls of Presbyteries and all papers for transmission to Synod, should be sent to

April. Certificates enabling ministers and elders to travel at reduced rates will be sent in due course; those of the elders enclosed to the ministers of the churches which they represent. Should any member of Synod not receive his certificate a week before the

meeting, the same should be made known to the clerk that another may be sent. The business committee will meet within Andrew's church, on Monday, April

12th, at 5 p.m.

WM. COCHRANE,
Clerk of Synod.

JUST AS BAD AS PAINTED, MIDESPREAD COMMOTION CAUSED BY THE TERRIBLE CONFESSION OF A PHYSICIAN.

THE story published in these columns re-

Title story published in these columns recently, from the Rochester, N.Y., Demoral and Chronicle, created a deal of comment here as it has elsewhere. Apparently it caused even more con motion in Rochester, as the following from the same paper shows a Dr. J. B. Henion, who is well-known not only in Rochester, but in nearly every part of America, sent an extended article to this paper a few days ago which was duly published, detailing his remarkable experience and rescue from what seemed to be certain death. It would be impossible to enumerate the personal inquiries which have been made at our office as to the validity of the article, but they have been so numerous that further but they have been so numerous that further investigation of the subject was deemed

with this end in view a representative of this paper called on Dr. Henion at his residence on Andrew Street, when the following interview occurred: "That article of yours, Doctor, has created quite a whirlwind. Are the statements about the terrible condition you were in, and the way you were rescued, such as you can sustain?"

"Every one of them and many additional ones. I was brought so low by neglecting the first and most simple symptoms. I did not think I was sick. It is true I had fre-quent headaches; felt tired most of the time; quent headaches; sett tired most of the time; could eat nothing one day and was raverous the next; selt dull pains, and my stomach was out of order, but I did not think it meant anything serious. The medical profession has been treating symptoms instead of diseases for years, and it is high time it ceased. The symptoms I have just mentioned, or any annual action or irritation of the water. unusual action or irritation of the water channels, indicate the approach of kidney disease more than a cough announces the coming of consumption. We do not treat the cough, but try to help the lungs. We should not waste our time trying to relieve the headache, pains about the body or other symptoms, but go directly to the khineys, the source of most of these ailments."

"This, then, is what you meant when you said that more than one-half the deaths which occur arise from Bright's disease, is it Doc-

"Precisely. Thousands of diseases are tortuing people to-day, which in reality are Bright's disease, in some of its many forms. It is a hydra-headed monster, and the alightest symptoms should strike terror to every est symptoms should strike terror to every one who has them. I can look back and recall hundreds of deaths which physicians declared at the time were caused by paralysis, apoplexy, heart disease, pneumonis, malarial fever and other common complaints, which I see now were caused by Bright's disease."

"And did all these cases have simple symptoms at first?"

"Every one of them, and might have been

"Every one of them, and might have been cured as I was by the timely use of the same remedy. I am getting my eyes thoroughly opened in this matter, and I think I am helping others to see the facts and their possible danger also."

Mr. Warner, who was visited at his estab-

lishment on North St. Paul Street, spoke very

"It is true that Bright's disease had in-creased wonderfully, and we find, by reliable statistics, that from 7d to 80, its growth was over 250 per cent. Look at the prominent men it has carried off, and is taking off every men it has carried on, and is taking on every year, for while many are dying apparently of paralysis and apoplexy, they are really victims of kilney disorder, which causes heart disease, paralysis, apoplexy, etc. Nearly every week the papers record the death of some prominent man from this acourge. Recently, however, the lacrease has been checked, and I attribute this to the amond the of the control of the c I attribute this to the general; use of my

"Do you think many people are afficted with it to-day who do not realize it?"

"A prominent professor in a New Orleans medical college was lecturing before his class on the subject of Bright's disease. He had various fluids under microscopic analysis and was showing the students what the indications of this terrible maisdy were. "And now, gentlemen," he said, "as we have seen the unhealthy indications I will show you how it appears in a state of perfect health,' and he submitted his own fluid to the usual test. As he watched the results his countenance suddenly changed—his color and com-mand both left him and in a trembling voice discovery; I have Bright's disease of the kidneys. And in less than a year he was dead. The slightest indications of any kidney difficulty should be enough to strike terror to any one."
"You know of Dr. Henken's case?"

"Yes, I have both read and heard of it."
"It is very wonderful, is it not?" "No more so than a great many others

that have come to my notice as having been cured by the same means." You believe then that Bright's disease can be cured?"

"I know it can. I know it from my own and the experience of thousands of prominent

persons who were given up to die by both "You speak of your own experience, what was it?" "A featful one. I had felt languid and

unfitted for business for years. Eat I did not know what alled me. When, however, I found it was kidney difficulty I thought there was little hope and so did the doctors. I have since learned that one of the physicians of this city pointed me out to a gentleman on the street one day, saying: 'There goes a man who will be dead within a year,' I believe his words would have proved true if I had not providentially used the remedy

nau not povolentally used the remedy now known as Warner's Safe Cure."

1 Did you make a chemical analysis of the case of Mr. H. H. Warner some three years ago, Doctor? was asked Dr. S. A. Latti more, one of the analysts of the state board of health.

Yes, sir."

"What did this analysis show you?"
"A serious disease of the kidneys."
"Did-you think Mr. Warner could re-

COYEZ ?" "No. sir. I did not think it possible." "Do you know anything about the remedy which cured him?"

"I have chemically analyzed it and find it pure and harmless."

Dr. Henion was cured five years age and is well and attending to his professional duties to-day in this city. The standing of Dr. Henion, Mr. Warner and Dr. Lattimore in the community is beyond question, and the statements thry make cannot for a moment be doubted. Dr. Henton's experience shows that Bright's disease of the kidneys is one of the most deceptive and dangerous of all diseases, that it is exceedingly common, but that it can be cuted if taken in time.
