

## The . . . Amateur Camerist Begins Well

The Folding Kodak.

If in selecting an instrument he chooses one that is not too limited in the range of work it will do; is adapted to hand or tripod use and is light and compact. It should be something more than a toy and have something besides "cheapness" to recommend it.

Now take the Kodak, it is not expensive but it has a good lens, uses glass plates or roll films, takes snap shot or time exposure pictures and focuses with the index or on the ground glass. New improved shutter, revolving stops for lens, finder for vertical and horizontal exposures and speed regulator for shutter. Latest improvements, finest adjustments, handsome finish. Prices \$12.00 to \$20.00.
