See our Foot Muffs, one of the comforts of driving, all offered at Half-price Mounted Leopard and Wolf Skins, suitable for library or den. Special price, Thursday 25.00

—Main Floor—Queen St.

Complete New Showing of Collars for Men

A full assortment of latest designs from leading American and Canadian collar manufacturers and showing that the double-fold collar still leads the vanguard in popular opinion; it would be hard to say that any style of collar is absolutely correct as it is almost entirely a matter of personal taste and comfort, especially the latter, for the 2 1/4 inch close-fitting fold collar might be quite comfortable and look well on the tall young man, but worn by a stout man with rather a short neck it will not look so well or be at all comfortable. The correct style in collars, therefore, is what style and height suits you best whether it be wing, straight band, double fold, cutaway or other turn-down variety. We show a full line of styles and range of sizes in all depths and many leading makes, including the well-known W. G. & R. and Tooke Collars. Sizes 14 to 17 1/2, at 12 1/2

Earl and Wilson Collars, four-ply linen collars, in new styles, in fold, wing and bands, as promulgated by this authoritative American collar house. Including 1/4 sizes, 14 to 17. Price 18

Earl and Wilson best quality collars, in the double-fold style, represent the greatest care that can be put in collars; they are carefully cut so as to ensure perfect fit, the buttonholes reinforced and the stitching throughout regular. Exclusively a high-grade collar in fit, style and finish. Including 1/4 sizes, 14 to 17. Price 25

Rubber Collars for Men and Boys, 15c

This is an exceptionally low price for this famous Arlington Brand and only made possible by buying a tremendous quantity, which include all styles, straight band, double-fold, cutaway, wing or turn-down, and low turn-down styles. These are all in the linen finish, are easily washed and indispensable for outdoor workers. Sizes 12 to 18 1/2. Thursday, special price 15

—Third Floor.

ART SOCIETIES ASK ENDOWMENT

Influential Deputation Want the Government to Take Over Education in the Fine Arts.

An influential deputation representing all the art associations of the province and similar bodies, waited on Hon. A. J. Matheson and Hon. Dr. Pyne yesterday to ask the government to take over the fine arts and industrial arts by the endowment of a fully equipped school in connection with "The Grange" art museum.

Included in the deputation were: Sir Edmund Walker, chairman of the art board of governors; G. A. Reid, former president of the Royal Canadian Academy; R. F. Gagen, representing the Ontario Society of Artists; J. P. Murray, president of the Central School of Art; Bond, H. R. Palmer; representing the C.M.A.; were Messrs. Elliott and Roden; P. H. Bridgen representing Arts and Letters; A. H. Griggs, representing the

architects; A. H. Cassels and A. H. Chapman representing the Toronto Society of Artists; A. Munro Greer of the Engineers' Club.

Sir Edmund Walker said it was time the province took up the work. He maintained that Ontario had fallen far behind in art instruction, and as a result it was almost impossible to find original designs for the manufacture of fine goods, jewelry, antique furniture, etc.

At the present time the art school occupies the upper floor of The Grange. Objects of art are kept there and the building will ultimately become a great treasure-house.

Hon. A. J. Matheson expressed himself as heartily in sympathy with the proposals made, but wondered where the money was going to come from. Hon. Dr. Pyne suggested the appointment of a committee of the members of the Art Associations to take up the matter and outline a definite plan of procedure.

AMERICAN CEMENT CO. ASSIGNS.

PHILADELPHIA, Feb. 6.—Sub bulletin day. On petition of two stockholders of the American Cement Company, Judge McPherson in the U. S. district court here today, appointed three Philadelphia receivers for the concern, which is one of the largest manufacturers of cement in the U. S. The receivers are Robert W. Lesley, president of the company, Sidney W. Keith and John Scott, Jr.

Little Jack Horner stuck in his thumb and drew out a plum. "You should wear gloves so as not to leave a finger print," we warned him.

Moore Park Annexation Before Board of Control

Opinions Are Divided as to Advisability of Adding This District to City—Will Look Ground Over Before Making Decision.

Shall the city annex Moore Park? Mayor Geary and Controller Church are rather dubious about the matter, but Controllers Hooken and McCarthy say "yes," while Controller Foster is on the fence.

Yesterday morning a deputation consisting of fifty or more residents of this beautiful district, composed of 675 acres of land, waited on the board of control asking that steps be taken immediately.

The little band was headed by J. S. Fullerton, former corporation counsel, who showed conclusively that the immediate annexation of this district would mean a great saving both as regards beauty and expense.

It would mean the preserving of the present artiveness, in that the Canadian Northern Railway has acquired a large tract of land and intends laying tracks within a few months, and if the city does not take immediate action the railway will be laying a deadly level crossing. If, on the other

hand, annexation comes into effect at once, this evil will be done away with. Level crossings, apart from the dangerous point of view, do not add to the beauty of the place and are a source of constant fear.

Then there is to be considered, pointed out the lawyer, that should annexation be left over for a year or so, the railway will have built its line, and to introduce bylaws compelling it to do away with its level crossings will incur endless expense.

Controller Hooken said that there are several parcels of land adjoining the city which should be annexed without delay and that this is one of those districts. The controller thought that as Toronto is growing so rapidly it will soon be forced to annex this section, and if the matter is laid on the shelf for very long it will cost a tremendous amount more money than if annexed immediately.

What the people of Moore Park want is to preserve the grandeur of their section and secure fire and police protection along with other privileges

which city life affords. The mayor said that water mains in Moore Park would be laid by the city shortly. Legislation for that purpose, he said, was being sought at the present time.

"Does that satisfy you?" he asked, thinking that the deputation could be made happy with the promise of water mains.

"No, what we want is for the city to annex our little district immediately and thus prevent the level crossing which the Canadian Northern are preparing to lay," said the deputation.

"Furthermore, for the safety of the city as well as ourselves, we want fire protection. Moore Park is growing and requires police protection just as much as any other district populated as it is."

The deputation finally went home with the understanding that members of the board of control will within a few days look the ground over and secure data which will lead to something definite within a short time and before the Canadian Northern Railway has the opportunity of laying the level crossing.

YORK PIONEERS Annual Social Will Be Held on Friday, February 16.

It has been decided to hold the annual social of the York Pioneers on Friday, the 16th inst. This date met with the approval of a large gathering which met yesterday afternoon. An invitation from John Ross Robertson, requesting that the Pioneers visit his art gallery to view paintings of 1840, was accepted. Instead of the regular monthly meeting in April, the first Tuesday afternoon of that month will be devoted to the keeping of Mr. Robertson's invitation.

CARTWRIGHT ATTACKS OLD-AGE PENSION PLAN

Nearly 3000 Persons Have Taken Out Annuities—Mischievous Demagogues Active.

OTTAWA, Feb. 6.—(Special.)—Sir Richard Cartwright, in a defence of the government annuities system, in the senate to-day, said that there were nearly 3000 annuities instead of 614, as the minister of trade and commerce had mistakenly announced.

One reason the annuities plan did not receive even greater consideration from the working classes, for whose benefit it was more particularly intended, arose from ignorant and ill-judged conduct of mischievous demagogues, both in and out of parliament, who did not scruple to assure the people intended to be benefited by the act, that if they would only wait long enough they would be perfectly certain to get what the act proposed to give them and for nothing at all.

Sir Richard denounced old age pension proposals as destructive of thrift. Sir Richard said the worst enemies of the working classes were those who seek to pauperize or degrade them into being recipients of pensions they had not earned, and further, that Canada should not make preparations to relieve the submerged tenth, but to see that no submerged tenth exists in Canada.
