## Muscular Pain

is often the most distressing  
feature of the maladies com-  
mon to Winter—colds, La  
Grippe and tonsillitis. As

a means of relieving such  
myalgic pain, no remedy at the physician's command  
will be found more promptly effective than

# PHENALGIN

Clinical experience has definitely  
established that PHENALGIN is especially useful,  
not only for its pain relieving properties but also for  
its freedom from depressing or deleterious action.

For many years, therefore, PHENALGIN has held  
first place as a safe dependable analgesic in La Grippe,  
Rheumatism, Gout, Migraine, Dysmenorrhea, and  
kindred conditions.
