## FUR COAT FOR DRIVING AND AUTOMOBILING

This Coat  
**\$80.00**

The picture is a fair illustration of its full, generous cut, big storm collar and "solid comfort" appearance. The shoulders are broad, the skirt wide, the high storm collar turns up well around the ears. Lined with Italian cloth, quilted.

Just what a coat of that kind is worth to the man on the automobile, carriage or wagon seat in stormy weather will be best appreciated by those who have felt the WANT of such protection. One fact is certain—this coat, our own make, backed by our guarantee of satisfaction, offers a fur buying proposition not to be bettered. And we've further buying reasons for the man who'll come and examine the coat. Price is **\$80**

For hard, steady wear this Robe certainly takes first honors. The fine, burly buffalo cloth of which it is made seems capable of no end of heavy service; it is the best quality and finished to a very inviting appearance.
