

CUTS QUITE A FIGURE

The cost of erecting a friction clutch "cuts quite a figure."
With the Dodge Split Friction Clutch the cost of erection is reduced to a minimum as well as the cost of repair to the wearing parts.

In the solid clutch the cost of erection and repair to the wearing parts has been shown time and time again to be four times the cost of these items in the Dodge Split Friction Clutch.

We make these split friction clutches for pulleys and couplings. Many users who have other makes installed along side the Dodge say that the Dodge is superior to any other make.

We don't ask you to take our word for this.

Send for our booklet, "How good people speak of it."

The booklet gives the opinion of many of the largest concerns in Canada, some of whom have used the Dodge Split Friction Clutch for years without one cent of expense for repairs.
