RUSSIA'S PLAYING A BIG GAME

The Czar's Government Objects to the Interdiction of Li Hung Chang as a Mediator With the Chinese Empress.

United States Anxious to Wash Their Hands of the Present Embarrassment—and Conditions Are Not Propitious for Russia's Schemes of Conquest—Russia's Position Needs to be Explained—London Standard Says Powers Must Hold Pekin.

London, Aug. 31.—(3:20 a.m.)—The Russo-American "surprise," as it is called, is the chief feature of the morning papers. While Russia's part in the proposal (see page 4) is regarded with suspicion, it is generally supposed that the flight of the Empress Dowager and Emperor renders the situation extremely difficult, and therefore that it might be wise to adopt the Russo-American program as the best solution of the problem.

Vigorous Policy Needed.

At the same time a very strong feeling is displayed in favor of a more vigorous line of policy.

U. S. Anxious to Get Out of It.

The Daily Graphic says: The United States are almost morbidly anxious to wash their hands of the Chinese embarrassment. This has long been apparent. But it is rather surprising to hear that their anxiety is shared by Russia. With the possible exception of Germany, there is probably not another power that would seriously object to the evacuation of Pekin.

Conservative Must Hold the Capital.

The powers must, however, retain their hold on the capital. Withdrawal, although inconsistent with the dignity of the Washington government, would be quite impracticable for the others. It would be counted as a triumph by the anti-foreign party in China.

Russia Should Explain.

The Daily News says: The Empress Dowager openly encouraged the attacks upon the foreigners, the suggestion that the Imperial personages are about to return to Pekin is rather startling; and the latest development of Russian diplomacy promises explanation of the attitude of Li Hung Chang as plenipotentiary. The powers should refuse to accept any intermediary, or to evacuate Pekin, which would only be interpreted as a sign of weakness.

Disturbance of Li Hung Chang.

The Daily Express and the Daily Chronicle say: The Empress Dowager's flight from the capital is a serious blow to the Russian position. It is a sign of weakness, and it is a sign of weakness.

TUPPER AND McDONAGH A WHIRLWIND OF ENTHUSIASM

GREETED SIR CHARLES TUPPER Over Five Thousand People Heard the Aged Baronet at Sydney, C.B., Last Night—Sir Charles Discussed the Iron and Coal Industry as the Paramount Topic.

SIR CHARLES IS MOST CONFIDENT

Of the Result of the Elections Whenever They Are Brought On—Great Enthusiasm Shown.

Sydney, C.B., Aug. 30.—(Special.)—Sir Charles Tupper addressed over 5000 people in the rink here to-night, and the audience were carried away with a whirlwind of enthusiasm at times. The rink, an immense building, is now being used as an open house, so that the meeting could not take place until after 9 p.m., the curtain going up on the opera at 7 p.m.

A BRIDGE AT GANSO.

The Necessity of Such a Structure Made Apparent by Mr. Hector Macdonnell, M.P.

Sydney, C.B., Aug. 30.—(Special.)—At the Conservative convention this afternoon, Mr. Hector F. Macdonnell advocated the building of a bridge across the Straths of Ganso. The government was spending \$25,000 to improve the ferry service, and it would cost \$75,000 a year to maintain it, with a road building along the north shore of Cape Breton and along the south shore, and with the immense business developing. It would soon be necessary to handle 300 cars per day by the ferry. This would mean delay, and would not be satisfactory. A bridge could be built for \$100,000, and this would cost about \$50,000 a year to maintain, and would be about as cheap and more satisfactory.

THE CONSERVATIVE PLATFORM.

The Conservative party stood on a platform which was known in every part of the Dominion, and which was well attended by their recent administrative success. Sir Charles devoted some time to defending the right of his party to call themselves Liberal-Conservative, and went back to the history of the party in Nova Scotia before Confederation, when under his leadership, it took ground against the crusade of the Liberals in that province of the office of public trust for a Roman Catholic, and insisted on equal rights and justice for all men, regardless of race or creed.

This has been officially announced by Dr. Chalmers, the chief medical officer, and is supported by Prof. Muir and Dr. Brownlie. The foreign Consuls are in communication with the medical authorities, and all Glasgow ships may be quarantined.

A Successful Invention—Have You Heard of It?

There have been lots of advertised cures for dandruff, but Dunlop, the big New York barber, has one that is decidedly novel, and, though introduced only last month to the American public, has proved wonderfully successful. It is an antiseptic preparation, and is applied to the scalp, and may be attached to the inside top of any hat. It purifies the air around the head, and is the only preparation that is handling them. One price—50 cents each. Try it. "Eldred's antiseptic hat pad."

Take Your Visitors Across the Lake.

While entertaining your Exhibition visitors across the lake, you will find it well to have a box of "Cambridge" cigars. The Lakeside Navigation Co. is the only one who handles them. The return fare is only 50c.

IT WAS PIONEERS' DAY AT THE INDUSTRIAL FAIR

Many of the Old-Timers Were on the Grounds Yesterday and the First Inhabitants Held Their Annual Feast.

Many Exhibits on View Which Are Worthy of Special Mention—All Departments Are Open—Horses, Cattle, Sheep and Swine Arrive—Manufacturers' Day.

Yesterday the Fair was given over to the oldest inhabitant, and he was present in large numbers with a more than usual stock of reminiscences. Pioneer and historical Day at the Industrial is always interesting, as the presence of so many old-timers gives to the program a living link, binding the present with the past. The average man does not realize the historical value of the stories of life fifty, sixty and seventy years ago, that fall from the lips of these great-aged and wrinkled grandfathers. But as the eye-witness of an event is the best judge of that event, the pioneers who give us the preservation of these stories in permanent form, and in honest up-to-date illustrations and furniture of the time of Canada's cradle days.

THE NEW DIRECTOR SPEAKS.

J. I. Hobson, as the newest director of the association, taking the place of the late Patrick Close, thanked the association for the honor conferred upon him, and declared that he had always had the interests of the Fair at heart, considering it one of the most beneficial organizations in Canada.

ROBERT NEWS, HOWICK, JUST RETURNED FROM THE FAIR.

Robert News, Howick, just returned from the Fair, declared that the exhibition was better than the best exhibition in the Old Land. The exhibit of stock represented in value and quality the best Canada could produce, and that he was sure that anything Great Britain could show.

THE FAIR AND OFFICERS OF THE PIONEERS' ASSOCIATION WERE THE GUESTS OF THE OFFICIALS.

The directors' luncheon yesterday was given in honor of the Pioneers' Association and the York Pioneers.

DINED WITH THE DIRECTORS.

The first post-prandial orator was the Rev. J. I. Hobson, as the newest director of the association, taking the place of the late Patrick Close, thanked the association for the honor conferred upon him, and declared that he had always had the interests of the Fair at heart, considering it one of the most beneficial organizations in Canada.

A BANK WRECKER DEAD.

William H. McNeil, who was shot dead in the street, was a resident of Clinton, Mass., Aug. 30.—The collapse of the Lancaster National Bank and the Lancaster Savings Bank of this town, following the flight of President William H. McNeil, who left behind him a shortage of \$300,000 on Dec. 30, 1895, was recalled by the announcement of his death in the little Quebec village of Hatley. Mr. McNeil had resided in Hatley since the bank trouble.

WHERE IS THE MAYOR?

People who frequent the City Hall are asking where the Mayor is. He has gone off for a holiday during the important week of the year—Exhibition week—and there is no one acting as Mayor. The Commissioners want to hold meetings to transact City business, but they are blocked by the Mayor's absence. The general query at the City Building is, "Where is the Mayor?"

CAPERINES—Great Value.

For the Fair, the Caperines, Yongo and Temperance streets, have opened up for the first time. The Commissioners want to hold meetings to transact City business, but they are blocked by the Mayor's absence. The general query at the City Building is, "Where is the Mayor?"

Ottawa, Aug. 30.—The Northwest Mounted Police, according to the history of that body, shows that the force was established in 1873 with 300 men, and by 1878 had increased to a membership of 500. Fully 100 of this number have received medals for being under fire. An order recently passed will enable the remainder of the 333 still alive, and who were in the Northwest during 1885, to receive the Northwest Medal.
