## Living Room Furniture—Distinctive and Refined

Is your Living Room a haven of comfort and charm? Does it make you prefer to stay in many evenings to enjoy the comforts of your own home rather than those of others? This is a pretty good test of one's home-making ability.

A home in which the younger members of the family are proud to entertain their particular friends, with comfortable chairs to lounge in, pleasing color harmonies and cosy little groupings. A home which bespeaks a welcome to all of its guests and which will always be endeared in one's memories.

When you consider that the furniture in your home is probably a lifetime possession, it is important that it be good furniture. In choosing it, you will want to consider its beauty, comfort and wearing qualities. Every one of these points is an important feature of living room values.

One thing you can depend upon in every living room suite we sell—underneath its exterior beauty is the finest of construction, good materials and good workmanship. This protects the buyer from being misled by the outward appearance of a suite.
