WOMAN AND THREE CHILDREN MURDERED

Believe Robbery Was Motive for Deed

AT WESTCHESTER, PA.

Husband and Father Returned From Work to Find Bodies Horribly Mutilated—A Boarder, Who is Missing, Thought to be Guilty

Westchester, Pa., Sept. 21—Search is being made today by the police of all towns in this vicinity for a man who is suspected of murdering Mrs. John Sauer two small daughters and a young son at their home at Byers (Pa.), twelve miles from here.

The bodies were discovered by the husband and father upon his return from work last night. He found his son Charles, aged 7 years, unconscious in the yard. He almost collapsed when he found the bodies of his wife, 30 years old, and his two daughters, aged 4 years and 16 months respectively.

It is believed Mrs. Sauer and her daughters were struck down and the house then ransacked. The boy was at school, it is thought, while this was being done and he encountered the murderer when he returned home. It is believed the boy recognized the intruder and was killed to prevent him from giving an alarm. The boy was taken to a hospital where he later died.

The crime has aroused the entire community and searching parties heavily armed are scouring the hills and the vicinity of the quiet little village for a fellow workman of Sauer, who boarded with him to see what light he may be able to shed on the mystery. This man was not at work yesterday, and he has not been found. A small bank containing some money and the husband's bank book are also missing.

GIRL SWIMMER COVERED 16 MILES New York, Sept. 20—In one of the most remarkable swimming feats ever attempted Miss Rose Pitonof of Boston girl, aged 15, Sunday accomplished what the male swimmers have tried time and again without success.

The little girl swam from the New York yacht club anchorage at the foot of East 23d street to Coney Island lightship, a distance of 16 1/2 miles in a straight line, without any noticeable fatigue, making the distance in five hours and eight minutes.

What made the feat greater in the eyes of those who watched Miss Pitonof around Norton's point was the fact that everything broke against her. The start was made an hour later than scheduled, so that by the time she reached Sea Gate the tide was coming in at a great rate, and she could only make 100 yards in 40 minutes at this point, whereas at the beginning she was swimming at the rate of three miles an hour.

Mr. Redfern took occasion to denounce the hobble skirt as disgusting and continued: "The way it has been exaggerated makes it even more so. One would hardly know the original hobble skirt if he accepted as models some he sees now adays."

CHINESE BUILD A SCHOOL HOUSE IN NANAIMO, B. C. Nanaimo, B. C., Sept. 21—Owing to the strong opposition to the attendance of Chinese children at the public schools, the Chinese population have created a school for pupils of their own race exclusively, and have applied to the provincial educational department for assistance in obtaining suitable teachers. The city authorities, it is stated, are willing to help in maintaining the school, but hesitate in establishing a precedent by separate schools. The matter is now under consideration by the department.

NEW YORK BARRING "COMPUTING SCALES"

Commissioner of Weights and Measures Characterizes Them As "Thieving Instruments" —Will Also Insist on Bakers Weighing Bread

New York, Sept. 21—(Special)—Convicted that the so-called "computing scales" used in the delicatessen shops and grocery stores of the city are "thieving instruments," Commissioner Driscoll, of the bureau of weights and measures, put into effect on September 15th the ordinance directing the scales out of service. The commissioner has had these first aids to dishonesty under investigation for several weeks. On inspecting one of them, he found that the "ten-cent mark," as shown on the face of the scale, recorded the purchase price of fourteen, fifteen, sixteen and seventeen ounces, respectively, of a certain kind of food. In addition to balancing the computing scales, the commissioner is placing the "adjustment screw" of every type of scale used by the delicatessen dealers under a lock, sealed by the bureau, thus putting it beyond the power of unscrupulous shopkeepers to manipulate the screw at will, as might readily be done under old conditions.

Not alone has the commissioner abolished the type of scales mentioned, but he will have another task facing him on October 1st, when he will begin to enforce the new city ordinance requiring bakers to weigh every loaf of bread that comes from the ovens. From the time that the price of flour began to soar to a height almost out of reach of wage-earning men, the bakers do not comply with the law they will be prosecuted by this office," the commissioner declares. A fine of \$100 for each violation, as well as imprisonment, faces those bakers who do not obey the law. There will be no leniency extended.

WILL BE ARRESTED IF SON GETS THIN

Judge Rules Mother Must Not Let Boy Weigh Less Than 150

Cleveland, O., Sept. 20—Mrs. Julia Knebeck, 2367 East Sixty-seventh street, allows her son, Edward, 19 years old, to weigh less than 150 pounds, she will be arrested on a neglect charge, the police judge ruled today.

Two months ago Mrs. Knebeck had the boy arrested on a vagrancy charge. When brought into court he was thin and emaciated and weighed only 120 pounds. Witnesses testified that the mother starved him and the judge, dismissing the case, gave the boy into a friend's care.

Today young Knebeck was again brought into court and weighed. He tipped the scales at 124 pounds. The judge returned the boy to his mother with a warning to give him plenty of food, although she protested she didn't want him.

Was Ascending Elevator in Acid Tower of Miramichi Pulp Mill —Coroner Benson Decides an Inquest is Unnecessary—Two Workmen Witnessed Accident

Chatham, N. B., Sept. 21—Alexander McIvor, a native of Scotland, suffered instantaneous death about 7:30 o'clock this morning, by falling from the acid tower of the Miramichi Pulp Mill, a distance of seventy feet. Two fellow workmen, Charles Smith and Jos. Lynch, saw the unfortunate man fall, but how he lost his footing no one knows.

He was ascending the elevator at the time, and when he was seventy feet in the air he lost his balance and fell to the ground striking some projecting timber in his terrible descent. His skull was crushed, the brain matter being scattered in horrible profusion and both legs broken.

Dr. Loggie was summoned and stated that death was instantaneous. Coroner Benson viewed the remains and after ascertaining that the machinery in the elevator was in perfect running order and getting the evidence from those who witnessed the accident, he decided no inquest was necessary. Supt. Thomas of the mill declared that the deceased was not employed on the elevator at all. His work was in another part of the yard and he did not know why he had gone up in the tower.

Mr. McIvor was fifty years of age and had been in Chatham about three years.

NOT ACCEPTED

Ontario Government Claims Right to Select Name—Hotel at Muskoka Burned —Alymer Now Arrested for Theft of Express Orders

Toronto, Sept. 21—(Special)—Tenders for the purchase of lots in the new town at the junction of the National Transcontinental and Grand Trunk Pacific Railways adjoining the Sioux Lookout Mountain in the district of Kenora were received by the provincial government up till noon yesterday. An interesting situation has arisen over the naming of the new town. Sir Wilfrid, who visited the site on his way westward suggested it be designated Graham, as a memorial to the services of the minister of railways. It is, however, a provincial townsite and the Ontario government claims the right to name the new town. As a result the location is officially spoken of as that unnamed town formerly known as Sioux Lookout. The purpose of this is apparently to await federal request as to its name. At present the provincial authorities are only aware of Sir Wilfrid's desire through the press and are holding the christening off pending a communication of his suggestion.

On the Charge of Murdering Belle Emore

MISS LENEVE HOOTED

Pretty Typist Was Jeered at as She Went to the Police Court Today—Evidence of Several Witnesses Taken —Crippen's Financial Affairs

London, Sept. 21—At the close of the police court proceedings today, Dr. Harvey H. Crippen and Ethel Clara LeNeve were committed for trial charged with the murder of the doctor's wife, Belle Emore. Solicitor Newton reserved his defence for the trial proper.

London, Sept. 21—Ethel Clara LeNeve was hooted and jeered at today by a crowd of men and women that awaited her arrival at the Bow street police court. The trial of Miss LeNeve and Dr. Harvey H. Crippen for the murder of the latter's wife is drawing to a close and this fact probably accounted for the unusual number of persons who gathered in the vicinity for a possible view of the prisoners. A group of women followed the cab occupied by the accused girl, through the streets to the police court, yelling their opinions of the typist as they chased along. When the vehicle stopped in front of the court building a crowd in the thoroughfare hooted wildly. Miss LeNeve held an open umbrella and was fairly successful in escaping observation as the police made a way for her. The financial affairs of the Crippens were gone into today in line with the prosecutor's assertion that the doctor at the time of Belle Emore's disappearance was pressed for funds and that the death of the woman was to the monetary advantage of the husband.

The manager of a bank testified that Mrs. Crippen notified the institution on Dec. 15, 1909, of the withdrawal of a joint account which she and Crippen had kept there.

Miss Merion Currow, an employe of the Munyon people who succeeded Crippen in the management of their local office testified that the poison alleged to have been purchased by the doctor and traces of which were found in the mutilated body was not used by the company. She added, however, that Crippen frequently bought drugs for his own preparations.

The witness said that during February when Crippen told her that his wife had gone to America and died there, she cashed for him several checks one for \$800. She last saw the doctor on July 9 when she gave him the money on a check for \$185. This was just before he disappeared and at the same time he said to the witness: "If anyone inquires for me you are to know nothing. Say nothing."

Before this Crippen had led several packages with the witness saying: "If anything happens to me give these to Miss LeNeve."
