Poetry.

THOUGHTS ON STUDY.

Indulgent Heaven bestowed on potent man
Powers of mind, that serve his sphere to scan,
To search the skies above, the earth below,
To trace their wonders, and their beauties show.
Throughout this seeming irregular mass,
O'er which, through which, by which we daily pass,
One universal principle we find;
All things by certain laws are fixed, confined;
All have their round, 'yond which they cannot go.
This round, 'tis man's to study, and to know,
The law by which *all nature's swayed*.
Overseer man can find, if laws obeyed,
Labor's our fate, by which to *gain our bread*;
Study the fiat to inform the head.
'Tis strictly true, all Newton's cannot be,
Or like Shakespeare write the tragedy;
But all, forsooth, may wiser better grow,
If all but strive to mature know;
All can improve the precious talent given,
And this is all that is required by Heaven.
In lazy apathy, ton thousands sit,
To mourn their ignorance and spoil their wit
Or what is worse, some neighbour seek to find,
With whom to prate the faults of human kind,
Or else continuous they stride the street,
To gaze awry, on all they chance to meet.
The time thus squandered, or sore abused,
Would make a sage, if it were rightly used.
Why curse the fates, that we so little know,
While we in study no action show.
Whoever knew an urchin sent to school,
And tasked by teachers skilled to teach and rule,
That would coma it the lesson thus assigned,
If, to act in study he be not resigned?
Who but a coxcomb dare exclaim,
In one year my learning I shall gain!
Did Davy think as age drew nigh,
The dunking man, or heedless, idle wight!
Then find no fault, that you so little know,
Whilst unthinking through the world you go.

New
Boot and Shoe Store,

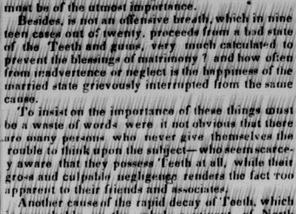
RILEY'S DENTIFRICE.
As an essential point of beauty the Teeth must ever stand pre-eminent. No regularity of feature, no brilliancy of Complexion, no sparkling eyes, or silken hair, can render that lady beautiful who, when she opens her lips, (though they be of coral) discloses a set of discoloured Teeth. On the contrary, even homely features and a sallow complexion are embellished and rendered agreeable by a set of white Teeth. On the other hand, the effects of decay, the accumulation of tartar, the black teeth and tainted breath, which are invariable accompaniments of a bad state of the mouth, will always prove loathsome and disgusting.
Among the various disorders of the mouth, there is none so destructive as scurvy—which on first entering the gums causes them to bleed on the most trifling occasions, and produces the most offensive and putrid breath. *There is more loss of Teeth from this Disease than from all others.*
Could persons afflicted with it see for a moment the state of their mouth, or catch the odour of their own breath, they would rejoice in finding a remedy so cheap and simple, and yet so efficacious, as the one now offered.
To professional men, shop keepers, and tradesmen generally, who have much intercourse with this fashionable world, a good state of the mouth must be of the utmost importance.
Besides, is not an offensive breath, which in nine teen cases out of twenty, proceeds from a bad state of the Teeth and gums, very much calculated to prevent the blessings of matrimony? and how often from inadvertence or neglect is the happiness of the married state grievously interrupted from the same cause.
To insist on the importance of these things must be a waste of words were it not obvious that there are many persons who never give themselves the trouble to think upon the subject—who seem scarcely aware that they possess Teeth at all, while their gross and culpable negligence renders the fact too apparent to their friends and associates.
Another cause of the rapid decay of Teeth, which is remarkable on the whole continent of North America, is a peculiarity in the climate—the rapid and sudden changes from one extreme to another which are of almost daily occurrence.
This source of decay, as well as the scurvy, is annihilated by using
RILEY'S DENTIFRICE,
which makes the Teeth beautifully white, eradicates the scurvy, preserves and restores the enamel where injured, sweetens the breath, preserves the Teeth sound and handsome until the most advanced age, and by constantly using will prevent the toothache. It was used and most highly approved of by his late Majesty GEORGE THE FOURTH, (the most perfect gentleman of the age he lived in,) and by the principal nobility of his Court; and has never failed to give the most unqualified satisfaction. In several instances the inventor has received considerable presents from parties, as a mark of gratitude for the benefit their Teeth had received from the use of it. Mothers may rest assured, that if their children have sound Teeth at present, they will by using the DENTIFRICE never have occasion to employ a Dentist—as their teeth will remain sound and beautiful until the most matured age.
☞ *Observe that* G. RILEY'S *name is signed, in his own hand-writing on the table of each box.*
☞ PRICE—HALF A DOLLAR PER BOX.
Messrs. PETERS & TILLEY, of Saint John, N. B., are my Wholesale Agents for the Provinces of New Brunswick and Nova Scotia, for the sale of the above celebrated article.
September 25. GEORGE RILEY.



By the Queen's patent.
TRIUMPHANT SUCCESS OF
Buchan's Hungarian Balsam of Life,
THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and Consumption.
THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the 'Great English Remedy.
It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.
As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, inflammation of the Lungs, croup, &c., it is unrivaled. But the Proprietors so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID rather than by persons afflicted with some simple and less dangerous disorder of the throat and lungs;—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful *softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of this dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid;—the agent or proprietors of other medicines dare not claim for their preparations a power like this; they know that in no case have such effects been produced;—the grand object and purpose of the common 'remedies' is simply to *give relief—not to cure*; this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient rapidly declines, and every day places him farther and farther beyond the reach of hope.
Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto uncontrollable malady. It is in fact the *best remedy in the world!*
[From the John Bull, newspaper, London.]
There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life, which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.
Sold by McDonald & Smith, Sole Agents for the United Kingdom.
By special appointment PETERS and TILLEY, No. 2, King street, St. John, Sole Agents for the Province of New-Brunswick. Aug. 1.

SANDS'S SARSAPARILLA,
For the removal and permanent cure of all Diseases arising from an impure state of the Blood, or habit of the system, viz:
Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Biles, Chronic sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, stubborn Ulcers, Syphilitic symptoms, Sciatica or Lumbago, and diseases arising from an injudicious use of Mercury, Ascites or Dropsy, Exposure or imprudence in Life; also, Chronic constitutional disorders, &c.
"EVERY cell and organ of the human body" says a distinguished medical writer, "is originally built of, grows, and is renewed by an independent vital force; and when causes which have arrested such growth or renewal, are removed, then by the influence of this vital force, the actions in a part, or in the whole system, resume their harmonious course, and the ravages consequent upon disease are overcome, obliterated and repaired." Here is the whole theory of disease, and the same author proceeds to say, that in many diseases "substances are conveyed into the blood which are incapable of assimilation." In order therefore, to restore this "vital force" and get rid of these substances, it is necessary to employ an agent which will act with directness and certainty upon the blood in the process of its manufacture, preventing the introduction of non-assimilating substances, and thus cutting away, as it were, the very roots of disease. That this preparation is such an agent is abundantly proved by the innumerable successful results that have attended its use. It expurgates the source of the disease, and of course its outward evidence, robbed of their infectious substance in the blood, are rapidly absorbed, and the patient is restored to health.
The Proprietors submit to the Public the following certificate from a highly respectable source, of a cure made by using their preparation of Sarsaparilla:
Norwich, N. Y., Oct. 6, 1846.
Messrs. A. B. & D. Sands—
Gentlemen—Feelings of gratitude induce me to make a public acknowledgement of the benefit I have derived from the use of your Sarsaparilla. I have for several years been afflicted with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and ears; and at others would break out in different parts of my head and face. These continued until my throat, face and head were almost one complete sore, and for a long time I was so hoarse that it was with the utmost difficulty that I could speak above a whisper. During this time I had several attacks of pleurisy and other diseases. I consulted different physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla. I am now well; the sores are all healed, and I attribute the result entirely to the effect of your valuable medicine. Your's with respect and gratitude,
PHEBE CAHOON.
Being personally acquainted with the person above named, I believe her statement to be correct.
JAMES M. D. CARR, Justice of the Peace.
The following testimonial from the Agent to the value of the Sarsaparilla in a case of leprosy will be read with interest by all similarly afflicted:
BEAVER, Pike Co. Ohio, sept. 7, 1846.
Messrs. A. B. & D. Sands:
Gents—A man near here used six bottles of your valuable Sarsaparilla for the leprosy, and has received more benefit from it than all other remedies combined for six years past. It restored a hand, leg and foot from a situation that no person would have known they belonged to a human body, as all appeared to be one mass of purifying sore. His hand and other diseased parts are all restored to their natural size and feeling; are entirely healed over, and his leprosy cured; he intends using a few more bottles to permanently establish his health.
Your's respectfully, G. W. RAYNOLDS.
For further particulars, and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.
Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton street, corner of William, New York.—*Sold also by* T. WALKER & SON, *Saint John, N. B.*; Morton & Co., Halifax; John Manson & co., Quebec, and by Druggists generally throughout the United states and the British Provinces.
Price $1 per bottle; six bottles for $5.
☞ The Public are respectfully requested to remember that it is Sands' Sarsaparilla that has been and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for *Sands' Sarsaparilla*, and take no other. Feb. 12.
