Make it a Repeater!

For that's the Gift that will carry Christmas cheer right through the entire year. A Canadian invention, it has increased the pleasure of the Phonograph a thousand-fold. Plays with human accuracy each record as often as desired—No jumping up or embarrassing waits—Opens up new realms of enjoyment for the dinner, dance, or an evening of music. And it's so economical! \$3 at your Music Dealer or direct from us on receipt of price and 25c. additional to cover registered postage. Combine lasting pleasure and economy with the gift of a REPEATER! What a welcome it will give! Guaranteed to fill every room, or money refunded. DEALERS! This is your opportunity. Write for our proposition.

GOOD RECORD FOR SMALL INVESTORS

British small investors have subscribed approximately \$200,000,000 toward national loans according to the fifth annual report of the British National Savings Committee. This report just received by the Bankers Trust Company of New York, from its English Information Service, indicates that investment of small savings in major loan securities during the war years and up to the end of 1920, amounted to \$242,236,000, while an additional \$273,038,000 (nearly) was invested in Savings Certificates. The small investors subscribed for the large loans through the medium of the Post Office and Trustee Savings Banks.

The report shows that \$240,025,000 of small savings went to the purchase of National War Bonds, Victory Bonds and Funding Loan, \$78,438,000 to Post Office and Trustee Savings Banks, \$161,587,000 to Exchequer and Treasury Bonds. A gratifying feature is found in the fact that out of a total of \$242,236,000 of Savings Certificates purchased up to the end of 1920, only \$21,404,000 or about 8.8 per cent reduction of the amount subscribed was occasioned by re-payments.

During 1920 the receipts from sales of Savings Certificates exceeded repayments by about \$15,000,000, and over \$7,000,000 of small savings were invested in Exchequer and Treasury Bonds. Apart from all of these investments, \$27,229,000 in deposits were received by the Post Office and Trustee Savings Banks from 1914 to the end of 1920.

SCHOOLS GET DAFFODILS

Hollander Donates 32,000 Bulbs to Match Narcissus Cultivation. (New York Times)

Over two hundred public schools in New York City received last week a gift of 32,000 Von Sion daffodil bulbs. This gift to the schools, which had ordered narcissus bulbs earlier in the season through the School Garden Association, was made by J. Keur of Hillegom, Holland, who has recently become a resident of this city.

WORLD'S PAPER CONSUMPTION

According to the Indian Government cellulose expert, the world's consumption of paper in 1918 was estimated at 10 million tons, increasing at the rate of 25 per cent. every ten years. It must be nearly 12 million tons at the present time, or would be if supplies were available. Of this quantity 80 per cent. is produced from wood pulp. The rest, caused by the shortage is that the demand for wood had outrun the supply. When the paper shortage began to be threatened about fifteen years ago, it was stated that paper could be made from any vegetable substance. But considered as a practical contribution to a difficult problem this was a misleading and fallacious investigation. It proved that as far as India was concerned bamboo and Savanna grasses were the only economically sound paper pulp materials. It was estimated that from bamboo, taking that only available under possible manufacturing conditions, Burma, Bengal and South-West India could produce 10 million tons of pulp per annum, and Assam

USE The Want Ad Way

from Savannah grasses three million tons. India, therefore, could produce more than sufficient for the whole world's paper supplies. The prospects are that unbleached bamboo pulp could be delivered in England at a cost not exceeding £16 to £18 per ton.

The Navy League of Canada and DISARMAMENT

ADMIRAL EARL BEATTY, O.M., Etc. Speaking in Massey Hall, Toronto, November 28th, 1921, said:

"The Navy League is a national organization performing a great national work. It should be supported by everyone."

THE following is the broadest possible indication of the feeling of the Navy League of Canada on the proposals of the Washington Conference on the limitation of naval armaments.

When the war began the tonnage of "capital ships" (i. e. battleships and battle cruisers) in the British Navy was

ONE MILLION THREE HUNDRED AND TWENTY-TWO THOUSAND AND SEVEN HUNDRED.

That of the United States Navy was: FIVE HUNDRED AND THIRTY-EIGHT THOUSAND TWO HUNDRED AND FIVE.

It is now proposed that by "scraping" and cessation of new construction the ratio for the next ten years shall be:

Great Britain.....Five hundred thousand tons
United States.....Five hundred thousand tons
Japan.....Three hundred thousand tons

There are so many technical, moral, economic and political questions involved in consideration of the points at present under discussion, and it is certain that there will be many modifications of the original proposals which form the basis of these discussions, that at this stage of the Conference it would only be confusing to enter upon a more detailed analysis of the whole question.

This involves an immediate sacrifice by:

Great Britain of TWENTY-THREE SHIPS, sixteen of which are afloat
United States of THIRTY SHIPS, seventeen of which are afloat
Japan of TWENTY-FIVE SHIPS, ten of which are afloat

The proposal to allow the construction of submarines to be left wide open with construction unrestricted, prompts one to ask the question:

Is the whole aim of the Conference to equalize naval strength by scrapping the costly capital ships and offering increased facilities for competition in a less costly but much more deadly and diabolical weapon—the submarine?

The economy of such a proposition, which would increase brutality at a decreased cost, leads one to believe that there is no altruism in the whole business.

The Navy League of Canada endorses the following statement made by Mr. Balfour:

"We have considered the proposal with admiration and approval. We agree with it in spirit and in principle."

But—a prominent Canadian newspaper says: "We welcome it as an expression and a symbol of a moral ideal, the substitution of the reign of law for the rule of force."

The Navy League of Canada BELIEVES THAT THE "SYMBOL" OF THE REIGN OF LAW AGAINST THE RULE OF FORCE IN 1914 WAS BY THE HELP OF GOD THE BRITISH NAVY AND THAT THE WASHINGTON CONFERENCE IS ONLY POSSIBLE TODAY THROUGH THE READY EFFICIENCY OF THAT "SYMBOL" AT THE TIME OF HUMANITY'S SOREST NEED.

The Navy League of Canada believes that the word of a writer in the Washington "Mail" more nearly defines the character of this proposal:

"It is not humanity revolting against the barbarism of war, but humanity common-sense revolting against going bankrupt."

The Navy League of Canada does not advocate National and Imperial bankruptcy, but DOES emphasize the simple truth overlooked that WHAT HAS BEEN MAY BE, AND THAT IN INDIVIDUAL AND NATIONAL EXPERIENCE THERE IS NOTHING NEW-UNDER THE SUN.

The Navy League of Canada shares, in common with all men and women of good will, the longing for a world commonwealth in which everyone shall respect his neighbor's property. But it is the duty of the League to remind us that, just as hunger for food, discontent with wages, labor conditions and the like, stir men and women to revolt so that they attack their nearest neighbor who has—or seems to have—what they lack, so do land hunger, territorial ambition and kindred affliction torment nations.

A Special Despatch to a Canadian newspaper says: "Disarmament proposal puts axe to grandiose plans for future expenditures. . . . Proposal is preventive of ill to come."

Playing Politics. The Navy League of Canada exists for the purpose of preventing the dissemination of just such disloyal propaganda throughout the Dominion.

The "grandiose plans" referred to are but proposals to pay a trifling instalment of a debt to the Mother Country that self-respecting Canadian citizens of the British Empire feel should have been settled in full long ago.

Mr. Balfour said: "The geography of your country (United States) makes you wholly immune from perils to which the British Empire is subjected. . . . We are not lamenting over the weakness of our country. But this strategic weakness is known to our enemies. Then do not let it be forgotten by our friends."

The United States coastline is TWENTY-FIVE THOUSAND MILES. The British Empire coastline is OVER ONE HUNDRED THOUSAND MILES, scattered over the seven seas.

Arthur Brisbane, U. S. writer, says: "With her danger-points all over the earth, Britain would need a navy twice as big as ours for purposes of defence."

We recall the word of Mr. Balfour: "Our weakness should not be forgotten by our friends."

It will never be forgotten in Canada so long as the Navy League of Canada is true to her charge.

"KEEP WATCH."

Plan to make next Christmas the happiest of all

With plenty of money in Bank to buy all the presents you had planned, the joy of gift-giving becomes a joy indeed.

The spirit of Christmas does not ring true when giving is a hardship—when someone must be forgotten—when someone gives to you and you can give nothing in return.

You can make sure of having enough money for Christmas 1922 by joining our "Christmas Club" NOW.

There are no dues or fees of any kind—it is open to all—to you and every member of your family and your friends.

Just decide how much money you want to have for next Christmas, come to the bank for enrolment, and then deposit a regular sum each week.

Such systematic saving, with help of our "Christmas Club" will make your 1922 Christmas the happiest of all. Join to-day and start to save.

Service to Those Who Save

For sixty-four years we have studied the needs of every class of depositor and have developed a service that cannot be excelled.

Careful saving and safe saving were never of greater importance, individually and nationally, than in the present reconstruction period. Each one should do his or her part by opening a deposit account without delay.

This Corporation offers you the most absolute safety possible for your savings, and the benefit of its long experience with thousands of depositors. We shall be glad to discuss with you a plan of systematic saving. INTEREST AT FOUR PER CENT per annum will be credited to your account and compounded twice each year.
