PRESIDENT MCKINLEY STILL IMPROVING

HE IS CHEERFUL AND CONFIDENT OF RECOVERY

The Opinions of the Doctors—Another Alleged Anarchist Arrested—No Clue to a Plot.

Buffalo, Sept. 9.—Dr. McCurney, the famous New York surgeon, said to an Associated Press reporter after the issue of the 3 o'clock bulletin that all the indications continued favorable.

"No bad symptoms have appeared," said he. "No one can say now that the President is out of danger, and for a week, still the possibility of complications may exist. At the end of that time, if all goes well, we may be able to say that he is convalescent."

"But I have known cases," put in Dr. Mann, who was with the noted surgeon. "To go well for ten days and then change for the worse."

"That is true, perhaps," said Dr. McCurney, somewhat depreciatingly. "but it is entirely unusual. If the President continues to improve for a week," he continued, "we may safely say that he is convalescent. It will probably be three weeks before we will be safe to say he is healed and strong. The inner wounds through the stomach proper will be strong before the exterior wound is healed. How long it will be to say he is able to sit up will depend upon the rapidity of his improvement, and I may say to you further that his improvement, if it continues, promises to be rapid."

Turning to the second question, Dr. McCurney said: "You can assure your clients that all goes well. The President's condition could hardly be more satisfactory. Further, you can increase and emphasize the fact that the bulletins issued state the truth."

Dr. Mann said that the President was out of danger. He said that some one was being administered today through the rectum, and he had had water in the stomach. It was found that cold water did not agree with him, and instead, water as hot as he can bear is being given. The President himself said his bowels have moved freely today and this is considered an excellent symptom.

The following was issued by the President's physicians at 8:30 p. m.: "The President's condition continues favorable. Pulse 112, temperature 101, respiration 27."

The fear of peritonitis, it can be said positively, has nearly completely disappeared. With the expiration of the seventy-two-hour period at 4 o'clock this afternoon, danger from the source was almost gone. The President himself has been cheerful all day and has expressed confidence in his recovery. To day he asked for a morning paper, but this, of course, had to be denied him. It is with some difficulty that he can be restrained from talking.

This morning he asked to be allowed to move his position, and when permission was given, before the attendants could move him, he changed to the position he desired to assume, without difficulty or pain. This speaks much for his general strength and spirits. Mrs. McKinley saw him again today for a brief visit and Secretary Cortelyou was admitted for the first time. No one else was allowed to see him, though he inquired several times who were below stairs.

If he continues to improve it will be gradually, if he should grow worse, the change in that direction will also probably be slow. This is the opinion of Dr. Mann.

If he arrives at convalescence, Dr. Park expresses the opinion that it will be three weeks before it will be safe to say that he is healed and strong. The inner wounds will be healed and the exterior wound of the lacerated tissue were made soon after the bullet passed that they are probably healing rapidly. With the exterior wound it is a slower process.

Whereabouts Known.

Chicago, Sept. 9.—Chief of Police O'Neil announced that Emma Gold was under surveillance not far from Chicago, although not in this city. He indicated that she has been located and intimated that she will be arrested soon.

Another Arrest.

Denver, Colo., Sept. 9.—A special from Silver City, N. M., says Antonio Maggio, the musician and alleged anarchist, who is said to have predicted the assassination of President McKinley before October, 1901, was arrested at Santa Rita, a mining camp, near Silver City, N. M., at 5:30 this afternoon by Deputy U. S. Marshall Foraker, on instructions from Washington.

Was There a Plot.

Cleveland, Ohio, Sept. 9.—Mr. Corner, chief of the Cleveland police department, today gave out an official statement to the Associated Press regarding the alleged Anarchistic plot to take the life of the President. He states that the Cleveland police can find no proof of the existence of such a plot existing. It is quite evident that Leon Czolgosz was an element of never was popular even with his own people. The statement that Czolgosz received \$45 from Newburg Anarchists to smuggle, and finds no credence with the authorities.

There is still a strong impression among residents of Newburg that a ring of Anarchists exists in that locality, and that they are working in conjunction with Chicago Anarchists.

Notes.

Second Assistant Postmaster General Shallenberger has summarily cancelled the contract of a mail carrier for expressing satisfaction over the shooting of President McKinley. The name of the person who was thus dealt with is C. F. Cortright.

"The Pope has been so impressed by the attack upon President McKinley," says the Rome correspondent of the London Daily Mail, "that he intends to take the initiative in joint action by the Christian powers against anarchists. He is writing an important encyclical on the subject, which will be published next month."

The head nurse in charge of President McKinley is Miss Maud Mann, a Brockville, who left here after a few weeks' holidays on Friday noon, reaching Buffalo that evening, when she was at once sent to the Milburn residence to look after the President.

ANOTHER FAILURE.

The Great Steel Strike Still Remains Unsettled.

Pittsburg, Sept. 9.—The last efforts to settle the strike here failed. The general executive board of the Amalgamated Association adjourned without date this evening, and without either accepting any of the peace proposals which have come indirectly through the United States Steel Corporation, or without making any counter proposals according to the official statement.

The semi-official report is that the proposition secured for the Amalgamated Association through the intervention of the representatives of the National Civic Federation was unsatisfactory, and that the entire matter of arranging for a settlement was left with President J. Shaffer.

The board in its session of three days has been clamoring for a settlement, but satisfactory terms and means were not at hand and the sessions resolved themselves into the informal discussion of the situation.

At the close of the meeting of the national executive board this evening, President Shaffer declared that he had no statement to make, but subsequently said: "The board has adjourned, and the out-of-town members will probably leave for their homes to-night. No peace proposals have been received and none made."

THE IMPROVEMENT STILL CONTINUES

PRESIDENT ON ROAD TO QUICK RECOVERY

All the Doctors Express Satisfaction With the Sufferer's Present Condition.

Milburn House, Buffalo, Sept. 10.—The weather conditions of today were anything but cheerful during the early hours, and the dull skies and drizzling rain gave an outward appearance of gloom and depression. The forecast was for showers and an east wind, but the realization was worse than the prophecy.

As the doctors arrived for the formal morning consultation it was noted that they were overcast and were bundled up. Dr. Park came from the consultation at 9 o'clock, and summarized the results of the bulletin soon to be issued by the expression "Lovely." He said all the conditions were most favorable. The patient had enjoyed a most satisfactory night.

As the other doctors came from the house their faces clearly indicated their satisfaction at the condition of affairs. Dr. Park passed at his carriage to make a general survey of the conditions prevailing. "The condition of the President this morning is entirely satisfactory," he said. "Do you regard the President as entirely out of danger?" Dr. Park was asked. "I do not want to go that far. What can be said is that unless there are unexpected complications we expect him to recover."

"Have you considered the prospects of removal?"

"No, it is too early for that, but when he is moved he will probably go to Washington."

Dr. Hermann Myrner was the next of the consulting physicians to come from the house. He was followed by Dr. Eugene Wasdin, and they walked down the street together. To the queries of the newspaper men, Dr. Myrner said: "The President's condition is really optimistic because I do not like to prejudice serious cases, but now can say to you that everything in the President's condition warrants the statement that he is on the road to quick recovery."

The tone of the 9 o'clock bulletin carried joy to those about the President, and the good news spread rapidly carrying added weight as to the confidence that he will recover. Blood poisoning might still develop, but the chances are remote. As for peritonitis, I consider that the danger from the inflammation of the peritoneum has passed."

The President will live, but will probably carry the bullet of the assassin with him to the grave. This is the solemnly expressed opinion of Dr. McCurney, New York, in a statement to a representative of the Associated Press, after the consultation of the physicians this morning.

Vice-President Roosevelt will, leaving Mrs. Roosevelt later at some Adirondack resort.

Secretary Hag, who arrived here this morning, called at the Milburn House together with Vice-President Roosevelt, Secretaries Root and Hitchcock and Postmaster-General Smith at 1:45 p. m.

A Good Night.

Milburn House, Buffalo, Sept. 10.—Up to 6:30 a. m. no bulletin of the President's exact condition has been issued, but it is learned that the patient passed a good night, and at this hour is quietly sleeping.

The First Bulletin.

Milburn House, Buffalo, Sept. 10.—The following bulletin was issued by the President's physicians at 10 a. m.:

"The President's condition this morning is eminently satisfactory to his physicians. If no complications arise a rapid convalescence may be expected. Pulse 102, temperature 99.8, respiration 26. The temperature is taken by mouth and should be read about one degree higher."

Examined By Officials.

Buffalo, Sept. 10.—A number of witnesses, supposed to have knowledge of movements of Czolgosz after he came to Buffalo, were brought to the police headquarters this morning by local detectives to be questioned by Supt. Bull and District Attorney Benny. The police de-

MONTEAL ELECTRIC LIGHTING SCANDAL

INJUNCTION GRANTED AGAINST THE CITY

The Mayor Forbidden to Sign Contract—Charge of Libel Against President J. T. Wilson.

Montreal, Sept. 11.—An injunction was served on the city this morning by Hon. G. A. Nanted to prevent Mayor Proulx from signing the lighting contract with the Royal Electric Company on the grounds that the contract was given in an irregular manner. The Royal first tendered at \$95 per lamp a year, but was forced to come down in price to \$60 by the action of the St. Lawrence Power Company, which agreed to supply light for \$54.75 per lamp a year. The Royal's friends in the city council succeeded in subsequently having the contract amended at a reduced price, hence Mr. Nanted's action.

True Bill.

The Court of King's Bench opened today, when true bills were returned against John T. Wilson, chairman of the Trackmen's Association, and Joseph Lyon and A. T. Stout, two members of the C. P. R. trackmen's committee, who are charged with libeling a former member of the committee, Montgomery, who resigned on accepting the position of assistant roadmaster with the company. Two murder trials are on the list of cases to be tried.

Schlatter at Montreal.

Schlatter, the Divine healer, is here. So far he has not attracted any attention.

Shipping News Crop.

Winnipeg, Sept. 11.—On Saturday three-quarters of a million bushels of the new crop of wheat has been shipped East.

Assaulted and Robbed.

Bowmanville, Sept. 11.—W. S. Wright, of Tyrone, an extensive and well known dealer in farm stock, was assaulted and robbed of \$2,000 while on his way home yesterday morning.

Water Famines.

Halifax, Sept. 11.—There is a water famine in Cape Breton county. All the wells and reservoirs are dry, and water has to be hauled a distance of ten miles to the coal mines, due to continued drought.

Former Mayor Dead.

Charles E. Archibald, who was the first mayor of Toronto, died yesterday.

Fatal Fight.

Toronto, Sept. 11.—Ernest Beer, son of the proprietor of the Bull's Head hotel, has been arrested charged with having caused the death of Michael Hartnell a few weeks ago in a fight.

Will Be Remedied.

The C. P. R. has notified cattlemen here that the lack of accommodation for export cattle at West St. John will be remedied before the winter trade begins.

Fell to His Death.

John Anderson, an employe of Gov. Kent & Co., was killed at noon today while attempting to cross the fourth story of the factory from one window to another.

Big Forest Fires.

St. John, N. B., Sept. 11.—Immense forest fires are burning all around St. John. The smoke is so dense in the city this afternoon that electricity lights had to be turned on in many factories, stores and dwellings. So far no valuable timber lands have been burned, but unless rain comes great damage will be done. Today fires reached Rockwood park, and a big force of men was sent out to stay the progress of the flames.

THE STEEL STRIKE.

Amalgamated Officials Deny Reports of a Settlement.

Pittsburg, Pa., Sept. 11.—Rumors that the strike has been settled or was about to be again in circulation today, but the amalgamated officials were positive in their denials that a settlement had been effected.

No new proposition has been made by the association. The president said there was no truth in the story that he was willing to resign, or that the matter had been touched upon during the meeting of the committee.

THE ST. LEONARD.

Dorcles, a Party to One Chance, Finished First.

London, Sept. 11.—Dorcles won the St. Leonards at Dorchester today. The St. Leonards was won by a neck. The conditions of race were 25 sovereigns each for three-year-olds, one mile six furlongs and 152 yards. There were 244 subscribers. The betting previous to start was 40 to 1 against Dorcles, 10 to 1 against Volodyovski, who was second, and 2 to 1 against Revient, which finished third.

Ottawa, Sept. 11.—The United States team won the annual international cricket match by 94 runs. The total score in the first and second innings were: Americans, 324; Canadians, 230.

PASSENGERS AND GOLD FROM NORTH

THE HATING ARRIVED WITH TREASURE TO-DAY

Exodus From Dawson Expected to Take Place This Month—Assault by High- wayman Near Steveston.

Vancouver, Sept. 11.—Holdings continue on the Steveston road. Last night Thomas O'Brien was held up, and when he refused to give up his money, was hit over the head with a hammer, and carried by a highwayman. O'Brien was knocked senseless and lost \$24 and a cheque.

Steamer Hating Arrived From Skagway today with a hundred passengers and \$150,000 in gold dust. It is expected there will be a great exodus of people from Dawson this month, numbering four thousand to five thousand. Many say that the diggings are changing heat from summer to winter, the recent summer work having not been altogether satisfactory.

The discovery of gold in the North Portage to the Imperial Bay for the local assay office arrived today, worth \$4,000.

Some rivalry for the position of new Anglican Bishop of Kootenay exists between Archbishop Pennefather and Rev. L. Norman Tucker. The appointment will be made in two weeks.

Canadian Notes.

Engineer and Fireman Burned to Death in
—Killed by Lightning.

Toronto, Sept. 10.—In a collision between a freight and passenger train on the Grand Trunk near Erin station today, Fred Denne, engineer, and Jas. Hannan, conductor, were injured and afterwards burned to death. Two other train hands are badly injured.

Charlottetown, P. E. I., Sept. 10.—Malcolm McLean was instantly killed by lightning while standing in his doorway today.

Halifax, N. S., Sept. 10.—The warships Indefatigable and Tribune, and the torpedo boat destroyer Quill left last evening to escort the Ophir to Quebec. It was not expected the Ophir will be sighted until the 12th.

Quebec, Sept. 9.—Pamela Laliberte, the five-year-old daughter of Marcel Laliberte, of St. Leobore, was drowned last Friday night in a large milk can, while endeavoring to secure a drink from it.

Port William, Sept. 9.—The decomposed body of a man, supposed to be Mr. William Kidd, was found at the beach about four miles from this place. Kidd came here from Vancouver in June. He stopped for a few days with a nephew of his in town, and on June 9th left, saying that he was going to Toronto. Nothing further was heard of him, and as he had not arrived in Toronto a search was started. The body found today had no means of identification, but a newspaper clipping in his pocket-book, of a fire in Toronto, that destroyed a building owned by a person named Kidd. His pocket-book contained \$317, and his gold watch was also in his pocket, which fact destroys any possible conjecture of foul play.

KRAUSE REMANDED.

London, Sept. 10.—Dr. Krause, former governor of Johannesburg, who was arrested last week, and was arraigned in the Bow street police court, and remanded on a charge of treason, was brought up again in the Bow street police court today. Dr. Krause was informed that a warrant charging him with incitement to murder was issued in the Transvaal.

Sir George Lewis, on behalf of the prisoner, said it seemed strange Dr. Krause had been in England for two months as a parolee prisoner of war, warrants should be issued in the Transvaal because of acts committed in England, and he asked how could a gentleman pick an English subject be charged with treason.

The case was adjourned to await the arrival of papers from the Transvaal.

TO-DAY'S BULLETINS ARE SATISFACTORY

NO GROUND FOR THE SENSATIONAL RUMORS

President McKinley Rested Satisfactorily During the Night, and His Con- dition is Excellent.

Buffalo, N. Y., Sept. 11.—"The President has passed a very comfortable night," said the 6 o'clock morning bulletin of Doctors Rixey and Wasdin, the two physicians who remained at the President's bedside throughout the night. A few minutes later Dr. Rixey, the President's regular physician, was seen by an Associated Press representative. He displayed no evidence of anxiety and was sympathetic in his characterization of the sensationally alarming reports put in circulation in the early hours of the morning as a result of last night's bulletin.

Dr. Rixey was asked about these reports, and replied earnestly and without any hesitation whatever: "These statements are not true. The President is not in a serious condition, and there is no alarm felt over him. The facts are as stated in the regular bulletins of the physicians who are anxious that the public shall be fully acquainted with them."

"The action we took last night has proved beneficial, and I feel more confident of the President's recovery than at any time since he was shot. Everything is favorable, and we have tripled the amount of nourishment, giving him now three teaspoonfuls of beef juice every hour instead of one. Even the President's recovery will be slow. All talk of his sitting up in a few days and leaving Buffalo in a week is nonsense. I shall be satisfied if he can be moved in six weeks."

As the morning advanced, and the feeling of confidence grew stronger. At 8:30 o'clock the physicians began arriving for the morning consultation. They came in accordance with the usual understanding that a consultation would be held at 8:30 preparatory to the 9 o'clock bulletin.

The conference broke up at 8:15, and five minutes later Dr. Myrner left the house. "It is all good news," said he as he reached the rope at which half a hundred newspapermen were congregated.

The following bulletin was issued by the President's physicians at 9 a. m.:

"The President rested comfortably during the night. A decided benefit has followed the dressing of the wound last night. His stomach tolerates the beef juice well, and it is taken with great satisfaction. His condition this morning is excellent. Pulse 112, temperature 100.2. (Signed) Geo. B. Cortelyou, secretary of the President."

Latest Bulletin.

Buffalo, Sept. 11.—The following bulletin was issued by the President's physicians at 9:30 p. m.:

"The President continues to gain and the wound is growing more healthy. The nourishment taken into the stomach is being gradually increased. Pulse 120, temperature 100.2. F. M. Rixey, Geo. B. Cortelyou, secretary of the President."

The Prosecution.

Buffalo, Sept. 11.—District Attorney Benny and the secretary of war will confer today on the legal steps to be taken for the prosecution of Leon Czolgosz and Emma Goldman. The police have encountered a difficulty in finding evidence of overt acts within the state of New York on the part of the Goldman woman, and expect to favor her prosecution in the Federal courts. It is expected that the conference between the secretary of war and the district attorney will result in some definite plan of action.

Emma Goldman Remanded.

Chicago, Sept. 11.—Magistrate Prindle today granted continuance until September 19th in the case of Emma Goldman, who was arrested here yesterday.

City Prosecutor Owen said that the prisoner was charged with conspiracy to murder the President, and therefore he desired that she be held with bail.

No lawyer appeared to represent her, but with a determined snap of her teeth she said she was ready to proceed without counsel.

When the court granted continuance she said she wished to be allowed her freedom under bonds.

The magistrate said that as the latest bulletin indicated that the distinguished patient at Buffalo was on the high road to recovery, he would consider the matter of bail further, and would announce his decision at noon.

ALIEN LABOR ACT.

Report That Representations Have Been Made to Ottawa Asking For Prosecutions.

Vancouver, Sept. 10.—The Chinese of Vancouver will erect a special Oriental arch for the Duke of York's reception. A large proportion of the Japanese who have been fishing on the Fraser river this season are leaving for the American side with their earnings. Over two hundred have received permits.

It is stated here on good authority that Ralph Smith, M. P., and Smith Curtis, M. P., have made strong representations to Ottawa to have the government officials undertake prosecutions under the Alien Labor Act.

Canadian Briefs.

Masonic Grand Master Dead—Two Sectionmen Killed.

London, Sept. 9.—R. B. Hungerford, grand master of the Grand Lodge of Canada, A. F. & A. M., died this morning of paralysis.

St. John, N. B., Sept. 9.—An engine on the Algoma Central railway yesterday collided with a handcar containing six sectionmen at Wilder station, killing two of them. The others escaped by jumping. It was foggy and the men did not see the engine until it was almost upon them.

Thamesville, Sept. 9.—Robert Ferguson, M. P. for East Kent, is dead, aged 65. He had been a member of the Ontario legislature since 1885.

St. John, N. B., Sept. 9.—Mrs. Jane Lambert jumped from a moving train at Colbrook on Saturday morning and died here yesterday from injuries received.

Bellefleur, Sept. 9.—Lazier & Son's flour and paper mills here were destroyed by fire last Saturday night. The loss is \$25,000; insurance, \$25,000.

Hamilton, Sept. 9.—Fire did \$8,000 damage to the Copp foundry on Saturday night. The loss is covered by insurance.

Toronto, Sept. 9.—Joe Kane, son of Patrick Kane, Ottawa, John Hamilton and another young fellow, name unknown, employees of the Quebec Bridge Co., while out boating yesterday were precipitated into the water by the boat capsizing in a sudden squall. Kane and the other young man, whose name is unknown, were drowned.

Toronto, Sept. 9.—Ernest Beer, the young son of the proprietor of the Bull's Head hotel, has been arrested charged with the murder of Michael Hartnett.

Williams Wright, a cattle-buyer of Tyrone, was attacked by a highway robber, knocked senseless and robbed of \$2,000 near Bowmanville.

Montreal, Sept. 9.—At today's meeting of the city council, Ald. Clerville moved for an investigation into an attempt to bribe him into supporting the Royal Electric Company's contract for supplying street lights. He declares the staff of the admiralty, has made his name a notice of motion. Thirty days must elapse before it can be voted upon.

Vice-Admiral Escapes.

Constantinople, Sept. 10.—Vice-Admiral Falk Pasha, chief of the general staff of the admiralty, has made his escape from Constantinople, going by British steamer to Malta. Fear of the consequence of his memorial to the Sultan denouncing the maldistribution in the navy caused his flight. His property has been declared forfeited.

INTERNATIONAL CRICKET.

The Canadian Team Made 128 Runs in Their First Innings.

Ottawa, Sept. 10.—Play in the international cricket match—Canadians vs. the United States—was resumed this morning at 11:30 with Chambers and Forrester batting for the Canadians in the bowling of Clark and Lester. The Canadians finished their first inning for 128, the last wicket putting on 51 runs.

TROUBLES IN ARMENIA.

Reported Destruction of Mussulman Quarters at Mush.

Constantinople, Sept. 10.—Fifty Armenian revolutionists, according to Turkish reports, recently set fire to the Mussulman quarters at Mush, Turkish Armenia, where fighting afterwards occurred, the Armenians retiring towards Sassoun.

It is also reported that Armenians and Turks blew up the barracks at Sassoun on September 3rd, where 3,000 troops were stationed, and that a state of panic prevailed there in consequence.

Such Turkish reports have previously been forerunners of massacres of Armenians, and it is generally apprehended by Mussulmans here that massacres have already taken place.

LUMBERMAN FINED.

Ottawa, Sept. 10.—In the police court today J. R. Booth, lumberman, was fined \$20 and 20 costs for putting sawdust in the Ottawa river.

The tongue of a common seal is set with 30,000 toothlike points.

TO-DAY'S BULLETINS ARE SATISFACTORY

NO GROUND FOR THE SENSATIONAL RUMORS

President McKinley Rested Satisfactorily During the Night, and His Con- dition is Excellent.

Buffalo, N. Y., Sept. 11.—"The President has passed a very comfortable night," said the 6 o'clock morning bulletin of Doctors Rixey and Wasdin, the two physicians who remained at the President's bedside throughout the night. Emma Goldman Remanded.

Chicago, Sept. 11.—Magistrate Prindle today granted continuance until September 19th in the case of Emma Goldman, who was arrested here yesterday.

City Prosecutor Owen said that the prisoner was charged with conspiracy to murder the President, and therefore he desired that she be held with bail.

No lawyer appeared to represent her, but with a determined snap of her teeth she said she was ready to proceed without counsel.

When the court granted continuance she said she wished to be allowed her freedom under bonds.

The magistrate said that as the latest bulletin indicated that the distinguished patient at Buffalo was on the high road to recovery, he would consider the matter of bail further, and would announce his decision at noon.

BILLS DISALLOWED.

Ottawa, Sept. 11.—At a meeting of the cabinet today two British Columbia bills, one regarding immigration into Canada and the other respecting the employment of Chinese and Japanese on public works, were disallowed.

This was done at the instance of the British government. Bills to favor her having refused to amend its legislation as regards Japanese.
