

NEW ANGLICAN CHURCH IS OPENED AT ISLAND

Initial Services Attended by Overflowing Congregations—Need of Summer Work

The opening on Sunday of Emmanuel Church, on the western island beach, about midway between Health's Point and the Lakeside Home for Little Children, is further evidence of the activity of the church of England in providing for the summer cottagers, since the present undertaking follows closely upon the initial service in the new edifice at Simcoe Park (Fisher's Point).

St. Andrew's Church, Centre Island, for many years served that portion of the island, the service being conducted by Bishop Sweetman.

Canon Cody, who delivered a powerful address on reaching out or extension and confirmation of faith and principle as being the vital necessities of the church and the individual, alluded to the new building as exemplifying extension.

Under present conditions, when so many people left their regular residences for the summer months, some change in church methods was demanded, he thought. The church had to follow the people, as in the abandonment of the summer life there was a decided tendency to give up church attendance altogether along with the other habits and customs of ordinary life.

Archdeacon Sweeney delivered an address at the evening service, congratulating the founders of Emmanuel Church on the hopeful outlook for a very useful work among the 200 families that the church was designed to reach.

Rev. H. D. Raymond, a graduate of Wycliffe, will have charge for the remainder of the summer.

A woman was arrested at Mount Pleasant Cemetery Saturday morning for stealing flowers.

While staking out the new sidewalks to be built on Yonge-street, east side, from Esplanade to Sherwood-avenue, last Saturday, Engineer P. S. Gibson found difficulties in the way which should be remedied at once, as all the fences from Dr. Boyd's property to H. Dwyer, sr.'s, property are from 12 to 26 inches too far on the roadway. This strip of land is absolutely needed, as Yonge-street is narrow enough and should the Metropolitan double track their line the street will not be an inch too wide.

Wychwood. Miss Mabel Clarkson of the post-office is spending a few weeks with friends in Welland.

Several young men, mostly from the city, appear before John Henderson, police magistrate, this week on a charge of breaking into the tent of James Langmuir and stealing eight baskets of cherries.

A free fight started. County Constable James McMullin tried to mediate, when the Shamrocks turned on him. Saturday evening the police magistrate fined Martin O'Grady \$5 and costs 30 days, for assaulting the constable and being disorderly, and Chas. Deasy \$1 and costs for using abusive language; and gave Martin Walsh suspended sentence. Eleven more will appear on Tuesday evening.

Patrick Vincent Walsh was arrested on Saturday night on a charge of obstructing and interfering with the constable's duties in connection with the affair.

LIBERALS TAKE UP ARMS AGAINST HOUSE OF LORDS

Lloyd George and Winston Churchill Are Unsparring in Reference to "Irresponsible Assembly."

London, July 7.—David Lloyd-George, president of the board of trade, speaking at Shotley Spa, Durham, to-night, and referring to what he called "worn-out parliamentary machinery," declared that the house of lords ought to be placed on the scrap heap.

He said further that the greatest beneficent measure ever conceived would have been passed by the time parliament is prorogued, and that probably this would occur in December.

Winston Churchill, under secretary for the colonies, speaking at Altrincham, Chester, to-night, said the government had determined to carry out its pledges regarding the reduction of land armaments, and that he believed the announcement made by War Secretary Haldane in June on this subject would satisfy completely all sections of the Liberal party.

The speaker urged the necessity of the Liberals continuing their confidence in the government in view of the possibility of a collision with "an unsound and irresponsible assembly that had ceased to fulfil its normal functions in the state, and had become the partisan weapon of a particular faction."

Warned of Massacres. Warsaw Socialists Issue Manifesto of Impending Bloodshed.

Warsaw, July 8.—The Socialists have issued a manifesto warning the people to be prepared for massacres of Poles and Jews during the next few days, which are being arranged by the police and troops, out of revenge for recent attacks.

The manifesto advises foreigners in Warsaw to seek the protection of their respective consuls.

P. R. R. EMPLOYEES ARE TOLD TO GET RID OF "EARNINGS"

Philadelphia, Pa., July 8.—Acting upon the recommendation of a special committee, the Pennsylvania railway directors appointed to investigate stock ownership by employees of the company, President Cassatt has issued a general order to all employees, requesting them to dispose of all coal mining or other stocks which they may have acquired.

Why Forty-five Women Died

During the month of March forty-five women were reported to have died in the United States as the direct result of using "headache powders." The poisonous and powerful ingredients caused paralysis of the heart and nerves, and death followed.

It is not difficult to understand that any drugs which have such hypnotic effects as to immediately stop pain are deadly in their action on the nervous system.

In order to thoroughly cure headaches the nerves must be revitalized and built up, and there is no way this can so well be accomplished as by the use of Dr. Chase's Nerve Food, the great nerve restorative.

Dr. Chase's Nerve Food does not stop the headache, but cures it by removing the cause. It is not recommended as a relief for headache, but as a thorough and positive cure.

Headache, sleeplessness, irritability, lack of energy and power to concentrate the mind, and all the symptoms of exhausted nerves disappear when this great food cure is used. Fifty cents a box, at all dealers, or Edman-square, Bates & Co., Toronto.

NO JAILS TO ACCOMMODATE SO THE SINNERS GO FREE

State of Affairs in the North Land Which Makes It a Paradise for the Ordinary Offender.

Dr. Smellie, M.L.A. Fort William and Lake of the Woods, is calling the attention of the government to a real grievance in the north country, and one with which Fort William is unable to cope. When the casual drunk comes before the magistrates and that official gives his decision—"three or thirty"—the unendowed culprit smiles broadly, knowing his own poverty of three and the impotency of the town to inflict the thirty.

Accommodation of the necessary variety is totally exhausted in Kenora, Fort Arthur and Fort William, and when the fine is not forthcoming there is nothing to be done but let the sinner go free, which he very cheerfully does, to spread the glad tidings among his fellows, all to the detriment of good government.

About the end of May, near Dinorwick, the C.P.R. had a break-down, and their own gang of men discovering case-goods in the wreck conveyed more than a sufficient quantity into the woods with definite results of a legal character in the sequel. The offenders got three months. Ten of them were enough to fill the Kenora jail. Eighteen more brought out the standing-room-only sign, in the vestibule of the Fort Arthur. The standard fare of three or "three or thirty" men escape any considerable degree of inconvenience.

There is a big territory thru which the C.P.R. runs for 200 miles, the G.T.R. for 100, the C.N.R. for 100, besides the Duluth extension. There is no county jail, the territory being bound to some place to which to send prisoners.

KISSED THE SEA CAPTAIN. Who Came to the Relief of the Helpless "America."

New York, July 8.—The Italian steamship Dinnia Mare, which towed the disabled and overdue Fabre line steamer America to Bermuda on July 4, arrived here last night.

According to the crew of the Dinnia Mare, the 115 passengers on the America were nearly starved thruout their drift of 11 days at the sea's mercy, and when Captain Penco of the Dinnia Mare steamed toward the America, at Bermuda, the passengers swarmed about him and carried him about the deck.

The men as well as the women of the steamer fell upon his neck and kissed him. They hailed him as their saviour and it was with difficulty that he got ashore.

When picked up, the America had been adrift 11 days with a broken shaft. There was no chance of repair, the break, and the only hope for the crew on board was a tow to the nearest port, which was Bermuda, 1100 miles away.

TALC MILLS' BURN. \$150,000 Blaze at Hillsboro—Will Seriously Affect Market.

Brockville, July 7.—(Special.)—The largest mill of the International Talc Company, said to be the biggest in the world, was totally destroyed by fire at Hillsboro, the cause of the blaze being unknown. The flames had gained such headway when discovered that it was found impossible to save it and everything went up in smoke, including several cars loaded with the finished article. Its capacity was 60 tons per day. This makes the fourth mill of its kind destroyed within the past year, and the removal of the largest plant will, it is said, cripple the fibrous talc supply of the world. The loss is over \$150,000, covered almost half by insurance. It is not known whether the mill will be rebuilt.

A Dangerous Hydrant. There is a decidedly dangerous obstruction in the east sidewalk at the foot of Yonge-street. It is a large hydrant, some little way inside the curb and it has sharp projections on each side for the key. When a crowd is coming in off a boat, the thing is hidden and parties hurrying down to the dock to get the boat can't see it. A young man ran into it on Saturday evening and sustained a nasty wound in his leg, which came near being a very serious injury. There have doubtless been many similar cases and some unfortunate will be crippled if it is allowed to remain as it is.

Mexico City, July 8.—News from Guatemala says that President Cabrera has imprisoned Edward Drummond, an American citizen.

Government Telegraph Business on Increase

Cobalt, July 7.—(Special.)—William Gradwholm, an employe of the Gillis Lumber Company, broke his leg at Gillis Station this afternoon. He was alighting from the train when he stepped down an embankment.

Business on the government telegraph line continues to grow. From North Bay there were over three hundred and fifty messages sent north in a single day last week, and over eighteen hundred messages were sent out of Halleybury last week.

"Yank" is Dead. The big dog that followed the late Nightwatchman Burrows around the downtown streets so long, is dead, having survived his master just two years. "Yank" had a very wide circle of acquaintances. He was a good-natured creature, fully posted in all the details of the clothing business. His career terminated yesterday at the summer home of Mrs. Burrows, Victoria-avenue, Munro Park, after 15 years' faithful service.

THE "SINGLE EYE" EFFECT

To see "singly," that is, with perfect focus, one must have one eye adjusted to the other. Both eyes must see as a "single eye."

No two eyes are exactly alike, though in many cases the difference is so slight that owners do not notice it. Unless affected vision is corrected images become more and more indistinct, and finally the eyes are both injured and the optician has a case of treatment on his hands as well as a case of adjustment. This means an oculist's fees, where no such expense would be incurred if eyes were brought here at the first indication of inaccurate sight.

I have had special training in optical institutions and long practical experience, I am able to give perfect vision in every case where optical skill is required.
