This process can only be stopped by such treatment as Dr. Chase's Nerve Food, which goes directly to create new nerve force and thereby to invigorate the whole human body.

Mrs. Geo. S. Ellse, 46 Davidson street, St. Catharines, Ont., writes: "My husband had an attack of nervous prostreation, and, although he doctored for some time and tried different other medicines, he could not get relief. He had to resort to sleeping powders given him by the doctor to make him sleep. The greater part of the trouble seemed to be with the nerves of his stomach. He began to lose weight, and kept on going down until he had lost twenty pounds. We had read advertisements in the newspapers for Dr. Chase's Nerve Food, and noticed that it seemed to be doing a lot of good for people troubled with nervousness, so my husband decided to try it. He found benefit almost from the start, and continued this treatment until he had taken about twelve or thirteen boxes. The results were most satisfactory.
