That Has Made the Business of Its Age the Biggest in New Brunswick

Many people have been surprised at the wonderful growth of this business, but there has been no secret about its policy. The policy has been a simple straightforward one. Thoroughly understanding the clothing business in the first place, buying direct from the manufacturers, thus saving the middleman's profits, selling only reliable goods, doing a strict cash business, thus saving "bad debts," the office expense, and giving us the cash to take advantage of any bargains offered, employing only competent and obliging salesmen, seeing that all customers are promptly and carefully served, never misrepresenting, and always guaranteeing every garment sold, in short, our policy has always been never to take a dollar of any man's money unless we give him one hundred cents' worth of wear and satisfaction
