A NEW IRISH SCHEME. Four National Councils to Represent Leinster, Munster, Ulster and Connaught.

LONDON, Oct. 8.—The Daily News says it is enabled to state that a committee of the cabi-net is preparing a bill to establish four national councils to represent the provinces of Ireland. The bill differs from Gladstone's bill chiefly in the omission of provisions for a legislative body at Dublin. With this exception the bill fully meets the aspirations of the home rulers in regard to transferring to local bodies the direction of Irish sfairs now dealt with at Westminster. The government has scienced for this bill the bearty onial hotel, Sussex, on Wednesday evening last, when Maj. Markham was elected president, Capt. Wm. Langetroth vice-president, and motion was made to do away with the necessity of wearing uniform at the matches, which will of wearing uniform at the matches, which will be acted upon at the next annual meeting. The secretary having read a letter from the Hon. Geo. E. Foster in which was enclosed a cheque for \$20 with an intimation that it would be as well to give the money to young shots, it was decided to establish a nursery match and place the money in it. A resolu-tion of thanks was then passed for this hand-some donation and the meeting adjourned, the members to meet the next morning at 8 o'clock to try their luck at the buts. The morning of the 7th was very fine and all affairs now desit with at Westminster. The government has secured for this bill the hearty support of Lord Hartington and Chamberlain. Gladstone was not consulted in the matter. The News expresses the belief that Chamber-lain was the real author of the scheme and that nellites will reject the bill with con-

to the people and army to refuse to allow Gen. Kaulbars to deceive or bribe them. The appeal says: "Rather uphold the honor of the country and the army and show yourselves worthy of independence"

independence." The officers of the Shumla garrison have telegraphed to the government asking if it is true, as reported, that Bulkaria intends to make war on Russia. The govern-ment has promptly denied that any such intention was entertained and warned the in-quiring officers that they would be punished if they again questioned the government about its affairs. ## THE AMERICAN FLAG

Mauled Down by Capt. Quigley at Shelburne -A Yankee Skipper's Foolish Act.

(Special to THE SUN.)

SHELBURNE, N. S., Oct. 11.-Today, Skip-SHILBURNE, N. S., Oct. 11.—Today, Skip-per Landry of the Yankee schooner Marion Grimes, held for \$400 fine for not reporting at the custome house, persisted in flying the Stars and Stripes above the Queen's broad arrow. Captain Quigley ordered him to remove it un-til after the versel was released from customs custody and warned him of the folly of his ob-stinacy. But he persisted and Quigley himself hauled down the American flag, placed the schooner in charge of an armed guard and re-ported the facts to Ottawa. This is the most serious proceedings since the abrogation of the Washington treaty.

He packed 3,583 cases of two-dozen cans each, and would have had more if the frost had not come so have had more if the frost had not come so early. That represents an outlay of about \$6,000, of which the farmers get nearly haif, (your Burton correspondent abould be more accurate when he gives items from this side of the river), making the corn the best paying crop they had. the Tobique river sees many pretty places, but none more beautiful than Riley Brook. After journeying along the road from Dow Fiat, crossing many valleys and climbing numerous hills, one arrives at a point whence looking as into an arena, the first view of the place is ob-tained. "Beautiful indeed is it for situation," as it lies surrounded by stately hills, covered by magnificent forests with Bald Peak tower-ing high above all and standing as a sentinel to guard the enchanted land. Here too flows the Tobique, one of the most beautiful farms, re-joicing in an abundant harvest; shingle and immber mills, a good school, a lodge of Good Templars, and regular Sabbath services. Many of the first settlers are still to be found, among whom may be mentioned Isaac Gaunce, whose home and heart are ever open towards the stranger and the needy. Here, too, is his son, Amos Gaunce, the veteran hunter and trapper of the Upper Tobique, whose daring nerve and steady eye has carried death to many a savage beast. Already this fall he has slain ten bears. He is now erecting a fine house for bimsolf and family. Then Horatin House for
