TIP WRIGHT TELLS THRILLING STORY OF HAMBURG BELLE'S  
WONDERFUL WINNING RACE AGAINST THREE WORLD'S RECORDS

HAMBURG BELLE FINISHING THE FASTEST MILE EVER TROTTED IN A RACE AND DEFEATING UHLAN, IN 2:01 1/4.

(By Tip Wright)  
North Randall, O., Aug. 30.—A perfect summer day—the sun hanging like a ball of yellow fire in a fleecy vault of deepest blue; a breeze to temper the heat rays, which otherwise would have been unendurable. Far as the eye can see green fades into green; the grass blends into the tassled corn, the corn blends into the cooler shade of the woods. Here and there the orange and white of a stable; through the foreground a ribbon of gold describes a perfect oval; at hand fair women, handsomely gowned, chat with their escorts; in front, twin towers and between—ah, there is the golden ribbon again, the home stretch of the fastest harness track in the world.  
Such was North Randall when Hamburg Belle and Uhlán, two of the fastest trotters in training, met in the first of three match races to settle the trotting supremacy.  
Thought Fortunate.  
Always will I consider myself fortunate in having reached North Randall to witness this epoch-making struggle between the blooded daughter of the great Axworthy and the stallion son of Blüthen. I saw Crescens step in 2:02 1/4 at Columbus in 1901, and three years later I watched Lou Dillon trot in 2:01 at Memphis. At the seven-eighth pole Uhlán made his bid. Hamburg Belle was firing, and the black crawled up foot by foot, while thousands shouted encouragement and forgot decorum.  
The women chattered uneasily until the announcement. "The next race will be the first heat between Hamburg Belle and Uhlán." Then quiet settled down softly as a moths spreads a blanket over her sleeping babe.  
How they cheered as the rivals, their coats glistening like the sheen on new fallen snow, trotted back and forth. A disappointed "Oh!" welled forth as the starter's gong called them back.  
The fourth time down and "They're off!" The crowd shouted. Nothing could have prevented that explosion. The pent-up feeling had to have vent. And 8000 eyes sought the pair as they swept to the quarter in 31 seconds. The Belle slightly in the lead. To the half in 1:01 1/4 like a team to pole; rounding the far turn Hamburg Belle moved up, and Proctor took Uhlán out-side.  
They passed the three-quarters in 1:31, the mare a length to the good. At the seven-eighth pole Uhlán made his bid. Hamburg Belle was firing, and the black crawled up foot by foot, while thousands shouted encouragement and forgot decorum.

Uhlán's distended nostrils reached the throat latch of his rival. Proctor shook his whip. He shouted. He urged the game gelding as he never urged before, but without avail. The great-hearted mare would not be headed. Tired, she stayed Uhlán's rush, meeting stride with stride, although her breath came in gasps from choked lungs, and she held Uhlán safe by inches.  
I have seen men and women lose control of themselves in tense situations, but I never witnessed a more spontaneous outburst of non-careless than the scene in that grand stand. Men stood up and shouted, waving hats and programmes. Women became hysterical, laughing and crying, in a delirium of excitement. It was a sea of waving things.  
And then the disappointment of the second heat when, having forced Hamburg Belle to the half in 59 1/2 seconds, Uhlán cast a boot, and then a shoe, putting him out of the race.  
Silver Lining.  
But there's a silver lining to every cloud, and the unfortunate accident brought out the true qualities of Hamburg Belle.  
"Like a flash she shot away from the dancing Uhlán, finishing in 2:01 1/4. This, more than anything else, proved to me what a grand piece of horseflesh she is. Without competition or pace, urged only by her driver, I regard that mile as the greatest ever trotted. Had Uhlán finished I am certain the winner would have shaved two minutes."  
Just think of three world's records in one afternoon! Hamburg Belle got them. Her first mile was the fastest ever trotted in a race. Her second and the fastest second heat ever trotted, and the two form the fastest two heats.  
Wonderful Development.  
Truly wonderful has been the development of the trotter. As year after year the record has been trotted, due to advance in breeding and training, a story has been told that reads as strange and interesting as romance.  
It was in 1806 Yankee trotted the first mile below 3:00, stepping in 2:59, and on down through the years were Boston Horse 2:48 1/2, Trouble 2:43 1/2, Sally Miller 2:37, Edwin Forrest 2:36 1/2, Contender 2:26, Dutchman 2:32, Lady Suffolk 2:26, Highland Maid 2:27, Flora Temple 2:21 1/2, Dexter 2:17 1/2, Goldsmith Maid 2:14, Barus 2:13 3/4, St. Julien 2:13 3/4, Jay Eye See 2:10, Maid S. 2:08 3/4, Sunol 2:08 1/4, Nancy Hanks 2:04, Alix 2:03 3/4, The Abbott 2:03 1/4, Crescens 2:02 1/4.  
Only one mark, that of Lou Dillon 2:01 stands between Hamburg Belle and the world's record without wind shield, and the ease with which the new claimant stepped in, 2:01 1/4 without a runner, indicates she will snatch the crown from the daughter of Sidney Dillon this summer.

EDDY RAMSEY DENIES THAT HE SOLD GAME

A sworn declaration to the effect that he had not played false in any way in the losing of Saturday's game between the Marathons and St. Peter's made by Edward Ramsey will be welcomed by the many friends of the Marathon captain. He accounts for the poor showing he made by the fact that he was ill. The affidavit reads as follows:  
I, Edward A. Ramsey, of the City of Saint John, laborer, do solemnly declare:  
1. That I am the Edward Ramsey referred to in the public newspapers, The Daily Telegraph, The Standard, and The Sun in their reports in their respective issues of the 30th of August instant concerning the baseball game which was played at the Saint John Athletic ground on Saturday last, in each of which it is either stated or intimated that I played false, sold the game, or did not do my best to win the game.  
2. All such reports do me great wrong and injury and cause myself and my friends to feel that injustice has been done me.  
3. The facts of the case are as follows, namely: On Saturday before the game was called I saw the manager (David Donald) for the Marathons and reported to him that I was ill and unfit and really unable to play in the game on Saturday.  
4. The manager seemed to think that I was well enough to play and insisted that I should play in the game that day. After some conversation and desiring as I did not to disappoint my friends, I yielded to the pressure brought upon me and entered the game, and under the circumstances I did all I could to win, but I soon found that my sickness was increasing my disability. In the third inning I became sick at my stomach and vomited at the bench. I at once applied to the manager and asked to be relieved from further playing that day, but he said they, meaning the Marathons, wanted to win the game and for me to do the best I could, and he seemed to me to think even if I were ill that I was so good a player that if I continued in the game the Marathons would win. I again yielded and went on with the game, and the Marathons were ahead at the sixth inning, but I felt quite ill then, and I again applied to the manager to be relieved, but he said, in effect, he could not relieve me, that he had no one to fill my place, and for me to go on and he thought we would win. I complied with the request and continued to play and my side of game was ahead up to the ninth and last inning, during which I continued very ill, made mistakes, but I did the best I could. I am sorry we lost the game, but I could not help making the errors I did make.  
It has been said that I bet money in favor of the St. Peter's and that I complied with the request or giving away the game. Both of these statements are entirely wrong. I bet no money on the game and I did not receive any money because the Marathons lost the game. I played the game for the Marathons honestly in every way and did as I have before said all I possibly could do under the circumstances of my illness to win the game for the Marathons.  
I am the captain of the Marathons and was most anxious that they should win the game. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act of 1903.  
EDWARD RAMSEY.
