The Provincial Association commenced its operations without any well-established means of support, trusting to members' fees and contributions from county societies. Its first exhibition was so far successful that a balance of \$408.25 remained in the treasurer's hands after all expenses were paid. In 1847 the association was incorporated by act of Parliament, under the title of "The Agricultural Association of Upper Canada." Since that time it has increased in influence and usefulness year by year, as the following brief synopsis of the results of the different exhibitions held under its auspices amply proves:—

Permanent buildings are now erected at Toronto, Hamilton, London, and Kingston, respectively, for the express purpose of holding annual exhibitions. In 1862, the annual meeting was held at Toronto, and permanent provision made for stabling 198 horses and 435 head of cattle. The amount of prizes offered exceeded 16,000 dollars.

Such is the progress which has been made during fifteen years, in bringing together the different industries of Upper Canada, and teaching her people those lessons which can only be learned by friendly competition in an arena open to all, without distinction, prejudice, or favor. The cause of this rapid improvement is no doubt in great part due to the immigration of scientific agriculturists, as well as practical farmers, who have learned and studied husbandry in all its branches in the best districts of England and Scotland. Any improvement which takes place, either in stock, implements, or farming practice, either in Europe or the United States, is immediately imported, and, if satisfactory, adopted in Upper Canada. By means of the different agricultural societies, all needful information respecting the results attained

are speedily made known, and there is now no lack of enterprising and energetic men who gladly embrace every opportunity of improving their farming practice. The financial condition of the Association and the Board of Agriculture, afford incontestible proof of the deep root which these institutions have taken in Canada. It will be remembered that in 1846 they commenced their operations without funds, relying solely on subscriptions. In 1859, the large sum of \$110.908.78 passed through the hands of the treasurer. Out of the surplus funds a handsome and commodious brick building has been erected in Toronto for the purposes of the Board, amply provided with space for museum, library, reading room, large hall for public meetings, and a capacious seed store.
