His Worship Puts Series of Pertinent Questions to City Auditor.

Mayor Church, in a statement made yesterday, calls upon the city auditor to stop the raids on the city treasury, and in order to get the truth from the conflict with the raiders, advises him to invest in a punching bag. His worship has not forgotten incidents of the recent election, as his statement shows.

"Who in your department was responsible during the recent elections, for giving certain wrong information to the board of education? How are they going to be paid? They are illegal, and we cannot raise money at the banks for board of education deficits legally not included in the annual estimates."

"I find, on reading some of your audits, that they are simply a checking system. I should like you to look into the affairs of the outside boards, as I know they are letting hundreds of thousands of dollars worth of contracts without tender, and are buying in the open market."

"Where is the Barber report on the gas company? I find, on reading some of your audits, that they are simply a checking system. I should like you to look into the affairs of the outside boards, as I know they are letting hundreds of thousands of dollars worth of contracts without tender, and are buying in the open market."
