

that the Congress will be invited to meet in Toronto.

My hope is that more money will be available from the Ontario Government or from other sources. In any case I am prepared to carry on and do what is possible with the \$25,000 promised by the Dominion Government. Of this \$20,000 can be assigned to transportation subventions and local expenditure can readily be kept within \$5,000.

For financing the printing of the Report of the Congress I shall look to the fees collected from those in attendance.
