Text at the bottom of the comic:
 Now Percy is so proud and well pleased with his name
 He'll never miss chances of mentioning same
 But Pussys not certain of what he will do
 So says that his name would sound better 'Skiddoo'
 Poor Percy thinks she hasnt quite understood right
 So he's spelling Percy with all of his might
 He spelt it out once and then spelt it some more
 But Puss calls him Reggie and makes him more sore
 Then quick as a wink Pussys grabbed up the pan
 And said shed now christen him 'Milky Whey Man'
