Craftsmen**

The best shoe craftsmen are lifelong specialists in one operation. They learn that task young—and then on down through the years—develop an almost uncanny skill in performing it. These men are real craftsmen—and they earn a correspondingly high wage. So none but manufacturers of good shoes employ this kind of help.

**Invictus Shoes** are made in a factory where nearly every bench is occupied by a man who has *ideals* in shoe-making—and is able to live up to them in his every day work. Invictus Shoes show in every line and stitch the skill of men who know their jobs superbly well. You will enjoy wearing one of the new Invictus lasts—to be seen

### ST. JOHN FLATS AND LANDLORDS

St. John, April 17.  
Sir—A lot of discussion has been carried on at different times with regard to the housing question in St. John, but I think if the board of health intervened with a little vigor and enforced the power which it is supposed to hold, matters could be considerably improved. I always thought that the owners of landlording was supposed to keep a flat or house in repair, but in St. John the only thing the landlord seems to do is to collect the rent and to raise it occasionally to relieve the monotony of living. And what redress does the tenant have? He complains to the landlord, and is told that if he is not satisfied he can get out, as he can let the place any time. The only convenience our flat has is water, and it possesses every inconve-

ience from cockroaches to rats, and to kill them off seems only to reopen the field for immigrants from other flats, and yet my rent has been raised! The St. John landlord at the present day seems to do exactly as he likes, and the average workman has neither the initiative or the funds to kick. It is all very well to talk about building new houses, but how about making the houses which are already built fit to live in? I've seen better cow-barns than some of the St. John flats, yet the rents increase every year. No wonder the bars flourish! A man can stand in

#### A TAILORED MODEL

Required to make the suit are 3 yards of 44-inch or 4 1/2 yards of 36-inch material. In cutting fold the material first creasing carefully; now place the back and collar along the folded edge. After these are being carefully put in place, take the vest and underfacing and place on a lengthwise thread opposite the back. The front and sleeves are now arranged in the same way (on a lengthwise thread) and the back and belt placed in the little space that remains at one side of the sleeve.

To make, adjust underfacing to position underneath front, corresponding edges even. Adjust tab, bringing corresponding small "o" perforations in tab and in front near lower edge together. Pleat front, creating an slot perforations, bring folded edge to line of small "o" perforations and stitch. Adjust belt on back, corresponding perforations even; pleat creasing on slot perforations, bring folded edge to small "o" perforations and stitch. Lap belt at center-back as illustrated and fasten. Pleat sleeve, creasing on slot perforations, bring folded edge to small "o" perforations and stitch. Sew sleeve to front and back as notched, close under-arm and sleeve seams as notched. Sew collar to neck edge as notched; lap over on collar as illustrated, corresponding double "oo" perforations even and tack invisibly.

Adjust vest to position underneath front, bringing corresponding small "oo" perforations in vest and in front together and tack invisibly. Stitch shoulder edge to position.

One of the new designs for spring wear showing the growing popularity of the corset. It is adapted to development in cloth, silk, serge or linen.

This suit looks extremely well in any material that lends itself to tailored effects.

**Baked Bluefish or Shad.**  
Bluefish and shad are in season and both baking and broiling are fine ways of cooking these delicate morsels from the salt water.

Remove backbone and cut into pieces for serving.

Chop one small Bermuda onion and sprinkle over a buttered agate pan.

Set pieces of fish on the onion. Add 3 tablespoons of fish stock made by boiling head, tail and bones in a cup of water. Salt and pepper to taste. Cover with oil paper. The paper should rest over the sides of the pan. Let cook fifteen minutes in hot oven, basting 3 times with liquid in pan. Remove fish to serving dish. Garnish with slices of lemon with minced parsley and serve with hot tartare sauce.

Make the sauce with one cup of white sauce, half cup of mayonnaise, one small green onion chopped fine, one teaspoon of vinegar, one teaspoon of minced parsley, two small sweet pickles and six olives chopped fine. Have white sauce hot. Add the other ingredients. Do not allow to boil.

Boiling or baking is the best method of cooking fish.

#### KITCHEN KINKS

Tie a piece of lemon on a corn every night for five nights and it will generally cause it to drop off.  
Get a few large knobs of chalk and lay them at the back and sides of a fire. They will burn as red as coals, give a lovely heat and save the coal.  
Honey and glycerine, mixed in equal proportions, is an excellent remedy for cracked lips. It should be applied every night till the cracks are thoroughly healed.
