Building Trades of Germany Refuse Employers' Wage Scale.

BERLIN, April 5.—The prospect of the most extensive strike in the building trades which has ever occurred in Germany is held out by the decisive action of the delegates representing the Socialist federation of trades unions, comprising 300,000 members, at a meeting this evening, at which they unanimously rejected the proposed wage tariff which the employers' union had drawn up. Such a strike would affect at least 350,000 men, spread over the entire country. About 35,000 members of the Christian Trades Union in the same branches have also unanimously decided to join.

The workers demand that the tariff shall be drawn up by an equal number of representatives of workers and employers.

Holidays for Police.

From July 1, at the expense of about \$2,000, the police will have two days off every month. This was decided at a special meeting of the police commissioners yesterday afternoon. This is to include the entire force save the executive heads who may govern their work so as to allow themselves leisure. The question of a day off a week was discussed, but it was decided that the city could not have been properly aware of the amount that would be involved in this measure, being over the \$2,000 mark, and as sufficient money could not be got into shape to make the change this year it was decided to leave the matter over.

Policemen Birney of No. 4, Baird of No. 3 and McKay of No. 4, were appointed patrol sergeants to supply vacancies. Policemen Gooderham's resignation was accepted. Policemen Saunders, Glover and Shannon were let out. Seven recruits were accepted and put upon the waiting list.

It Has Been Taken to the Legislature by Amending Act.

HALIFAX, N.S., April 5.—(Special.)—Hon. J. B. Macdonald has introduced a bill in the legislative council which is causing the professional lobbyist to get busy. Its title is "An Act Entitled 'An Act to Amend Chapter 127 of the Acts of 1896,' entitled 'An Act to Incorporate the Nova Scotia Iron and Steel Company, Limited, and amending Act'."

If this becomes law, Messrs. Forster and Osler will have to come to Nova Scotia to reside if they want to get on the board of directors.

BANK BURGLARS KILL TWO

Desperate Affray at McKee's Rock, Pa.—Robbers Escape.

PITTSBURGH, Pa., April 5.—A bank robbery with wild west features was pulled off by four desperadoes in McKee's Rock to-night, with the murder of two men and possibility of fatal shooting of another. The robbers themselves, covering the escape with volleys of revolver shots, got safely away with the cash from the offices of the Victor Bank Co.

Samuel Friedman, general manager of the company, was shot dead; his assistant, Isaac Schwartz, was shot in the head and Robert King, a passerby, was seriously shot in the groin.

A Double Presentation.

After fifteen years service as secretary and acting manager of the Conboy Carriage Company, W. D. Thurston is severing his connection with the firm to become managing director of the Toronto Automobile Top and Body Co.

Fifty employees of the Conboy Carriage Company went to Mr. Thurston's home, 72 E. Beaver-street, and presented him with a big leather easy chair. On their way they also called at the home of Superintendent C. W. Whitmore, 55 Whitmore-avenue, and left an easy chair there too.

Mr. Whitmore, who was a long time with Tudhope's, Orillia, before he was with Conboys, will be associated with Mr. Thurston, with the new company, which will have its factory on West Dundas-street.

UNIQUE EVENT IN PIANODOM.

Famous Toronto House Conducts a Sale Extraordinary—Prices Slashed Deep on Instruments of Notable Excellence.

Distinctly the feature of the year in the piano trade of this city is the stock-taking sale now in active progress at 32 King-street west. Piano world-wide reputation are offered there at prices which would imply doubtful value in any establishment less substantial than the old house of Mason & Rich. This "stock-taking" sale is a new departure for this house, and the values offered by it are not likely to be duplicated; for the cost of making a really fine piano is steadily rising, and will never be less than it is to-day.

Mason & Rich, however, have determined to dispose of every possible item of their stock before making inventory, and at the rate wise buyers are snapping up the high-class instruments included in this sale it will not be many days before the warehouses are bare of pianos. Only instruments of known and proved quality, from the world's best makers, are included in the stock offered, which comprises not only new, but used pianos, all in perfect condition—naturally, anything sold by this house would be.

People of musical judgment who have been deterred by financial reasons from owning a good piano, will find the rarest kind of an opportunity for a little while at the Mason & Rich showrooms; and easy payment terms can be planned with those who prefer such an arrangement.

Out of town enquirers are promptly furnished with lists and prices on request.

ANTI-BETTING BILL TO-DAY

French-Canadian Members Are Likely to Oppose It.

OTTAWA, April 5.—(Special.)—Gossip here this evening is to the effect that H. H. Miller's anti-race-track gambling bill will strike several snags to-morrow when it comes up in the house.

The French-Canadians seem to be developing opposition to the bill and their first objection is that it has not been printed in both languages.

ACQUITTED OF MURDER

Indian Doctor Who Shot Boy Is Freed by Jury.

SUBURBY, Ont., April 5.—(Special.)—The trial of Dr. Whitecloud, the Indian patent medicine man, charged with the murder of Willie Swede, a 14-year-old boy, at Copper Cliff on Dec. 1, was opened before Justice Magee on Monday, and continued until to-night at 8 o'clock, when the jury retired.

The tragedy occurred at a show where Whitecloud was vending his wares. One of the side shows was trick rifle shooting by Whitecloud. The small boy was creating a disturbance outside the hall. Once Whitecloud came into the door and flourished a bottle, which he threw at the boy. The boy soon returned and Whitecloud descended to the door with his rifle. All the boys had fled with the exception of the one who was killed, and he stood about 20 feet away. The intestines were perforated in 12 places. The boy lived for five hours after the shooting.

Whitecloud had been shooting the ash off a cigar in a man's mouth with wax bullets, but had picked up the leaden bullet in mistake.

Whitecloud gave evidence that he had never tasted liquor in his life and denied all murderous intent in shooting.

At midnight the jury returned a verdict of not guilty.

Buying a Typewriter?

The foundation of typewriter construction is the typebar and its connections.

If the foundation is at fault the whole superstructure is in vain—and there is no remedy. A good typebar principle is as essential to a writing machine as a sound heart to a man.

Good work, true alignment of print and, to a large extent, ease of action all depend on the typebar and its connections—technically known as bearings.

The one form of bearing that has come down through all the typewriter ages—that has stood the test of time and the stress of work—is the PIVOTAL. All others have proven to be the graveyard of typewriters.

The bearings of the Monarch typebar are pivotal, and they are in the most approved and improved form. They are broad; they are frictionless; they will wear a lifetime.

Let us say it this way—a typewriter's worth depends largely on its typebar connections. Those of the Monarch are the best and most perfect ever put into a writing machine.

Proof should follow assertion; our address is

DIDN'T FIGHT FOR QUEBEC

Continued From Page 1.

Standard has this to say: "There are some men in the Conservative party at Ottawa to-day who are not only not a source of strength to the party, but are actually a source of weakness. Why, the submission of a consanguineous present conditions, which it allowed to remain much longer, must sadly disintegrate the party? Why submit to this, when by the very simple process of speaking out plainly, and acting decisively and courageously, matters can be readily remedied, and the party saved from continued defeat and perhaps from disorganization?"

At all events, it is certain that what, at the beginning of last session and right after the election was a strong, united and aggressive party, is to-day a disintegrated, dispirited and divided party. This is a fact. Because The World has brought out this situation, the Toronto Mail and Empire has undertaken to show W. P. Mackay, M.P., so have some other papers, and some persons here. As a matter of fact, Mr. Mackay has had nothing to do with the condition in which the Conservatives find themselves.

Just after The World last week published the story that Mr. Mackay had been trying to create, Mr. Mackay's attitude toward Mr. Borden has not been less represented because, under present conditions, the Quebec Conservatives will refuse to consent to the June convention in Ottawa. Mr. Borden has been told to his face that he is not wanted by the Quebec Conservatives.

"At the same time, it was not Mr. Mackay who sought publicity in this regard; it was a disintegrated crowd in Toronto and from Ontario—whose organ is The News, and whose organist is J. S. Willison, its editor. They do not want Borden's removal so much as they do a change in his entourage. They are using and advertising the Quebec dissatisfaction to pry off the lid of a general situation that is characterized by bickering, distrust and dissatisfaction."

The Ottawa correspondent of The Montreal Witness writes his paper: "Despite all reports to the contrary, plans for the reorganization of the Conservative party continue to be the principal topic of conversation in the corridors of parliament. The Hon. G. E. Foster has denied that it is his intention to give up his seat in parliament, but there is no gainsaying the fact that the Conservatives who desire reorganization agree that Mr. Foster's temporary retirement would be the first effective step in that direction, and the next would be the appointment of new whips."

"The situation has evidently become somewhat complicated by Mr. Foster's disinclination to fall in line with this in the people outside."

ONE POLITICIAN'S THEORY

Says Discontented Crowd in Ontario Is Stirring Up Strife.

MONTREAL, April 5.—(Special.)—The Star to-night contains the following despatch from Ottawa:

"You will find," said a well-posted politician to-day, "that the publicity given to the friction in the Conservative party is a well-calculated move on the part of a lot of politicians who would hide behind a situation they are trying to create. Mr. Mackay's attitude toward Mr. Borden has not been less represented because, under present conditions, the Quebec Conservatives will refuse to consent to the June convention in Ottawa. Mr. Borden has been told to his face that he is not wanted by the Quebec Conservatives."

"At the same time, it was not Mr. Mackay who sought publicity in this regard; it was a disintegrated crowd in Toronto and from Ontario—whose organ is The News, and whose organist is J. S. Willison, its editor. They do not want Borden's removal so much as they do a change in his entourage. They are using and advertising the Quebec dissatisfaction to pry off the lid of a general situation that is characterized by bickering, distrust and dissatisfaction."

The Ottawa correspondent of The Montreal Witness writes his paper: "Despite all reports to the contrary, plans for the reorganization of the Conservative party continue to be the principal topic of conversation in the corridors of parliament. The Hon. G. E. Foster has denied that it is his intention to give up his seat in parliament, but there is no gainsaying the fact that the Conservatives who desire reorganization agree that Mr. Foster's temporary retirement would be the first effective step in that direction, and the next would be the appointment of new whips."

"The situation has evidently become somewhat complicated by Mr. Foster's disinclination to fall in line with this in the people outside."

Brahms Trio

Last night at Conservatory Hall the Brahms Trio concluded their series of concerts for the season of 1910. The program through was excellently given, but special mention should be made of the marked contrasts in the Adagio and Vivace movements of Godard's second trio (F major), the former being ethereal and the latter piquant and spirited.

Miss Lina Drescher-Adamsen, violin, played with her usual charm, and re-established her reputation as Canada's violin virtuosa. The seventh trio of Beethoven (B flat), has a dreamy rhythm and very beautiful melodies, which the Brahms instrumentalist disclosed with excellent art. This organization has in one season gained a right to a fixed place in the hearts of cultured music lovers.
