

“ America, from the farthest Extremity  
“ of *California*, &c. to the North, for a  
“ space of fifty degrees? i. e. in all the  
“ great space of America, which in our  
“ *Map* we enclose with a dotted line?  
(beginning on the West Coast, about the  
Latitude of 43° North) “ except what is  
“ known on the side of our Atlantic Ocean,  
“ and the little which the Russian  
“ Navigations have ascertained to us on  
“ the side of the South Sea? I answer  
“ readily in one word, *Ignoro. Nescio.*  
“ *I know not!*”
