## RETURNING MEN TO BE EMPLOYED

All Fit For Service Will Be Put on Guard Duty—Orders From Ottawa

Montreal, Sept. 30.—Particular care is being taken now by the Department of Militia that Canadian soldiers invalided home who are at all fit for service shall be given military employment. Many of the men coming back are no longer in shape for active service, but still sound enough for guard duty and it is proposed to give the men employment in this work. In this way the returned soldiers will not only be looked after, but they will take the places of other men fit for active service at the front.

In accordance with this idea the following letter has been received by Colonel E. W. Wilson, O.C., 4th Division, from Brig-Gen. W. E. Hodgins, Adjutant-General:

"I have the honor to state by instruction, that after their return from service overseas, members of the Canadian Expeditionary Force who have been honorably discharged as invalided may be employed in Canada on guard duty, provided that they are fit for such employment and join the active militia, and it is intended that they should relieve militiamen who are now in performance of such duty.

"You will also please do everything in your power to make use of such returned soldiers whenever possible for any light military duties which they may be able to perform, giving them the first opportunity, wherever possible."

In accordance with these instructions prompt action was taken by Col. Wilson and already several returned soldiers have been sent to join the composites for guard duty.

Colonel Wilson said that this was an excellent move to look after the returning men as a number of them were quite fit for guard duty, although not in shape for service at the front, and their services would prove of value while they would also take the places of men going to the front.
