

A PUZZLE

The following I believe has a solution, but what that solution may be I by no means promise to tell for a most excellent reason.

The figure represents the plan of a prison with intercommunication-cells (bless the Latin); a prisoner in A is offered his freedom if he can make his way to B after passing once, and once only, through all the 36 cells. How is he to do it?

AN ENGAGEMENT

He sat on the sofa enraptured,  
And his arms were outstretched in a bow;  
She sat like a bird that is captured,  
And drank in his passionate flow.  
"I engage you now for the carnival,  
"For the rink," he said, "and the slide;"  
"And then," she responded, "is that all?"  
"Won't you take me out for a ride?"  
"Oh, yes," he exclaimed, "in a cutter  
We will drive for a year and a day,  
You will furnish the bread and the butter,  
And I will borrow the sleigh."
