

Without Extra Cost

THE ASEPTO PLAN OF DOING BUSINESS IS THE ONLY PLAN OF ITS KIND IN CANADA.

It works itself out in this way: If you spend five cents you get a check worth one cent. If you spend twenty-five cents you get one worth five cents. If you spend \$1.00 you get one worth twenty cents. If your purchase amounts to \$5.00 you get one worth \$1.00 and so on. These goods we sell to you at the same price that you would pay for them at any other store in the city. Instead of giving you a small cash discount we give you a check worth 20 cents for every \$1.00 you spend. We make a profit on the goods you purchase and pay for while the goods you purchase afterwards with our checks are given you at the wholesale price. To get you to make the first purchase costs us something, while the second purchase, with our checks, you are bound to make from us. There is no selling expense attached to the latter.

What Would You Most Like In Your Own Home?

An attractively furnished home adds greatly to your domestic life. You can make your home as cozy as you desire without it costing you one cent. By the Asepto plan you can get all kinds of house furnishings clothing of every description, china, cut glass, silverware, jewelry, watches, boots and shoes, and hundreds of other articles FREE.

We would like to talk with you personally, of the ASEPTO FAMILY TO FACTORY PLAN. It is simply a matter of changing to a more economical way of buying your household supplies.

It is possible for you to get FREE AS A PREMIUM from us any article you may select, whether we are at present carrying it in stock or not.

THERE IS NO MYSTERY ABOUT OUR PREMIUM PLAN.

We manufacture about 400 lines of our own and they are the goods that we are forcing the sale of.

To sell these goods by the usual plan is to send out the agents and employ expensive advertising, etc., which will cost over 40 per cent. We have discontinued all advertising except what applies to our store, and are taking our travelers of the road and are instead giving the purchaser of goods from us 20 per cent and making the other 20 per cent ourselves. This is not a good business proposition.

On lines that we sell that are not of our own manufacture, we give the consumer about all of the profit, through our coupons, but we do this in order to have in our stores sufficient lines of steady consumption to enable a family to secure coupons for the goods they need to get many articles of value in a short time free. So you see that our plan is the only one that really solves the cost of high living and still gives us a living margin.

FOR INSTANCE, SUPPOSE YOU DESIRE A PIANO. We do not sell pianos, but we can arrange to enable you to get one as a premium, or any other selection, say a fur lined coat, or a handsome set of furs, in fact we will arrange to supply you with any article you may name. If it is high priced, you had better start at once.

Come in and talk the matter over first, with our Mr. Gray, at the store, Corner of Mill and Union streets and you will then understand how easy it is.

Remember—That the first consideration with us is quality; that our price is NO HIGHER THAN THAT CHARGED BY ANY RELIABLE DEALER, and in addition YOU SAVE 20 PER CENT. ON ALL PURCHASES made in our store and you will see by Article No. 2 in this ad. how it is possible for us to do this.

Mother, we make it possible for you to give your husband, daughter or son that present you have had in mind so long.

Children, we provide a way for you to present to mother or father that article of comfort that you have never felt able to give them.

START FOX FARM AND GET RICH QUICK

H. B. Weeks, of Fredericton, P.E.I., Tells of Wonderful Profits to be Made from a Fox Ranch.

Starting on a small scale with but two or three interested in the venture, the fox raising has become one of the chief industries of Prince Edward Island. Instead of two or three farms found on the island a few years ago, the number has grown to over one hundred, and so lucrative has fox farming been found that even agricultural pursuits are giving way to it.

H. B. Weeks, of Fredericton, P. E. I., who was a visitor to the city yesterday, said that fox farming is becoming one of the most popular schemes of the place and that each year finds new farms starting while those already established have proved so successful that the owners are increasing their herds. The fox farmers have taken up the scheme and in consequence of the capital which the new industry is putting in circulation things are booming in the island.

The fox farming is profitable may be seen from the almost fabulous prices which certain specimens command in the market. Instances are known of the sum of \$10,000 being offered for a pair of black foxes. Silver foxes, which are in popular demand this season are also commanding big prices and as the capital required for establishing the farm is comparatively small, the returns are great.

Mr. Weeks, who is the owner of a fox farm, said that those who are conducting farms on the island have no difficulty in finding purchasers for the foxes although the chief center is London, and other purchasers are found for the Canadian fur is recognized as the best in the world.

Although Prince Edward Island is the chief fox farming district in the Maritime Provinces, Mr. Weeks stated that New Brunswick would be highly suitable for the same purpose. The climatic conditions which are essential to successful fox raising are ideal in this province, and other requisites are also to be found here.

As carried on in P. E. I., fox farming has proved a paying proposition, and several of those who have undertaken the enterprise have amassed small fortunes from the venture. The farms vary in the amount of stock, the largest farm having about one hundred pairs. Other farm owners have twenty-five and thirty pairs, while some have been known to have started their farms with a single pair. In each litter the offspring number from three to eight, and while several of the farmers dispose of their stock, retaining only a few pairs for breeding purposes, others, however, hold their stock from year to year, and owing to the continual and marked advance in the value of furs realize large sums.

Mr. Weeks will leave today for Maine, where he will purchase a number of foxes for his farm.

He Will Get Into Jail Anyway.

There was rather an amusing incident on King street east last evening and the principal actor in the comedy will probably not forget it for some time to come. William Marshall, aged 25 years, who has been arrested before on the charge of drunkenness, got his tank full of intoxicants yesterday and about 7 o'clock he made his way up the stairs of the county jail and ran the door bell. Turnkey Samuel Clifford responded to the summons and Marshall said that he wished to get into the jail. The turnkey ordered him out, but he refused to leave, so the services of Policemen Crawford and Henry were called on. Marshall was ejected from the building and when asked by the policemen why he wanted to get into the jail, he wanted to get into the jail. "Well," said Policeman Crawford, "you are going the wrong way to get in, you had better come with us." Marshall was arrested and locked up in a police station cell, and this morning if sentenced he will get what he desired but will enter the jail by the rear door and not the front one.

Beauty Spots of Canada. In the Carleton Methodist church last evening Rev. H. E. Thomas delivered an interesting lecture on the Beauty Spots of Canada, before a large and appreciative audience. Mr. Thomas referred at some length to the beauty of the scenery in various parts of New Brunswick, and points of interest in St. John, saying that this province was possessed of beauties that any country would be proud of. He quoted Henry Drummond to the effect that while the Alps might be grander and the Gramplans more rugged, there were scenes in the Restigouche Mountains, which for sheer beauty surpassed the famous views of Scotland or Switzerland. The lecture was illustrated with a series of striking views from every province in the Dominion.

ONTARIO TOWNS WANT HOME RULE

Toronto, Feb. 1.—Home Rule is a larger measure for municipalities was asked by a deputation representing the Ontario Municipal Association, who waited on Hon. W. J. Hanna today. Many changes in the municipal laws were requested and a memorandum of the proposals was left with the provincial secretary.

"All I can say is thank you gentlemen, we will consider your proposals," was all the minister said when the deputation concluded.

EXPRESS COMPANIES WILL BE PROSECUTED

Washington, Feb. 1.—Prosecution of express companies for overcharging shippers on the transportation of their goods was indicated by Commissioner Lane at the Express Rate hearing today, to be the intention of the Interstate Commerce Commission.

Little Irritations of Life

MGGR. BONZANO IS PAPAL DELEGATE TO UNITED STATES

Washington, Feb. 1.—Mgr. Giovanni Bonzano, now rector of the College Propaganda in Rome, has been named as papal delegate to the United States, succeeding Diomedeo Falco, recently elevated to the office of cardinal. Official despatches announcing Mgr. Bonzano's appointment were received at the papal legation today.

ENGLAND'S FUTURE KING KEPT AT WORK

It is a Case of Almost Constant Study for the Young Prince of Wales—Is a Superb Horseman.

London, Jan. 30. There is no coddling in the royal family. At 7 o'clock every morning the Prince of Wales begins his studies, and as the Sandringham clocks are always kept half an hour ahead of ordinary time, on the "daylight-saving" principle inaugurated by the late King Edward, the young Prince's work really begins at half-past six.

Studies till breakfast time and studies afterwards up till noon keep the future King of England hard at work unless perhaps an ideal hunting morning tempts him out for a gallop, when the time taken from studies has to be paid back later on.

The royal children are all splendid riders. Princess Mary enjoys a gallop more than any of them, and is accompanied by Prince George, who frequently sees racing across the park in the highest spirits.

In all weathers the young Princes enjoy the outdoor life, sometimes returning home drenched to the skin and covered with mud, whereupon, after a hot bath and change into dry clothes, they are hard at their studies again.

Prince Albert has inherited his father's wonderful skill with the gun, and is the best shot of the family. He spends much of his spare time among the birds.

Prince Henry whose health gave his parents some anxiety, is now quite well and strong again. Every quibble loves him, for he is a most charming and gentle little Prince, full of consideration for others, and always busy making other people happy.

Prince George is the smiling Prince—always full of fun and on the very best terms with life. He enjoys every minute of the day. Left to himself he finds in his bicycle, on which he can perform some truly remarkable feats.

This open-air, active and well-ordered life has a most stimulating effect on the Royal children. The Prince of Wales, just budding into manhood, is developing every day, and is growing up into a very handsome young Englishman. He is thoughtful, serious and fully conscious of the great position he will one day be called upon to fill.

CANADA'S IMPORT TRADE MADE GREAT STRIDES LAST YEAR

Ottawa, Feb. 1.—Canada's customs revenue for January amounted to \$6,598,193, as compared with \$5,783,832 in the same month last year. For the ten months of the fiscal year the total is \$70,268,252, as against \$58,908,301 in the corresponding period. The heavy increase in the figures indicates the healthy growth of Canada's import trade.

ITALIAN WARSHIPS HAVE AGAIN RESUMED THEIR ACTIVITIES

Perim, Arabia, Feb. 1.—The Italian warships have renewed their activity in the Red Sea. The Turkish fort at Sheikh Said was shelled again today, although little damage was done. Yesterday it was expected that Moddeia would be bombarded, but the Italian destroyers have confined their attention to shelling small craft and villages along the coast.

DATE OF ELECTION IN SOUTH RENFREW

Special to The Standard. Ottawa, Feb. 1.—The South Renfrew by-election will take place on Feb. 22. Nominations will be held on Feb. 15.

GRAHAME-WHITE WINS PROTESTED RACE

New York, N. Y., February 1.—The long disputed Statute of Liberty prize of \$10,000, offered at the International aviation meet, 1910 by Thomas P. Ryan for a race from Belmont Park to the Statue and return, was finally paid yesterday to Claude Grahame-White, who finished second in the contest.

During more than a year of disputing as to the winner of the race, the money has remained in the custody of the treasurer of the Aero Club of America, Charles Jerome Edwards, of Brooklyn. A decision that was accepted as final was rendered in favor of Mr. Grahame-White at the Rome meeting of the International Aeronautic Federation, late in October. Delay ensued in obtaining a certified copy of the decision, which only reached the Aero Club within the last few days, through its European agent, Hart O. Berg. Mr. Grahame-White, who has been visiting this country for several weeks was at once notified that the prize money was at his disposal, and yesterday he accepted a check for the amount, with interest that has accumulated from a trust company in which the \$10,000, has been deposited since the Belmont Park meet.

Awards to two other contestants in the race were made in succession by the Aero Club of America and overruled by the international body, before the award was made to the English aviator. The late John B. Moisant was first declared winner, and on the appeal of Mr. Grahame-White being sustained the decision was given to Count Jacques de Lesseps.

Mildred Knew. The school teacher was giving her small pupils an instructive talk. "Now, children, all the clothes you have on were made out of wool, and that wool was once on the backs of the little lambs." Then she passed on to other subjects. To finish her lesson she returned to her first subject and asked questions of her little charges. "Now, Mildred," she said, "what is your coat made of?" "It's made out of Sister Alice's coat that she wore last year," replied the little girl earnestly.—Indianapolis News.

BRANCH MANAGERS NOT ALWAYS ABLE TO PAY PRICE ASKED

Chicago, Feb. 1.—F. H. Fleming, consignee clerk for the G. H. Hammond and Company plant of the National Packing Company at Chicago, told the jury in the packers' trial today that cars of beef shipped to the eastern territory were always billed to the branch house at a price which the branch house managers were expected to pay for the product, if possible, but in many cases the prices obtained were less.

Figures on four lots of beef shipped east in March 1909, were read. They showed that the price in this instance was more than the live cost of animals.

The selling price on these lots was less than the test cost and government counsel, Sheshan attempted to show this meant an exorbitant profit to the packers because the allowance for bi-products figured in the test cost was inadequate.

RECOMMEND TOLL ON ALL TONNAGE THROUGH CANAL

New York, N. Y., Feb. 1.—Resolutions recommending the establishment of a toll of \$1 per ton on all tonnage passing through the Panama canal were presented at the meeting of the chamber of commerce today by the committee on foreign commerce and the revenue laws. In the report of the committee it is stated that the United States vessels cannot be favored in the matter of tolls, without the abrogation of treaties existing with Great Britain.

Coughs and Colds

Are Dreaded by Mothers Who Fear for the Safety of Their Children. DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE.

What a weight of responsibility rests on the mother of the family during the winter season! In every cough and cold she recognizes the voice of Croup, Bronchitis, Consumption, or other deadly throat and lung complications.

Few people, even among those who are convenient to doctors, can afford the luxury of a physician for every cough or cold, even though they realize the seriousness of neglecting such ailments.

For all such Dr. Chase has provided a prompt means of cure known as Dr. Chase's Syrup of Linseed and Turpentine. One reason why mothers prize this treatment above all others is because of its suitability for children. It is sweet and pleasant to the taste, and children like to take it. By its soothing, healing action it is wonderfully prompt in curing Croup, Bronchitis and Whooping Cough and can be used by children with perfect safety so long as directions are followed. Thousands of families in Canada keep Dr. Chase's Syrup of Linseed and Turpentine in the house at all times for use in cases of emergency. This is the only way to be sure of protecting the bronchial tubes and lungs against coughs and colds, etc. a bottle, family size 60c. at all dealers or Edmondson Bates and Co., Limited, Toronto.

EXTENSION OF PARCELS POST FORESHADOWED

Continued from page one. Mr. Pelletier's statement was elicited by a motion by W. F. Maclean, on going into supply that the parcels post be expanded and extended.

Mr. Maclean's motion led to a curious altercation. J. E. Armstrong of Lambton, has had a resolution on the order paper all session calling for sundry improvements in the postal system including an "improvement" of the parcels post.

He moved the resolution yesterday and got partly through his speech. Today Mr. Maclean cut in with a resolution demanding the "expansion" of the parcel post, and drew the Postmaster General's attention.

Mr. Armstrong protested that this was unfair, but Mr. Maclean's debate was allowed to proceed. Mr. Maclean's principal argument was that if the parcels post were extended the express companies would be forced to halve their rates.

Mr. Lemieux advocated nationalization of the telegraphs and telephones, a state owned cable across the Atlantic, and an extended parcels post. After speeches by Mr. McCraney and Mr. Emumerson, Mr. Pelletier spoke. He favored the principle of the parcels post, but pointed out that from such questions as the enormous size, great distances, and sparse population of Canada, there were numerous technical difficulties, such as the increased number of mail cars which would be needed, the rates which the railways might charge, the alteration in the size of the mail bags and fittings, etc. He believed, however, in making improvements and suggested that the express companies reduce their rates.

His statement on cable rates followed. The earlier portion of the day was spent on the grain bills.

DESPATCHES POINT TO COALITION IN SOUTHERN CHINA

Washington, Feb. 1.—Peace in Southern China is not far off, according to today's official cables to the state department. A cabinet of leaders from both sides will be formed following the abdication of the despatches say, and such a modified provisional government is expected to be the forerunner of a permanent central government.

NEWSPAPER BIG HIT AT BOSTON DINNER

Boston, Feb. 1.—There was one big feature of the ninth annual buyers' dinner of the Gilchrist Company at the City Club last evening upon which the 175 guests had not counted. It was the introduction of the "Boston Meridian," a clever imitation of a Boston evening newspaper, which made an instantaneous hit with the big crowd, so pronounced was it, indeed, that within one minute of their appearance 175 copies were in circulation.

The whole thing was admirably planned and the success of the plot was greater even than had been hoped. C. C. Ferris, president of the Gilchrist Company, who was toastmaster, had just risen to say a few words, when, apparently quite by chance, his attention was attracted to a slight disturbance, centering in the neighborhood of Ralph Albertson. Mr. Ferris made several unsuccessful attempts to call the head table to order, and so pronounced was it, indeed, that within one minute of their appearance 175 copies were in circulation.
