THE ALDINE, while issued with all the regularity, has none of the temporary ro timely interest characteristic of ordinary rericdicals. It is an elegant miscellary of jure, light and graceful literature ; and a collection of pictures, the ratest speciment of amistic skill, in black and white. Altho each succeeding number affords a fresh plea sure to its friends, the real value and beauty of THE ALDINE will be most appreciated a ter it has been bound up at the close of the year. The possessor of a complete volume cannon duplicate the quantity of fine paper and engravings in any other shape of num-ber of volumes for ten times its cost; and Carn, there are the chromes besides 1 ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have won a world-wide reputation, and in the art centres of Europesit is an admitted fact that monod cuts are examples of the highest perfect innever altained. The common pre-judge in favor of "steel plates," is rapidly yriging the more educated and discrimi-tating mate which recognizes the advantage of superior artistic quality with greater fa juity of production. The wood-cuts of THE ALDINE possess all the delicacy and elabo rate finish of the most costly sterl plate. while they afflord a better wendering of the artist's original.

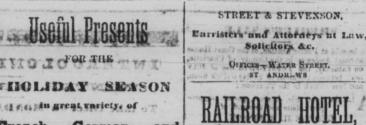

Is addition to designs by the members of the National Academy, and other noted American artists, THEALDINE will reproduce examples of the best foreign masters, relect ed with a view of the highest ar b is an cess and greatest general interest. Thus the obscriber to THE ALDINE will, at a trifling cost, snjoy in his own home the pleasure-and refining influences of true ar.

The quarterly tinted plates for 1874 will be by Those Moran and J. D. Woodward. The Christmas issue for 1874 will contain

spacial designs appropriate to the sesson, by our best ertists, and will surpass in attracthe late A. D. Stevenson, corner of Water a William Streets, and has removed his stack ti-me shy of lits predacessors.

PREMIUM FOR 1874. Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moine, whose great Colorado picture was purchased by Congress for ten theusand dollars.
