

POLICEMAN BEATEN UP IN TRENTON

Lively Row in N. S. Town—Serious Automobile Accident Near New Glasgow.

Special to The Standard.

New Glasgow, N. S., Nov. 10.—About 1.30 o'clock this morning Policeman McDougall of Trenton was roused from his bed by a loud knocking upon the door. He ran down stairs to see what the matter was and found a Chinaman in an excited condition. He soon learned that there was trouble at the Chinese restaurant. The officer lost no time in getting to the scene of the melee and upon arrival found the place in an uproar. Three soldiers and two civilians figured rather prominently. The policeman was set upon and received a few nasty knocks but succeeded in placing under arrest one soldier and one civilian, both of whom will be given a chance to tell their story to the court.

As a result of being thrown from a moving automobile Girvan Toole now lies in the Aberdeen Hospital suffering from a number of injuries and general nervous shock. He and a man named Howard Dickie were driving along Trenton road at a lively clip. There was a team coming in the opposite direction and in order to try and pass the team the auto driver swung to one side. The car skidded a short distance and then toppled over, throwing Mr. Dickie out with some force. Mr. Toole was pinned under the car. When removed from under the car it was found he was severely bruised.

The case of the King vs. Warren Dexter was taken up at the Police Court today. This case arose from a sort of free fight which occurred last Monday night on a tram car near the end of the Trenton line. Dexter, who is a military policeman, was charged with creating a disturbance. After hearing the evidence on both sides His Honor found the defendant guilty and imposed a fine of \$20.

MORE SHIPS VICTIMS OF GERMAN PIRACY

London, Nov. 10.—The following vessels have been sunk, it was announced today: British steamers Bogota, Gulf of Suez, and Engineer, Norwegian steamer Thuhauag.

The Gulf of Suez was bound from Alexandria, Egypt, for Liverpool, with cotton. A large portion of the cargo, it is said, was consigned to Boston and New York. The Gulf of Suez is the third steamer with cotton consigned to American importers that has been sunk within the past ten days.

The Dutch cross-channel mail steamer Konink Regentes, which left Flushing this morning, has been taken into Zebrugge, Belgium, by the Germans.

Americans Aboard.

The Hague, via London, Nov. 11.—Three Americans were aboard the Dutch cross-channel mail steamer Konink Regentes, which was taken into Zebrugge by the Germans.

GERMANY WARNS GREEK GOVERNMENT

London, Nov. 10.—Count Von Mirbach, the German minister to Greece, has notified the Greek government, according to special despatches from Athens, that the handing over of Greek guns and rifles to the Entente Allies would be considered an unfriendly act by Germany.

The Entente Allies, in their recent note demanded the departure of all the legations of the Central Powers. The Premier of Greece has stated that the subject of the note is very grave, and that there would be an unpleasant sequel if no compromise was reached by means of negotiations.

GOVERNMENT ENDEAVORING TO CONTROL LIVING COST

Drastic Regulations and Penalties Fixed by Order-in-Council—Wide Powers Conferred Upon Minister of Labor—Extensive Authority Conferred on Municipalities.

Ottawa, Nov. 10.—The full text of the government order-in-council, designed to control the cost of living in Canada shows that the new regulations are much more drastic than anticipated.

There is distinct provision against the accumulation of food products, save such as are required in the ordinary course of business. Under the combines act, it was made an offense to "unduly" enhance the price of commodities by means of combinations.

In the order, now passed, as regards the necessities of life, "unduly" is eliminated and any combination or agreement to enhance the price of food or clothing or fuel is made a criminal offense.

Drastic Regulations.

It is made an offense to agree to limit facilities for transporting, producing, manufacturing, storing or dealing in any necessary of life; to restrain or interfere trade or commerce in relation to any necessary of life; to prevent, limit or lessen the manufacture or production of any necessary

Drastic Regulations.

of life, or to enhance the price thereof, and to prevent or lessen competition in the production, sale, transportation or supply of any such commodity.

Wide Powers.

Wide powers are conferred upon the minister of labor, whose department will be the medium of action for the federal government, while extensive authority is likewise given the municipality, which is empowered to demand production of full business returns from any person or firm, under oath, where it is suspected excess prices are being demanded. The minister of labor has the same power.

Defines Necessities.

The order-in-council defines as "the necessary of life" a staple or ordinary article of food whether fresh, preserved, or otherwise treated, clothing and fuel, including the products, materials and ingredients from or of which any thereof are in whole or in part manufactured, composed derived or made.

Penalty for Infraction.

Penalty for infraction of any of the regulations is a fine not to exceed \$5,000 or imprisonment for any term up to two years or both.

PRIEST ONCE IN DISGRACE NOW HONORED

King George's Former Chaplain Decorated for Valor in Battle by French.

New York, Nov. 10.—The World says:

"Another man has emerged from the European war purged of disgrace, according to information received today. Fred P. Farrar, of the French Foreign Legion, has been decorated for valor in the field, and acclaimed for conspicuous gallantry. He disappeared five years ago, after his many friends here and in England learned that he was the Rev. Dr. Frederick Percival Farrar, rector of Sandringham, domestic chaplain to King George, and honorary chaplain to Queen Alexandra, Queen Dowager of Great Britain, and had been dismissed from his court posts. He had not been heard of since in the United States or England until a few days ago.

For a year he has been fighting in the foreign legion, but it is not known under what name. His persistent courage finally drew attention to him. GERMANY THREATENS NORWAY

Severance of Diplomatic Relations Between Two Countries Possible.

Berlin, Nov. 10, via London, Nov. 11.—The Lokal Anzeiger, in a leader regarding the hourly expected Norwegian answer to Germany's protest against Norway's attitude towards submarines, declares that should Norway refuse to alter its position, Germany will be forced to ignore Norway's order to submarines to avoid Norwegian waters. The newspaper adds:

"The Norwegian government will see itself faced with a serious decision. If Norway should abide by its illegal measures, it is clear that the results would be the continuation of diplomatic and other relations between Germany and Norway could not be thought of."

Clover Seed Hulling.

The Department of Agriculture is operating a clover seed huller. If a group of farmers have a reasonable quantity of clover containing seed, the department will be pleased to send the machine to thresh the same. For particulars, write J. B. Daggert, Secretary for Agriculture, Fredericton, N. B.

Do not know other Machines! Autos Engines, etc

Why not our own Body Machine?

We study and admire the machinery invented by man, and too often overlook and neglect that most marvellous machine—the human body.

To understand and take care of the heart, lungs and liver; the arteries and veins, the skin, the teeth, the eyes and all the intricate machinery of the body, is no small task.

But, unlike any other machine, the body replaces its own wear and waste, and, consequently, the most attention required is that which has to do with the organs of digestion and excretion.

So long as proper food is supplied for nourishment and the liver, kidneys and bowels are regular in their work of eliminating poisonous waste matter from the system, the great majority of human ills are avoided.

In this connection Dr. Chase's Kidney-Liver Pills are appreciated on account of their promptness and efficiency in arousing the action of these filtering and excretory organs, and thereby removing such disorders as liver complaint, biliousness, constipation, indigestion, kidney disease and backache. With these organs in healthful action there is no such thing as Bright's disease, hardening of the arteries and rheumatism.
