## St. Michaels 20 Senior School 0

### ANOTHER VICTORY FOR ST. MICHAELS

#### Put Over Whitewash on Senior School in Mulock Cup Series.

St. Michael's College clinched their Mulock Cup group when they downed Senior School 20 to 0 at Varsity Stadium yesterday afternoon.

School appeared without Charlie Gage and Smithson and were hopelessly outclassed by the fast and tricky Saints outfit.

St. Mike's pulled trick plays galore, tore holes in the School lines and Taylor outkicked the Engineers' back line. The ground was covered with snow and made the footing slippery.

One only point was scored in the opening quarter, when St. Michaels forced a route. Montague broke thru the centre early in the round and galloped twenty yards to cross the line for the first try. It was not converted. St. Michaels added another six points before half-time. By a succession of hucks Gordon was shored over. Taylor converted. This left it 12 to 0 at the rest. A route was all that Saints could muster in the third period. McKensie of Senior School was carried off the field with a painfully bruised ankle bone. A route and a try made St. Michael's total 20.

St. Michaels (20)—Flying wing, O'Brien; halves, Nunan, Brown, Traylor, Mulloy, Fallon; insides, Gordon, Dalton, Middle, Montague, Grace; outside, Ford, Sheehy.

Senior School (0)—Flying wing, McLean; halves, Scott, Mitchell, Crockett, McKeen; scrumhalf, Elliott, Billa, Bennett; inside, Mander; outside, Semple, Sengert; outside, Harris, Pitts.

Referee—O'Leary. Judge of play—McWhirter.

The Mulock Cup standing is as follows:

Team	Won	Lost
St. Michaels	3	0
Senior School	0	3
Dents	0	4

## Keats Slated for Soldier Pro Team

### Keats Will Play With the Soldiers

#### Special to The Toronto World. Montreal, Nov. 13.—According to a dispatch from Toronto to the National Hockey Association, Keats will play with the soldiers.

The sixth annual bike race of the Salmons proved a big success. A big crowd witnessed the race, which was run off on Saturday at 3 p.m. Starting and finishing point was on Dufferin street near the intersection with the point at Fisherville, covering a distance of 18 miles.

Martin and Goldsmith were on scratch and had to unpeck all their big speed to catch the light men. F. Binley, who "Goldie" collided with an auto and lost precious seconds, but got third place and second time. The finish of the first seven riders was:

1. Harry Martin, 43 min. 5 sec. also first time.
2. R. Goldsmith, 43 min. 15 sec.
3. J. R. Goldsmith, 43 min. 15 sec.
4. J. R. Goldsmith, 43 min. 15 sec.
5. J. R. Goldsmith, 43 min. 15 sec.
6. J. R. Goldsmith, 43 min. 15 sec.
7. V. Binley.

The second time was very fast, considering the hilly condition of the course and heavy wind. Freddy Charles, well known in sports circles, and Bert Binley handled the race to everyone's satisfaction.

The Wanderers claim that all their players living in Montreal have been signed up for the coming season. Any who do not sign up will be asked to leave the team.

A Montreal despatch says: It was learned tonight that Whalen, the St. Paul player, who agreed to come to Montreal this winter and play with the Wanderers, will not be here. He has gone to Vancouver to start in business, and has written to the Wanderers notifying them that he cannot play in the N.H.A. this season. Adams, Whalen's teammate, is also doubtful about coming to Montreal. Without these two players the Wanderers will have to struggle for the championship.

Four of the referees for the National Hockey Association games this winter have already been named. They are Dr. Hamel of Quebec, who is a newcomer to the association. He is well known in eastern hockey circles, and should make good. Dr. Wood of Toronto will also handle some of the games this winter, while Harry Dalton, the greatest and the most competent referee in the league a year ago, and Cooper Smeaton, are the other two. Coe Dion of Ottawa will be asked to referee some of the matches.

### BUSY PICKING THE ALL-STAR OUTFITS

#### American League Outfit is Picked on All-America Team—The List.

F. C. Lane in The Baseball Magazine. Choosing an All-Star team of baseball players is a job with most fans and at the same time, the country is flooded with fan selection. The Baseball Magazine has made a serious study of the precise situation in diamond circles and its opinions are in no sense haphazard. As a National publication, it has no prejudices and its selections in the following have been looked upon as authoritative.

**All-America Team**

Player-Position: G. A. B. R. Ave.

Daubert, 1b.	127	.316
Collins, 2b.	157	.281
Marshall, 3b.	157	.281
Gardner, 3b.	157	.281
Cobb, outfield.	145	.279
Schalk, catcher.	129	.272
Johnson, pitcher.	88	.231

At first base Jake Daubert will have the edge on George Slaters for a number of reasons. In the first place, Jake is a veteran. Slaters only a beginner. In the second place, Jake has a batting average of .316, while Slaters has only .231. In the third place, Jake has a first-sacker by thirty points, a substantial margin. Slaters will have this day if he lives. He possesses all the requisite ability. But looking at the narrow vigils of 1916, the Brooklyn captain is first choice.

At second base Eddie Collins is to be preferred to Herzog. He is a greater batter by fifty points. He is a better base-runner by 40 stolen bases to 28. He is a better fielder by 36 runs to 99. And as a fielder Collins has 100 runs to 99. In fighting circumstances Collins is largely due to his great, big, generous heart when he had it.

Some of Dick's friends the other day—friends who had responded to the general generosity—decided to give the old man a lift. They heard he needed a little help over the hill and they thought as it is fifteen years from being in actual want of the necessities of life, and they sent him some money, sufficient to keep the wolf from the door for the time being.

Loke O'Reilly, attorney-at-law, with offices at 46 Court street, Brooklyn, interested himself in Dick Roche's behalf and sent out letters to all of the old sportswriters in New York, appealing to them to contribute what they could to the good cause. In his letter thanking those who had responded to the appeal, Mr. O'Reilly related the following story about Dick Roche for the purpose of showing the sort of a sportsman he was when he owned a plethoric bankroll.

Mr. O'Reilly says: "I first met Dick Roche in the early part of 1889. I think it was in a barn at the summer home of Dr. Peter Donohue of Brooklyn at Hightstown, New Jersey. The occasion was the battle for the championship of America between Billy Dacey and Jack McCalliff, then young contender for the title. As a coming proposition, of course, Donohue was a better bargain, for he is a youngster while Roche is an old man. It was, perhaps, his last great season. But we are not talking of the season of 1889. And there Gardner has the advantage over his brilliant young rival.

In the outfield, the American League has a clear sweep. There is no doubt, could be no doubt, of Speaker's right to a place on the one greatest club, or of Cobb's rise. The inherent class of these two champion players is so obvious that there is no room for argument. But Jackson might be storm centre of discussion. Shoeless Joe's case is clearly cut. He is one of the greatest natural batters. He is fast. He is a good if not brilliant fielder. Robertson is faster, has a better trained third arm, and is a dangerous hitter. So is Wheat. But Wheat is a three-time champion, and the outfielder. If Jackson doesn't carry the day, it is because he is not the best. Jackson successfully defends his place against the best National League can show.

In catching we claim that the best performer is a member of Ban Johnson's circle, and that he has a better hit as well as Gowdy, is a far more dependable performer, a better catcher in those emergencies which make up the baseball game.

At pitcher is the leading pitcher of the season. The great Philby star fairly outdid himself. I expect to have a good bet on him. I don't see how I can have a better bet than I did last year. It looked impossible and yet it is an open question if Alex didn't accomplish that impossibility. He broke one major league record, and that is something.

For a battery made up of Philby and Johnson would be a fine thing.

London, Nov. 13.—Paul R. Danner, the only American on board the British steamer Arabia which was sunk by a submarine Nov. 6, in the Mediterranean, sent the Associated Press the following signed statement from Malta:

"I am an American citizen and was a second class passenger on the Arabia bound for Marseilles. At 11.20 on the morning of the 6th of November, I was sitting on the port side of the after deck when a tremendous shock to the ship occurred, immediately followed by an explosion.

"There was absolutely no warning whatever, not even one second. It appears from the statements of certain passengers that immediately after the periscope of a submarine appeared out of the water about 800 yards distant on the starboard side the torpedo was fired.

"It was only thanks to the good fortune of a calm sea and that the boat floated only for a considerable time that we were all saved. There was certainly no warning of any character.

"Paul R. Danner is a Harvard graduate who has been engaged in Y. M. C. A. work in India. He was returning to his home in Cambridge, Mass.

### REJECTED CITIES ARE RAISING BIG HOWL

#### Screaming Blue Murder at Proposed Plan of Third Major League.

Buffalo News: That there will be much talk and possibly something done at the New Orleans meeting of the National Association of minor league baseball clubs with regard to adjusting matters there is not much doubt. But it is doubtful if that body could or would, as has been suggested, sanction the league of approximately major league calibre, by picking out the most available cities in the International League and the American Association for a new league. Any such move as that would encounter opposition from the whole league of minor leagues. Of course, if certain clubs within the leagues mentioned should get together and form a league, it would be a different matter. The tentative plan of the Hot Stove League, which is to be organized in the near future, is to include in its membership the two other major leagues, the thing which would make it a league of approximately major league calibre. The plan is to include in its membership the two other major leagues, the thing which would make it a league of approximately major league calibre. The plan is to include in its membership the two other major leagues, the thing which would make it a league of approximately major league calibre.

### THE FINEST STOCK OF WINTER OVERCOATS IN TORONTO

This store has made a reputation for the good quality of its Overcoats. For style, workmanship and materials they are not surpassed in this city. We are ready with a stock that embraces every new style and a very wide range of fabrics. These Overcoats are far and away the best examples of tailoring we have ever shown. There is more individuality in the models—and more models—more character in the fabrics—and more fabrics, in spite of the difficulty of getting them. And, most interesting of all, the values are equally superior. In fact you cannot get similar values anywhere else in this city. We are here to give you conscientious service and will be glad of your inspection of our stock.

### DICK ROCHE, REAL SPORT, IS SICK AND PENNILESS

#### Friend, Who is Helping, Tells Story of Dick's Generous Way of Living.

New York, Nov. 13.—Dick Roche, the veteran turfman and all-round sportsman, is reported to be in rather hard lines these days. Dick has been alling for a long time and doesn't seem to get any relief. He is gradually getting worse as time passes. At one time Dick Roche had a million dollars in cash and was a very successful sportsman. He had it he was generally conceded to be one of the biggest plunders in the game.

The stakes were never too high for Dick when he thought of a proposition to make to him whether the wager was one thousand dollars or ten thousand if the play appeared to him to be a good one. He was already in, and if he lost that would be the last any one would hear about it. And best of all, Dick Roche, in his days of affluence, never said no to a friend. As a matter of fact, he often handed his money out to his friends. He was not his friends, but mere acquaintances whom he had met in his daily rounds in sporting circles.

And it is not of record that any one of this species of human creature ever made a fortune by betting. Dick Roche was no exception. He was a collector, and his present straitened circumstances are largely due to his great, big, generous heart when he had it.

Some of Dick's friends the other day—friends who had responded to the general generosity—decided to give the old man a lift. They heard he needed a little help over the hill and they thought as it is fifteen years from being in actual want of the necessities of life, and they sent him some money, sufficient to keep the wolf from the door for the time being.
