BANKERS—The Crown Bank of Canada.

Investment which will not only yield big dividends, but will increase in value a hundred-fold in the market. The market is in a highly nervous state and pending a settlement of outside opinion prices must necessarily be irregular, buy 100 shares; \$200 1000 shares; \$2000 10,000 shares. Rush orders. An investment which will not only yield big dividends, but will increase in value a hundred-fold in the next

The east half of the northwest quarter of the south half of lot 6, in the 6th concession of Coleman Township. 2. The southwest quarter of the south half of lot 7, in the first concession of Bucke.

3. The 40-acre claim in the Township of Coleman, Anima-Nipissing District, adjoining claim No. 1404 1-2.
4. Twenty acres in the Township of Coleman, Anima-Nipissing District being the north half of the southeast

quarter of the north half of lot 19, concession 3. 5. One 40-acre claim in the Anima-Nipissing District, being mining claim No. 1404 1-2, known as the "South Claim," situated about three-quarters of a mile west of Bay Lake, and about one mile north of Anima-Nipissing.

6. 4000 lots in the townsite of North Cobalt, beautifully situated on the west shore of Lake Temiskaming, containing 600 acres, close to the Green-Meehan and Red Rock properties, and only 300 miles from Toronto, on the remiskaming and Northen Ontario Ry, and is sure to be the coming summer resort, as there is good fishing, boating and bathing. The finest scenery, most interesting surroundings, and a very bracing climate. These lots alone, in a year or so, will be worth the full capitalization of the company. The mining properties

of this company are far better value than a great number of properties now in the market at double the price, without the townsite, which practically acts as a security, which is sure to increase in value every year, and protect every shareholder in full for his investment, with the chance of making very large money out of the development of the mining property. Our shares will be increasing in value from year to year, and in three years from now should sell on the open

market for \$10.00 a share from the dividend it will then pay. Parties wishing to secure an allotmeit can do so by wire or by letter, as there is no doubt every share will be bscribed for shortly. Shares will be issued in the order in which the applications are received. Call or write for prospectus, reports, maps, etc., giving full information.

## CTOMACH

To wrong action of the stomach and impaired digestion a host of diseases owe their origin. When the food is imperfectly digested the

full benefit is not derived from it by the body, and then stomach troubles start to appear. Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and langour. The great point is to get the stomach back into good shape again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

BURDOCK BLOOD BITTERS

Miss Lizzie Furlotte, Jacquet River, N.B., writes: "I was very much troubled with my stomach and did not know what I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One tay I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the derful cure Burdock Blood Bitters had made with her and advised me to try a bottle. I did so, and what a happy change I did so, and what a happy change she first bottle made. I took two more and

nor was there ever in the history of the mine as good an ore body in sight, as at present. The camp has not lost confidence in the Foster Mine, but the management ounces of silver to the ton. has at various times in the past been severely criticized. Local holders of Fostew are indifferent to the bumps the stock has recently received in Toronto, and view with a certain amount of contempt the atti-

Current Topics of the Cobalt Camp tude of city sellers of this and other standard Cobalt stocks.

It unfortunately happened that this property was not developed last summer and fail so as to have a good ore body blocked out and accessible and the exection of camp buildings and installation of the new p'ant has demanded almost the entire at-Cobalt, Ont., March 13.—(From the Man of the Spot.)—The Buffalo Mine is loading two car loads of ore this week. The Woods Company Mining Brokers, 75 Yonge street, report an active demand for mining claims and the standard Cobalt stocks. Deals are about closed for eral big mining properties which they ere offering. They have claims for sale in all the silver districts and in Larder Lake district, about 80 claims.

within the past week.

of which about 20 have changed hands

Mabel Tait Elliott. Dr. Elliott leaves Toronto in a few days, where he will take up private practice. He has made a host of friends in this town.

THE PRESS CLUB

The Press Club last evening had for Hon. J. W. St. John. Dr. Vogt gave an interesting talk on "The Musical Culture of the People of Ontario," which, he said, was not excelled anywhere.

DUEL IN PARIS TO-DAY.

Paris, March 13 .- Henri Rochefort, the well known editor of The In-strasigeant and Michael Pelletier, a change of recriminations in the courts get rid of the Nickel bunch.

Prices for Cobalt Stocks Follow the Action of Markets for Other Securities.

World Office. Wednesday Evening, March 13. The markets for mining shares were in a state of semi-demoralization to-day. Standard securities at the New York and Canadian exchanges were sacrificed regardless of value, and the sympathetic action of the mining stocks was regarded as perfectly natural. The liquidation at the Toronto mining exchanges was helped along by rumors injurious to prices. One of these was that the quarterly dividend on Foster was to be passed, but there was nothing better than surmise to warrant this statement. The buying power was enfeebled by the state of the market and such rumors as hese and prices were easily forced down without real liquidation. Losses were 16,18tered thruout the entire list and shares

On the Doings at the Nipissing Property.

Editor World: Not only are the Canas dian shareholders of Nipissing waking up, but we are pleased to note that the offi-cers and directors have taken notice of the fact, and have decided it is time to make some sort of explanation to shareholders.

We notice in an article in yesterday's
World that Ex-President Earle paid a visit World that Ex-President Eafle paid a visit to Toronto last Tuesday, in conference with Mr. Fasken, solicitor of the Nipissing Company. We are sorry that Mr. Earle could not find us, or could not find anyone who knows us. Perhaps, had he mentioned the matter to Mr. Fasken, he would have been eplightened on the subject, because we were favored with a visit from Mr. Fasken himself at our office in the Traders' Bank Building, Tuesday, which was the same day Mr. Barle was in Toronto.

The latter gentleman is quoted to have said:

"When Morton talks about vein 49,

prove our statements. From the many inquiries we have re-erred from shareholders, it is evident that her are very solicitous about this much-navertised Bonanza vein. We have not no-licial that the Nipissing people themselves have made any statements regarding the have made any statements regarding the vefa 49 that would tend to satisfy snare-holders. It is also apparent that shareholders are not entirely satisfied with existing conditions judging from the large number of proxies we are receiving. Whether of not the Guggenheims are in control of the corpany, we have no means of knowing, and under the circumstances, it would seem proper to accept Mr. Earle's statement that they are not.

From recent information, it may be assumed that the Temiskaming and Northeri Onterio Railway is responsible for the

symed that the Temiskaming and Northern Ontario Railway is responsible for the fullure of Mipissing to pay greater dividends. This is based on the statement of a representative of the Nipissing Company that the large amount of ore on hand canno: be shipped because the railway company cannot furnish the cars to handle it. Now it is my to the T. & N.O. Railway commission to explain. It must be gratifying to sharerolders to know that the Nipissing Company has on hand so much care that the railway company cannot handle it. It has also been said that the high grade ore has not been shipped, but for some unaccountable reason, has been held back.

Before we close this letter, it might not

balt ores in this city, and will lay a proposition before the council. The plant erected will cost \$100.000, and \$1200 will be paid weekly in wages.

The advantage of Kingston is its easy access to the coal deposits of New York State.

Before we close this letter, it might not be amiss to say something about vein 26, which is another of Nipissing's wonders. The shaft is down on this vein 70 feet. The vein is over a foot wide in places while in other places it narrows down to state. Before we close this letter, it might not

direction.

Shortly after the discovery of this vein, it too was reported to have "pinched out."

That report was also false, for the rich silver ore with niccolite statin of rare beauty is still plainly to be seen in large quantities. The values of this vein are probably as great as is the bonanza ore in No. 40. Nipissing is working two other shafts, but the same mystery that surrounds Nos. 49 and 26, also surrounds these two veins.

Standing on the station platform at Co. Standing on the station platform at Cobalt and looking over the snow-covered surface of Cobalt Lake, at a distance of a PRESENTATION TO DR. J. A.

ELLIOTT.

Gravenhurst, March 13.—(Special.)—
Dr. J. A. Elliott, who is retiring from the position of physician in charge of the cottage sanitarium, was last night given a farewell by the resident patients. He was presented with a handsome traveling bag, and an address was read, bearing testimony to his valuable services to the institution during the past nine years. A pleasant feature of the farewell was the singing by the patients of a song, "I Love"

quarter of a mile away, there can be seen small groups of workmen over on the cast. With the government, the Cobalt Lake Company is entitled to 33 feet of land unright back. Along this narrow strip in four different places within a distance of about 300 yards the Cobalt Lake people discovered 4 rich veins all of them trending from the Nipissing to the been touched by the Nipissing people at all. It merely goes to show that the Nipissing property is a net-work of remarkably rich veins. All talk to the contrary is absolutely foolish. quarter of a mile away, there can be see

Toronto, March 13. BACKS UP MORTON

In His Fight for Information on the Nipissing.

Dear Sirs, -I see by the Toronto World the guests of honor Dr. A. S. Vogt and trat you are asking for proxies for the Niplesing meeting. I hope you will be able to get a clearer statement from the management than the wishy-washy "report" of Dec. 22. In that report why did Fresident Earle refer to the reports of Hardinge & Hidden and then not print them? A true balance sheet would be a good thing also.
With Newhouse in Europe, I fear you will not get much knowledge of present condistrasigeant and Michael Pelletier, a lawyer, will probably fight a duel to-morrow in consecuence of an extions, but past history can be cledred up. Fasken ought to be able to say something. I do not know any of the present management, but I think it was a good thing to but I think it was a good thing to

> Ask your doctor about these throat coughs. He will tell you how deceptive they are. A tickling in the throat often means serious trouble ahead. Better explain your case carefully to your doctor, and ask him about your taking Ayer's Cherry Pectoral. Then do as he says. Get the best medicine, always.
